Walter Benjamin's Philosophy Andrew Benjamin, Peter Osborne, 2013-09-05 This collection explores in Adorno's description philosophy directed against philosophy The essays cover all aspects of Benjamin's writings from his early work in the philosophy of art and language through to the concept of history The experience of time and the destruction of false continuity are identified as the key themes in Benjamin's understanding of history

**Corporal Compassion** Ralph R. Acampora, 2019-11-21 Most approaches to animal ethics ground the moral standing of nonhumans in some appeal to their capacities for intelligent autonomy or mental sentience Corporal Compassion emphasizes the phenomenal and somatic commonality of living beings a philosophy of body that seeks to displace any notion of anthropomorphic empathy in viewing the moral experiences of nonhuman living beings Ralph R. Acampora employs phenomenology hermeneutics existentialism and deconstruction to connect and contest analytic treatments of animal rights and liberation theory In doing so he focuses

on issues of being and value and posits a felt nexus of bodily being termed symphysis to devise an interspecies ethos Acampora uses this broad based bioethic to engage in dialogue with other strains of environmental ethics and ecophilosophy Corporal Compassion examines the practical applications of the somatic ethos in contexts such as laboratory experimentation and zoological exhibition and challenges practitioners to move past recent reforms and look to a future beyond exploitation or total noninterference a posthumanist culture that advocates caring in a participatory approach **Women in Movement (Routledge Revivals)** Sheila Rowbotham, 2013-10-14 First published in 1992 this book is an historical introduction to a wide range of women's movements from the late eighteenth century to the date of its publication It describes economic social and political ideas which have inspired women to organize not only in Europe and North America but also in the Third World Sheila Rowbotham outlines a long history of women's challenges to the gender bias in political and economical concepts She shows women laying claim to rights and citizenship while contesting male definitions of their scope and seeking to enlarge the meaning of economy through action around consumption and production environmental protests and welfare projects

*Feminist Theory Today* Judith Evans, 1995-06-28 This stimulating text presents a concise and accessible introduction to feminist theory today Covering all the major variants of feminist political thought it offers a unique examination of the archive of modern feminist theory from the publication of *The Feminine Mystique* in 1963 to current postmodernist and legal feminist texts It provides both an intellectual history and a political critique of contemporary feminism in the United States and in the United Kingdom Judith Evans focuses on the divergence within as well as between feminist schools and on protests from women marginalized by the movement including those who are lesbian and those who are black *Feminist Theory Today* contends that the early feminist demand for radical equality has gone contributing to its drastic undertheorization While brilliantly reconceptualizing this concept the author documents the changes in socialist feminism from its revolutionary origins to its current focus on modifying liberal democratic forms **Critical Curriculum Studies** Wayne Au, 2012-03-22 A CHOICE Outstanding Academic Title 2012 *Critical Curriculum Studies* offers a novel framework for thinking about how curriculum relates to students understanding of the world around them Wayne Au brings together curriculum theory critical educational studies and feminist standpoint theory with practical examples of teaching for social justice to argue for a transformative curriculum that challenges existing inequity in social educational and economic relations Making use of the work of important scholars such as Freire Vygotsky Hartsock Harding and others *Critical Curriculum Studies* argues that we must understand the relationship between the curriculum and the types of consciousness we carry out into the world

Virginia Woolf and Being-in-the-world Emma Simone, 2017-04-19 Breaking fresh ground in Woolfian scholarship this study presents a timely and compelling interpretation of Virginia Woolf's textual treatment of the relationship between self and world from the perspective of the philosophy of Martin Heidegger Drawing on Woolf's novels essays reviews letters diary entries short stories and memoirs the book explores the political and the ontological as the individual's connection to the

world comes to be defined by an involvement and engagement that is always already situated within a particular physical societal and historical context Emma Simone argues that at the heart of what it means to be an individual making his or her way in the world the perspectives of Woolf and Heidegger are founded upon certain shared concerns including the sustained critique of Cartesian dualism particularly the resultant binary oppositions of subject and object and self and Other the understanding that the individual is a temporal being an emphasis upon intersubjective relations insofar as Being in the world is defined by Being with Others and a consistent emphasis upon average everydayness as both determinative and representative of the individual's relationship to and with the world

**The Owl's Flight** Stefania Achella, Francesca Iannelli, Gabriella Baptist, Serena Feloj, Fiorinda Li Vigni, Claudia Melica, 2021-10-25 This book presents a unique rethinking of G W F Hegel's philosophy from unusual and controversial perspectives in order to liberate new energies from his philosophy The role Hegel ascribes to women in the shaping of society and family the reconstruction of his anthropological and psychological perspective his approach to human nature the relationship between mental illness and social disease the role of the unconscious and the relevance of intercultural and interreligious pathways All these themes reveal new and inspiring aspects of Hegel's thought for our time

*The Meaning of Israel* Åsmund Borgen Gjerde, 2025-08-01 Why did social democrats in the 1940s and 1950s idealise Zionism and Israel And why did the New Left of the 1960s denounce Israel as an apartheid state and a bridgehead of imperialism The Meaning of Israel Anti Zionism and Philo Zionism in the Postwar Left a case study of Norway offers new and intriguing answers to both questions Previous national case studies of left ideas about Israel have tended to explain with reference to national peculiarities of the country in question e g guilt over the Holocaust in the case of Germany This book by contrast considers its findings about Norway in the context of what we know from other national case studies and uses this approach to suggest explanations that may be valid across national boundaries The Meaning of Israel argues that left ideas about Zionism and Israel have been inextricably intertwined with ideas about civilisation Post war social democrats used ideas about Zionism and Israel to assuage their anxiety about the future of civilisation and to reaffirm the viability of this very concept The anti Zionism of the

New Left on the other hand grew out of a broader rejection of ideas of civilisation The book will appeal to academics and general readers interested in the history of the Left Israel and anti semitism      **Western Political Thought** Robert Eccleshall, Michael Kenny, 1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability      *Finding Freedom* Sara MacDonald, 2008-05-15 Combining a detailed study of Hegel's political philosophy with close readings of two important literary works that help clarify his thought MacDonald traces the historical development of an enduring link between personal lives and stable political communities While Sophocles Antigone highlights the tension in states that deny the interests of their citizens MacDonald shows that Shakespeare's A Midsummer Night's Dream offers an alternative image one that sees freedom for all as essential to an ethical family and state and is consistent with Hegel's thought in both the Phenomenology of Spirit and The Philosophy of Right      Animaladies Lori Gruen, Fiona Probyn-Rapsey, 2018-11-29 Do depictions of crazy cat ladies obscure more sinister structural violence against animals hoarded in factory farms Highlighting the frequent pathologization of animal lovers and animal rights activists this book examines how the madness of our relationships with animals intersects with the madness of taking animals seriously The essays collected in this volume argue that animaladies are expressive of political and psychological discontent and the characterization of animal advocacy as mad or crazy distracts attention from broader social unease regarding human exploitation of animal life While allusions to madness are both subtle and overt they are also very often gendered thought to be overly sentimental with an added sense that emotions are being directed at the wrong species Animaladies are obstacles for the political uptake of interest in animal issues as the intersections between this volume and established feminist scholarship show the fear of being labeled unreasonable or mad still has political currency      Women Encounter Technology Swasti Mitter, Sheila Rowbotham, 2003-09-02 This collection explores the effects of new technologies on women's employment and on the nature of women's work The volume is edited by two pre eminent scholars in the field and contains thirteen articles from leading academics worldwide The book provides a critique of postmodernism and ecofeminism and demands that new technology is used as a vehicle for gender equality in the developing world      **The Feminist Encyclopedia of German Literature** Friederike Eigler, Susanne Kord, 1997-02-28 Today a multiplicity of feminist approaches has become an integral part of the fields of German literary and cultural studies This comprehensive reference provides a much needed synthesis of the contribution women have made to German literature and culture In entries for more than 500 topics the volume surveys literary periods epochs and genres critical approaches and theories important authors and works female stereotypes laws and historical developments literary concepts and themes and organizations and archives relevant to women and women's studies Each entry offers a concise identification of the term a discussion of its significance and a bibliography of works for further reading Today a multiplicity of feminist approaches has become an integral part of

the fields of German literary and cultural studies While biographical works on women writers exist this is the first reference to synthesize the wealth of feminist scholarship in German studies While existing reference works focus exclusively on women authors this volume contains numerous topical entries and covers the role of women in German literature and culture from the Middle Ages to the present day Included are alphabetically arranged entries on more than 500 topics While some entries are provided for important women writers and other individuals the bulk of the volume provides information on literary periods epochs and genres critical approaches and theories female stereotypes laws and historical developments literary concepts and themes and organizations and archives relevant to women and women's studies Each entry includes a brief identification of the subject a discussion of feminist thought on the topic and a brief bibliography Entries are written by numerous contributors and reflect a range of critical theoretical approaches

**Educational Administration** Judith Chapman, 2020-08-04 Both the theory and practice of educational administration have undergone major changes in recent years There is now more theoretical diversity in the field than at any other time with influences from traditional and post positivist science subjectivism ethics critical theory and cultural studies Similarly social political and economic factors have brought about new approaches to practice Schools administration in particular is increasingly being dominated by decentralization and pressures for accountability on curriculum and educational outcomes Educational Administration is the first Australian text to offer a comprehensive survey of theory context and practice It includes chapters from leading Australian scholars such as Richard Bates Hedley Beare Brian Caldwell Gabriele Lakowski and Fazal Rizvi

*Bicycle Citizens* Robin M. LeBlanc, 2023-09-01 While the typical Japanese male politician glides through his district in air conditioned taxis the typical female voter trundles along the side streets on a simple bicycle In this first ethnographic study of the politics of the average female citizen in Japan Robin LeBlanc argues that this taxi bicycle contrast reaches deeply into Japanese society To study the relationship between gender and liberal democratic citizenship LeBlanc conducted extensive ethnographic fieldwork in suburban Tokyo among housewives volunteer groups consumer cooperative movements and the members of a committee to reelect a female Diet member who used her own housewife status as the key to victory LeBlanc argues that contrary to popular perception Japanese housewives are ultimately not without a political world Full of new and stimulating material engagingly written and deft in its weaving of theoretical perspectives with field research this study will not only open up new dialogues between gender theory and broader social science concerns but also provide a superb introduction to politics in Japan as a whole While the typical Japanese male politician glides through his district in air conditioned taxis the typical female voter trundles along the side streets on a simple bicycle In this first ethnographic study of the politics of the average female citizen i

People and Environment Gareth Jones, 2014-06-11 People and Physical Environment A Global Approach provides an introduction to the main areas of environmental concern for geographers environmental scientists and planners at the beginning of the twenty first century These include Pollution of the atmosphere

and its impact on our climate The exploitation of the oceans Management and supply of fresh water Degradation of the land and Biodiversity and the need to maintain genetic diversity The book argues that our knowledge and understanding of the environment is now so great that we can predict with considerable accuracy where the skills of science and technology need to be focussed in order to prevent severe environmental damage from occurring Achieving successful management of the environment has become dependent upon active participation of a society prepared to pay for a high quality of life and the willingness of our elected politicians to legislate and enforce the very highest standards of environmental management This book will be essential reading for students of geography environmental studies science and land use planners and will also contribute valuable information for climatology biogeography hydrology land economy and forestry students
