International Norms and Local Politics in Myanmar Yukiko Nishikawa,2022-03-07 Nishikawa explores how international norms have been adopted in the local context in Myanmar to project a certain international image while in fact the authorities are exploiting these norms to protect their own interests In the liberal international world order promoted since the end of the Cold War democracy rule of law and human rights have become key components in state and peace building around the world Many donor governments and international organisations have promoted them in their aid and assistance However the promotion of these international norms is based on a flawed understanding of sovereignty and the world For this reason the enforcement of these international norms in Myanmar not only fails to protect vulnerable people but also in some instances exacerbates the situation thereby generating critical insecurity to the most vulnerable people A vital resource for scholars of Myanmar s politics as well as a valuable case study for International Relations scholars more broadly

**Socialism and the Newly Independent Nations** R. Ulyanovsky,1975-09 Developing Iran Hamidreza Mahboubi Soufiani,2023-10-20 This book examines the emergence of modern company towns in Iran by delineating the architectural political and industrial histories of three distinct resource based company town projects built in association with the Big Three powers of World War II The

book's narrative builds upon a tripartite research design that chronologically traces the formation and development of the oil, steel, and copper industries respectively favoured by Great Britain, the Soviet Union, and the United States in this part of the world. By applying three sets of comparative studies, the book provides critical vantage points to three different ideological design paradigms: postcolonial regionalism, socialist universalism, and rationalist modern nation building. From a global political context, the book contributes to the disclosure of new information about the geopolitical confrontation of these three nations in the Global South to increase their sphere of influence after the Second World War. Furthermore, it demonstrates how postwar architectural modernism was adopted by each power and adapted to their ideological mind frame to fulfil distinct social, cultural, political, and economic targets. This book examines multiple interconnections between architecture, politics, and industrial development by adopting a transdisciplinary approach based on comprehensive fieldwork, site surveys, and the analysis of original multilingual documents. As such, it will be of interest to researchers and students of architecture, history, international relations, and Middle Eastern studies.

Mao and the Sino-Soviet Split, 1959-1973 Danhui Li, Yafeng Xia, 2018-09-15 In the twenty-first century, students of Cold War history are fortunate to have the fruits of several major works on the Sino-Soviet split by European and American scholars. What is lacking in English literature, however, is a book based on international documentation, especially Chinese archival documents, that tell the story from the Chinese perspective. Based on archival materials from several countries, particularly China, and more than twenty years of research on the subject, two prominent Chinese historians, Danhui Li and Yafeng Xia, offer a comprehensive look at the Sino-Soviet split from 1959, when visible cracks appeared in the Sino-Soviet alliance, to 1973, when China's foreign policy changed from an alliance with the Soviet Union to opposing the United States, to aligning with the United States to oppose the Soviet Union. Mao and the Sino-Soviet Split, 1959-1973: A New History is a reevaluation of the history of the Sino-Soviet split and offers the first comprehensive account of it from a Chinese perspective. This book, together with its prequel Mao and the Sino-Soviet Partnership, 1945-1959: A New History, is important because any changes in Sino-Soviet relations at the time affected and to a great extent determined the fate of the socialist bloc. More importantly, it directly impacted and transformed the international political situation during the Cold War. These two books promise to be a reevaluation of the history of the Sino-Soviet alliance from its birth to its demise. These fascinating books will be a crucial resource for all those interested in the topic and will stand as the definitive work on the Sino-Soviet alliance for years to come.

China's Foreign Aid Hong Zhou, Hou Xiong, 2017-03-07 This book analyzes the changes in and development of China's Foreign Aid Policy and Mechanisms over the past 60 years. It offers readers a thorough introduction to China's Aid to Africa, its Aid to Southeast Asian Countries, its Aid Policy Toward Central Asian Countries, and its Aid to Latin America and the Caribbean Region, as well as their respective influence. Combining field research and surveys at the grass roots level, the book argues that China's foreign aid policy is intended to help other countries and has changed the strategic pattern of Western countries imposing blockades on New

China and has thus played a key role in expanding and strengthening China's economic and political ties with many developing countries restoring its legitimate seat in the United Nations and promoting the cause of cooperation with regard to international development Focusing on concrete examples rather than abstruse theories the book further argues that foreign aid requires practical policies suitable expertise and technologies at the same time international development a field largely overlooked by scholars of international relations can offer profound principles to shape international relations and foreign aid
