Liberalism and the radical liberal elements in the early Labour party The first part of the book focuses on the continuity of popular attitudes across the commonly assumed mid century divide with studies of significant personalities and movements as well as a local case study The second part examines the strong links between Gladstonian Liberalism and the working classes looking in particular at labour law taxation and the Irish crisis The final part assesses the impact of radical traditions on early Labour politics in Parliament the unions and local government The same attitudes towards liberty the rule of law and local democracy are highlighted throughout and new questions are therefore posed about the major transitions in the popular politics of the period *John Strachey* N. Making Histories CCCS, Richard Johnson, Gregor McLennan, Bill Schwartz, David Sutton, 2013-12-16 First published in 2006 History and politics are fundamentally connected indeed historians themselves have often made links between the two explicit Making Histories explores the relationship between history and politics as it has developed in histories which are critical of the dominant academic traditions of history writing and makes a substantial contribution to the debate about the most appropriate way to handle the relations between theory and history Part One is concerned with the development of people's history a social history with popular sympathies and links with radical politics Three phases are discussed the work of the Hammonds the Communist Party Historians Group of the 1950s and the historical political projects of E P Thompson

Part Two focuses on the relation between history and theory within Marxism generally and argues that philosophical and methodological assumptions play a key role in more narrowly empirical and historical debates Part Three presents discussions of three newer forms of political history writing which take a more popular turn oral history the public construction of the national past in the form of National Heritage or community and a feminist assessment of histories of the suffragette movement In challenging received opinion about the scope of history the authors stress that historiography is concerned not with the past but with the relation between the past and the present and argue that popular conceptions of history have an importance usually denied or ignored by academic historians
