International Cooperation in Social Security Ive Marx, Bea Cantillon, 2005 Some commentators have predicted that the developed welfare states may have to cut back on social protection in the face of international economic competition Concerns have also been expressed about social dumping and a race to the bottom This book addresses the following issues What does theory tell us about such claims Is there empirical evidence pointing to any form of social dumping Are welfare states converging What kind of international cooperation if any is necessary to safeguard developed welfare states while at the same time enhancing social protection in the less developed ones What can be learned from existing models of cooperation within federal states within the European Union and between other international organisations

Social Protection and the Market in Latin America Sarah M. Brooks, 2008-11-03 Social security institutions have been among the most stable post war social programs around the world Increasingly however these institutions have undergone profound transformation from public risk pooling systems to individual market based designs Why has this privatization occurred Why do some governments enact more radical pension privatizations than others This book provides a theoretical and empirical account of when and to what degree governments privatize national old age pension systems Quantitative cross national analysis simulates the degree of pension

privatization around the world and tests competing hypotheses to explain reform outcomes In addition comparative analysis of pension reforms in Argentina Brazil Mexico and Uruguay evaluate a causal theory of institutional change The central argument is that pension privatization emerges from political conflict rather than from exogenous pressures The argument is developed around three dimensions the double bind of globalization contingent path dependent processes and the legislative politics of loss imposition **The Bibliographic Index** ,2005 **Restructuring Territoriality** Christopher K.

Social Protection Globalised Jos Berghman, 2005 This book contributes to the growing amount of literature that is concerned with the relationship between globalisation and social security The aim of this work is first to clarify the impact of the globalisation process on social security systems and second to formulate substantive and technical proposals for the adaptation of existing social security schemes to an altered socio economic context and for the elaboration of international legal instruments aimed at an effective substantive and procedural protection of social security as a fundamental right The report is divided into three parts The first part is concerned with the social impact of globalisation and its consequences for social security systems in the high income economies The first article of this section considers the nature of globalisation as well as its social impact It spells out some fundamental challenges facing social security systems The following article elaborates further on one specific challenge that is the need for social security to adapt to the increased territorial mobility of workers The second part looks at the effects of globalisation on social security in relation to middle and low income countries and examines the extent to which existing arrangements in these countries are able to provide adequate income protection to the majority of the population For the group of middle income countries the relevance of globalisation for the privatisation of pension systems is analysed as well as the consequences with respect to their main social functions i e the provision of old age income security and income redistribution This is done so through a comparative analysis of Latin American countries that have implemented pension policy reform The following two articles consider the experience of social security systems in low income countries In the first article the impact and challenges of globalisation for existing formal and informal social security arrangements in low income countries are explored and options are suggested for alternative approaches to social security provision that are better suited to the circumstances of low income countries The arguments have been illustrated with evidence from Cote d'Ivoire a country with a socio economic situation and social security framework that is typical for the majority of low income countries The second article discusses in greater depth the link between informal economic and social security in Sub Saharan Africa Finally the third part calls for a global approach to social security To this end the first article in this section outlines a possible strategy for a generalised social protection at the global level based on the human damage theory while the last chapter of this work is concerned with the international legal instruments most appropriate for a better substantive and procedural protection of social security as a basic human right

Changing Social Equality Jon Kvist, 2012 Taking a comparative perspective this book casts new light on the changing inequalities in Europe Starting Strong II Early Childhood Education and Care (Korean version) OECD, 2009-01-29

Petite enfance, grands défis II Éducation et structures d'accueil OECD, 2007-05-31 Cet examen consacre l'éducation et l'accueil des jeunes enfants EAJE dans 20 pays de l'OCDE et critique les facteurs sociaux et économiques ainsi que les concepts et les recherches qui influent sur la politique de la petite enfance **Chinese Social Policy in a Time of Transition** Douglas Besharov, Karen Baehler, 2013-05-17 The story of China's spectacular economic growth is well known. Less well known is the country's equally dramatic though not always equally successful social policy transition. Between the mid 1990s and mid 2000s the focal period for this book China's central government went a long way toward consolidating the social policy framework that had gradually emerged in piecemeal fashion during the initial phases of economic liberalization. Major policy decisions during the focal period included adopting a single national pension plan for urban areas, standardizing unemployment insurance, re-establishing nationwide rural health care coverage, opening urban education systems to children of rural migrants, introducing trilingual education policies in ethnic minority regions, expanding college enrolment, addressing the challenge of HIV/AIDS more comprehensively and equalizing social welfare spending across provinces, among others. Unresolved is the direction of policy in the face of longer term industrial and demographic trends and the possibility of a chronically weak global economy. Chinese Social Policy in a Time of Transition offers scholars, practitioners, students and policymakers a foundation from which to explore those issues based on a composite snapshot of Chinese social policy at its point of greatest maturation prior to the 2007 global crisis **Starting Strong II** Organisation for Economic Co-operation and Development, 2006-09-19 This publication examines early childhood education and care in 20 OECD countries by reviewing the social, economic, conceptual and research factors that influence early childhood policy, including increasing women's labour market participation, reconciling work and family responsibilities on a more equitable basis for women, confronting the demographic challenges faced by OECD countries and issues of access, quality, diversity, child poverty and educational disadvantage. Following on from the previous review *Starting Strong* OECD 2001 ISBN 9264186751, this publication considers the progress made by participating countries and identifies ten key policy areas for further consideration by governments *International Labour Review* Organisation internationale du travail, Bureau international du travail, **Pensions in Development** Roger Charlton, Roddy McKinnon, 2018-03-29 This title was first published in 2001. Challenging conventional approaches to the delivery of sustainable social protection to the elderly in developing countries, DCs and assessing their implications, this work discusses the appropriateness of the public management of funded systems in DCs with relatively large formal sectors. The combination of social assistance approaches to social protection for the elderly facilitates the formation of an original, unbiased pensions in development approach. Arguing for expeditious implementation of non-contributory tax or aid-financed universal old age pensions provision in all DCs and advocating industry flexibility and

inclusivity the book provides a treatment of a growing issue in worldwide development *Starting Strong II Early Childhood Education and Care* OECD,2006-09-14 This review of early childhood education and care ECEC in twenty OECD countries describes the social economic conceptual and research factors that influence early childhood policy **The changing face of welfare** Goul Andersen, Jørgen,Guillemard, Anne-Marie,2005-10-12 There have been major shifts in the framework of social policy and welfare across Europe Adopting a multi level comparative and interdisciplinary approach this book develops a critical analysis of policy change and welfare reform in Europe The book applies a dynamic and change oriented perspective to shed light on policy changes that are often poorly understood in the welfare literature and contributes to a further development of the theoretical and conceptual frameworks for understanding social change Using citizenship as a focus several dimensions of change are analysed simultaneously changes in the discipline of social policy itself the changing character of social problems changes in social policy and citizenship and the emergence of new forms of social integration The book also speculates on how different dimensions of change are interlinked **Social Competences in Vocational and Continuing Education** Antony Lindgren,Anja Heikkinen,2004 Social competences have played a crucial role in the international search for generic over arching skills key qualifications and core competences since the 1970s By the end of 1990 social cohesion and integration had gained new momentum in this discourse because of their importance for the functioning of global market economy and industries Moreover the concept of social capital affects and changes the role of social competences in vocational and continuing education This volume presents a collection of papers which reflect and describe these changes and their political economical and pedagogical backgrounds and implications The topics include economisation of social competences social competences as key qualifications for employability and entrepreneurship social challenges in eroding welfare societies gender and social competences and the ideological and economical context of the social competences discourse **Exploring Inequality in Europe** Martin Heidenreich,2016-06-24 Europe has become a dominant frame for the generation regulation and perception of social inequalities This trend was solidified by the current economic crisis which is characterized by increasing inequalities between central and peripheral countries and groups By analysing the double polarization between winners and losers of the crisis the segmentation of labour markets and the perceived quality of life in Europe this book contributes to a better understanding of patterns and dynamics of inequality in an integrated Europe *Yearbook of Population Research in Finland* ,2003
