## **Social Responsibility And Accountability:**

*Social Responsibility and Accountability* Jules Backman, New York University. College of Business and Public Administration, 1975-01-01      **Sustainability and Social Responsibility of Accountability Reporting Systems** Kıymet Tunca Çalıyurt, Roshima Said, 2018-03-01 This book explores sustainability and social responsibility from the point of view of accountability reporting systems The contributions to this volume open up discussions about the theory and application of sustainability and social responsibility across various corporate sectors and assists the reader in applying sustainable corporate social responsibility reporting across those sectors As a central theme the book addresses how the theory and application in sustainability and social responsibility has different dimensions and aspects which are impossible to apply across different sectors This point of view is supported by chapter contributions from countries around the world including Turkey Serbia Malaysia United States South Africa Italy China Brasil Romania Serbia Puerto Rico Algeria Academics worldwide will discover in Sustainability and Social Responsibility of Accountability Reporting Systems A Global Approach the latest developments about corporate social responsibility and sustainability of accountability reporting systems

Corporate Social Responsibility, Accountability and Governance Istemi Demirag, 2018-10-08 The business case for corporate social responsibility which suggests that socially and environmentally aware companies can expect to reap financial rewards is seemingly gaining widespread acceptance within the business community This is particularly apparent in the ever increasing number of prominent companies parading their social ethical and environmental credentials by producing paper or web based social and environmental or sustainability reports In so doing reporting companies claim they are demonstrating a clear commitment to transparency and accountability to their key stakeholder groups However in the prevailing voluntaristic business case centred climate within which such initiatives are taking place little thought appears to have gone into the question of how stakeholders other than the capital provider group can actually use corporate disclosures offered in order to hold management accountable for the social and environmental consequences of their actions While much corporate rhetoric abounds concerning notions of stakeholder dialogue and engagement rigorous analysis of the governance implications of their claimed commitment to the principles of corporate social responsibility is largely conspicuous by its absence Corporate Social Responsibility Accountability and Governance seeks to explore this missing link between CSR and associated reporting initiatives and governance mechanisms that are capable of embracing true stakeholder accountability A wide range of case studies drawing on experiences of both public and private sector initiatives in Europe the United States Canada South America and Asia offer insightful analysis of the complex relationships between the state the market and civil society in the development of CSR accountability and sustainable development The book employs a multidisciplinary perspective in order to analyse the political social economic technological legal and organisational shaping of CSR The complexities underpinning the concept are thereby clearly drawn out and the gross oversimplifications inherent in the

prevailing consultancy driven business case literature painfully exposed Above all the book offers a sound practically and theoretically informed contribution to public policy debate and reflects and builds on urgent calls from public and private sector policy makers as well as academics to develop better governance and accountability frameworks for business to deal with the imperatives of social responsibility sustainable development and ethics This book is divided into five parts In Part 1 the complex concepts of responsibility accountability and governance are discussed and in particular the presumed relationships between the state the market and civil society in improving accountability and governance are explored and critiqued Part 2 consists of chapters relating to corporate social responsibility and stakeholder theory Part 3 is concerned with empirical studies covering governance structures networking and corporate social responsibility Part 4 deals with corporate governance and its implications for regulators and civil society Part 5 discusses multinational companies and how they impact on national governance regimes Finally a summary is provided with emerging international patterns of accountability and governance structures Corporate Social Responsibility Accountability and Governance will be essential reading for public and private policy makers and practitioners and academics interested in how CSR can become more than a soundbite and rather a substantial force for better global corporate governance and accountability

**Accountability and Social Responsibility** David Crowther, Linne Lauesen, 2016-07-20 This book investigates how organizational governance is formed around socially responsible and accountable ways of leadership and management It provides new insights into various issues regarding business management and governance and points to ways for businesses to make a real change for the betterment of the world

**Corporate Social Responsibility** Bernabé Escobar-Pérez, María del Mar Miras-Rodríguez, 2018 Nowadays the relevance of Corporate Social Responsibility in private firms is undeniable as well as it is increasingly important for public organizations Although the idea that firms had some responsibilities to society beyond that of making profits has been around for centuries it was not until the end of the last century that CSR became a reality in business and one of the determinant factors that has been taken into account in decision making A good diversity management strategy as well as the development of a suitable accountability policy are decisive for being considered as a socially responsible organization Notwithstanding it seems that in some cultural environments it is no longer enough to be socially responsible Stakeholders demand transparency and to know more about the CSR engagement of each organization In this sense companies should include CSR in their core strategy and go beyond their commitment to CSR and to carry out a proper CSR communication strategy All these sustainable behaviors will have an impact on companies reputations if they are recognized by their stakeholders This book aims to provide more evidence to the field of knowledge through the study of this topic by considering the points of view from diverse fields of knowledge and applying different empirical methodologies

Paul, 1974 **Corporate Governance and Corporate Social Responsibility: How to Tackle Environmental Imperatives in Company Law?** Christophe George, 2023-10-04 The book first discusses the concepts of corporate governance and corporate social responsibility CSR and provides a new framework to deal with these issues in the context of sustainability It then explores the requirements of an end state of global sustainability and subsequently moves to a detailed analysis of the current governance regime delving into the CSR related liabilities and incentives at stake for both corporations and their directors It concludes with a framework suggesting that there are four normative avenues for addressing environmental and social imperatives in company law which helps reflect on how to tackle the potentiality for a sustainability gap in corporate governance and CSR The author always discusses practical realities and incentives at both the policy and corporate levels in addition to theoretical aspects The thesis on which this book is based received the distinction Summa Cum Laude and the 2023 Law Faculty Prize from the University of Lausanne Dr Christophe George is a Research Associate at the Centre for Business Research in the University of Cambridge He holds a PhD in Company Law and Management from the University of Lausanne a Master of Law LLM from the University of Cambridge a Master in Management from Harvard University and a Master in Law and Economics from HEC Lausanne **The New Corporate Accountability** Doreen J.
