

Racism and The Rising of Northeast - A very long Journey

Discrimination is not any unknown word for us. Discrimination will be termed as unjust behaviour or attitude based on a prejudicial treatment to an individual, a selected group or certain groups on the grounds of ethnicity, race, language and sex etc.

North East because the name suggests situated within the North Eastern Corner of India, and bounded by China within the North, Bangladesh within the South West, and Bhutan within the North West and Burma in the East. The North Eastern region comprise of eight states, namely: Arunachal Pradesh, Assam, Meghalaya, Manipur, Mizoram, Nagaland, Tripura and Sikkim. This region is tenuously linked to the remainder of the country by a narrow corridor running 56 kilometres referred to as the 'chicken's neck', through the foothills of Bhutan and Sikkim to the state of West Bengal.

Well speaking about North East, from the very beginning this region has remained isolated from the so referred to as 'important movement Indian way of life.' it is stated that India is a 'Land of harmony in diversity' and properly it may be visible within the North Japanese region which consist of virtually 225 tribes living collectively and selling their specific culture and subculture however while this phrase is rightly analysed we can discover disparity's which is often called the mainstream India practices. It is able to be said so because of the reality of the life of the prevailing Discrimination, Racism and Prejudices.

'Chinki', an exceptionally regular term to allude or call an individual from North East. Aside from it terms like 'Chowmein', 'Chinese', 'Nepali', 'Bahadur' etc used to refer a North Eastern is also very usually seen. The very homicide of Nido Tania was also a consequence of the reprisal he made towards individuals who were taunting him on his outward appearance, his looks and the spot he

Social Psychology Of Race Relations:

The Social Psychology of Race Relations Leonard Bloom, 1971 *Psychology and Race* Peter Watson, 2017-09-05 Since the problems of race relations are worldwide the international origins and perspectives of this excellent and timely book are especially advantageous More research has been done in the United States than elsewhere on the psychology of race relations so it is appropriate that a plurality of the chapters of this book are by American authors a stellar group that includes leading contributors to our contemporary knowledge of the topic Contributors from the English speaking Commonwealth countries are next in number followed by authors from the United Kingdom where race related issues have only recently become a salient concern of politics and social ethics The editor has assigned topics to his carefully chosen author experts not by country or region but by matching the expertise of each author against a need for coherent analysis of the important aspects of a psychology and race Psychology and Race is divided into two major parts The first half of the book looks at the interracial situation itself The first section concentrates on the majority or dominant group and describes the development and measurement of racial awareness and prejudice and techniques for reducing prejudice the second section focuses on the reactions of subordinate or minority groups and the third deals with specific aspects of interpersonal interaction attitudes behavior and performance when the people concerned are of different races The book also looks at those areas of life where race is relevant and where psychology can help in an understanding of the situation The scope of this volume the distinction of its authors and the hardheaded sense of reality it brings to the discussion of these extremely complex issues will make it an invaluable resource not only for teachers and students but also for everyone concerned in any way with this most pressing issue of our times *The Social Psychology of Minorities* , 1978-12-01 Us and Them why do some groups feel superior to others Why is it that all too often the inferior group accepts the evaluation of their status by the superior group What happens when an inferior group decides to challenge the superior group and how do they go about it Can a minority group seek to achieve equal treatment from the majority society but also retain their separate identity The Social Psychology of Minorities seeks to answer these important questions which are of vital relevance to understanding the social realities of people's lives and particularly to the mechanics of prejudice and discrimination Written by Henri Tajfel former Professor of Social Psychology at Bristol University this succinct analysis discusses such concepts as the internal and external criteria of a minority group the effects of social change and the process and patterns of rejection and acceptance An important report on a subject which helps to shape the relationship between minority groups and the majority society The Social Psychology of Minorities will be especially useful to those concerned with social science education and the achievement of good community relations *The social psychology of race relations, London, G. Allen & Unwin* Leonard Bloom, **Social Psychology of Helping Relations** Arie Nadler, 2020-01-29 Examines the major aspects of giving and receiving help in interpersonal and intergroup relations This unique book extends the traditional emphasis on interpersonal help giving in order to consider a

wider spectrum of interpersonal and intergroup helping relations Help giving is viewed as reflecting people's care for others while at the same time dependency on help and giving help imply lower and higher places on the social hierarchy respectively It studies the psychology of what goes into helping someone and integrates experimental work conducted in the social psychological laboratory with applied research from volunteer organizations schools and work and family environments In addition to research on the giving of help the book considers the recipient of help and reviews research and theory on people's readiness to seek and receive help Unlike much of past research in this context that has been interested in the generosity question i.e. whether or not people help others the book considers how different kinds of assistance i.e. autonomy and dependency oriented help shape helping interactions It then goes beyond the analyses of the immediate helping interaction to consider the long term consequences of giving and receiving help Finally the book addresses theory and research on intergroup helping relations Social Psychology of Helping Relations Solidarity and Hierarchy begins with a general introduction to the topic It then offers a series of broad perspectives covering the philosophical and psychological theory evolution and overview of social psychological research Next the book looks at the social psychology of helping relations examining the parties involved and the why behind their actions The positives and negatives of giving and receiving assistance and the links between status and interpersonal and intergroup helping relations are also covered It considers how giving seeking and receiving help maintains or challenges status relations between individuals and groups The book finishes with a conclusion that wraps up the many lessons learned Looks at solidarity and inequality in social interactions Examines why people are ready to give and receive help Studies the consequences of giving and receiving help Highlights important implications to different kinds of help beyond the dichotomy between giving receiving help or not Addresses research and theory on interpersonal and intergroup helping relations The implications of helping relations for personal and social change Social Psychology of Helping Relations Solidarity and Hierarchy is an ideal book for advanced students researchers and individuals interested in social psychology counselling social work Sociology and Political Science
