China's Peasant Agriculture and Rural Society Jan Douwe van der Ploeg,Jingzhong Ye,2016-05-20 China's agriculture and rural society has undergone rapid changes in recent years Many poorer farmers and younger people have moved to cities and yet China has an immense challenge to feed a growing and more affluent population This book provides a bottom up view of

China's agriculture showing how the many millions of Chinese peasants make a living. It presents a vivid description of the mechanisms used by rural households to defend and sustain their livelihoods, increase their agricultural production and improve the quality of their lives. The authors examine the newly emerging trajectories of entrepreneurial and capitalist farming and assess whether such alternatives will be able to meet the enormous social, economic and environmental challenges that China faces. The book also explores the paradigm that has underpinned the organisation and development of China's agriculture from ancient times to the present day. This shows the importance of balancing in the Chinese model as compared to the one-sided imposition of continual modernization in the western model. It is argued that such balancing is at the core of the current Sannong policy referring to the three ruralities of food sovereignty, wellbeing for peasant households and an attractive countryside. Africa Catherine Coquery-Vidrovitch, 1988. Coquery-Vidrovitch's book is not merely good; it is marvellous. It represents the finest product of the Annales tradition of structural history. La veille de la colonisation, le c l bre empire songhay du Moyen Age n tait plus qu'un souvenir. Les groupes songhay zarma ou assimil s divis s entre chefferies multiples et soumis l h g monie des Touaregs ou des Peuls n avaient plus en commun que la langue et la culture. Partir de sources multiples et en s appuyant en particulier sur une grande diversit de t moignages paysans contemporains, largement cit s dans cet ouvrage, l auteur pr sente un tableau des principales contradictions sociales qui structuraient les soci t s songhay zarma Niger occidental et Mali oriental. Ma tres et esclaves, chefs et sujets, guerriers et paysans, a n s et cadets, hommes et femmes formaient ainsi la trame de l'espace social. Mais pour en comprendre le fonctionnement, il faut toutefois d construire les notions faussement videntes d esclavage de guerre, de chefferies ou d a nesse. Partir des ann es 1900, la colonisation d truit ou modifie l ancien syst me de contradictions. Un autre se met en place autour de nouvelles formes de pouvoir et d extorsion. La manipulation de la coutume y jouera un grand r le. Relevant la fois de l anthropologie sociale et de l ethnohistoire, ce livre s appuie sur un choix m thodologique : la culture est un produit et un enjeu, et non un simple patrimoine. Les soci t s villageoises sont clat es, fractur es h t rog nes.
