Taylor, 2006 This book explores the lives of young Bulgarians in the Cold War era when the Communist Party saw dance hits like *The Twist* as a menace to youth and society It investigates the Party's efforts to shape youth into socialist personalities and to create a socialist mass culture in the face of Westernization On the basis of biographical interviews the book takes a critical look at the popular view of youth enthusiasm for Western rock and lifestyles as resistance Young Bulgarians scarcely challenged the socialist order But at the same time the Party failed to impose its notion of conformity on the self-proclaimed Beatles generation Feminist Time Against Nation Time Victoria Hesford, Lisa Diedrich, 2009-12-01

Feminist Time Against Nation Time offers a series of essays that explore the complex and oftentimes contradictory relationship between feminism and nationalism through a problematization of temporality Although there has been much recent discussion in the U.S. of the wars in Afghanistan and Iraq and the War on Terror as signaling a new period of permanent war feminist voices have not been at all prominent in this discussion This collection considers not only the ways in which public spaces for dissent are limited but also the ways in which the time for such dissent is cut short *Feminist Time Against Nation Time* combines philosophical examinations of *Women's Time* by Julia Kristeva and *The Time of Thought* by Elizabeth Grosz with essays offering case studies of particular events including Kelly Oliver's essay on the media coverage of the U.S. wars on terror and in Afghanistan and Iraq and Betty Joseph's on the anti-colonial uses of women's time in the creation of nineteenth-century Indian nationalism *Feminist Time Against Nation Time* juxtaposes feminist time against nation time in order to consider temporalities that are at once contrary to but also drawing toward each other Yet Hesford and Diedrich also argue that because as an untimely project feminism necessarily operates in a different temporality from that of the nation againstness is also used to provoke a rupture a momentary opening up of a disjuncture between the two that will allow us to explore the possibilities of creating a space and time for feminists to think against the current of the present moment *Remains of*

*Socialism* Maya Nadkarni, 2020-07-15 In *Remains of Socialism* Maya Nadkarni investigates the changing fates of the socialist past in post-socialist Hungary She introduces the concept of remains both physical objects and cultural remainders to analyze all that Hungarians sought to leave behind after the end of state socialism Spanning more than two decades of post-socialist transformation *Remains of Socialism* follows Hungary from the optimism of the early years of transition to its recent right-wing turn toward illiberal democracy Nadkarni analyzes remains that range from exiled statues of Lenin to the socialist era Bambi soda and from discredited official histories to the scandalous secrets of the communist regime's informers She deftly demonstrates that these remains were far more than simply the leftovers of an unwanted past Ultimately the struggles to define remains of socialism and settle their fates would represent attempts to determine the future and to mourn futures that never materialized **The Socialist Debate** Bogdan Denis Denitch, 1990 No **The Constantinos Karamanlis Institute**

Botsiou, 2009-06-24 Constantine Arvanitopoulos and Konstantina E Botsiou Europe at a Crossroads European unification has rested on a dual premise One part was the effort of the European nations to consolidate peace by overcoming the nationalism which had twice drenched the continent in blood in the 20th century War among West European states became unthinkable in the post war era The second part was the creation of a single European economy following the tremendous task of post war reconstruction and recovery Over the years the achievement of economic stability was matched by initiatives that aimed to render Western Europe competitive on a global scale The creation of the European Union EU in the 1990s through the Treaties of Maastricht 1992 and Amsterdam 1997 and later Nice 2001 which successively revised the founding Treaties of Rome 1957 was largely a response to the challenge of globalisation Integration rejuvenated the nation state thus creating the hybrid of the European welfare state a mix of state imposed stability and private initiative Like its 1 Sforza C 1936 Europe and the Europeans Community Report A study in historical psychology and international politics London George G Harrap and Company 2 Milward A S 1984 The reconstruction of Western Europe 1945 1951 London Routledge Hogan M J 1987 The Marshall plan America Britain and the reconstruction of Western Europe 1947 1954 Cambridge Cambridge University Press 3 Dyson K Featherstone K 1999

*Post-Liberalism* John Gray, 2014-02-04 John Gray has become one of our liveliest and most influential political philosophers This current volume is a sequel to his *Liberalisms* Essays in Political Philosophy The earlier book ended on a sceptical note both in respect of what a post liberal political philosophy might look like and with respect to the claims of political philosophy itself John Gray s new book gives post liberal theory a more definite content It does so by considering particular thinkers in the history of political thought by criticizing the conventional wisdom liberal and socialist of the Western academic class and most directly by specifying what remains of value in liberalism The upshot of this line of thought is that we need not regret the failure of foundationalist liberalism since we have all we need in the historic inheritance of the institutions of civil society It is to the practice of liberty that these institutions encompass rather than to empty liberal theory that we should repair
