Chazan, 2019-02-28 The paths of African states have diverged markedly since the termination of colonial rule Nevertheless Ghana the first African state to achieve independence epitomizes both the political gyrations and the overall stagnation common to many other countries on the continent This work concentrates on the 1969-1982 period in Ghana focusing on two interrelated facets of African politics the decline of state power and authority and adjustments to political recession The author traces the dual patterns of diminution of the state and the adaptation of autonomous coping mechanisms in the separate spheres of political leadership political structures and institutions ideology and political economy The dynamic of state-society interactions is then treated in terms of the rhythm of dissent conflict and disengagement Dr Chazan provides a comprehensive study of Ghanaian politics from the 1970s to the present By systematically analyzing the process of political decline and regeneration she highlights similar processes apparent elsewhere in Africa The stress on the subtleties and direction of political change has important implications for policymakers and policy analysts alike *The Press and Political Culture in Ghana* Jennifer Hasty, 2005-04-28 In *The Press and Political Culture in Ghana* Jennifer Hasty looks at the practices of journalism and newsmaking at privately owned and state operated daily newspapers in Ghana Hasty decodes the styles and uncovers the strategies that characterize Ghana's major printed news media focusing on the differences between news generated by the state and news that comes from private sources Not only are the angles radically different but so are ways of gathering the news assigning beats using sources and writing articles For all its differences in presentation however Hasty shows that the news in Ghana projects a unified voice that is the result of a contentious and multifarious process that joins Ghanaians in global national and local debates An important engagement with the production of news and news media this book also explores questions about the relationship of popular culture to state politics the expression of civic culture and the role of the media in constituting national and cultural identities **Changing Perspectives on the Social Sciences in**

**Ghana** Samuel Agyei-Mensah, Joseph Atsu Ayee, Abena D. Oduro, 2014-05-08 This book is the first compilation of its kind that brings together discussions of the evolution of scholarship in different branches of the Social Sciences It presents a comprehensive multi-disciplinary text exploring the changing dynamics of the Social Sciences in Ghana offering a broader perspective from which to view the evolution theory methods substance and relevance of each of the Social Science disciplines and their multiple interfaces The introduction and the conclusion are devoted to the theoretical comparative and

empirical debate over the Social Sciences from historical and analytical perspectives Written by acknowledged experts the 15 chapters span the following disciplines Archaeology and Heritage Studies History Geography Psychology Sociology and Anthropology Social Work Economics Political Science International Affairs Information Studies Communication Studies African Studies Development Studies Women s and Gender Studies and Adult and Continuing Education Changing Perspectives on the Social Sciences in Ghana offers sophisticated perspectives for comparing and appreciating the synergies differences trends and nuances among and between the Social Science disciplines in Ghana in a holistic and scholarly manner Decolonization and African Society Frederick Cooper,1996-08-28 This detailed and authoritative volume changes

our conceptions of imperial and African history Frederick Cooper gathers a vast range of archival sources in French and English to achieve a truly comparative study of colonial policy toward the recruitment control and institutionalization of African labor forces from the mid 1930s when the labor question was first posed to the late 1950s when decolonization was well under way Professor Cooper explores colonial conceptions of the African worker and shows how African trade union and political leaders used the new language of social change to claim equality and a share of power This helped to persuade European officials that the modern Africa they imagined was unaffordable Britain and France could not reshape African society As they left the continent the question was how they had affected the ways in which Africans could reorganize society themselves **Politics, Governance, and Development in Ghana** Joseph R.A. Ayee,2019-10-16 Since it achieved

independence in 1957 the West African state of Ghana has become the torchbearer of African liberation as well as a laboratory for the study of endemic problems facing the African continent In terms of democratic consolidation the country holds a unique position on the continent as beacon of stability and democracy Politics Governance and Development in Ghana takes critical stock of the landmark themes that have dominated its history since independence The contributors address issues such as citizenship civil society the military politicians chiefs transnational actors the public sector and policies the executive branch decentralization the economy electoral politics natural resources and relations with Asia and the diaspora These themes support mobilizing for Ghana s future which is the theme for the diamond jubilee celebration of Ghana s independence Edited by Joseph R A Ayee this book will deepen the literature on studies on Ghana especially in the areas of politics governance economy and development serve as a resource for academics students practitioners and commemorate the diamond jubilee celebration of Ghana s independence **Political Domination in Africa** Patrick Chabal,1986-10-09

This collection of essays brings together historians and political scientists from Britain France and the United States who from widely differing perspectives and traditions have been involved in the process of rethinking African politics They present here the outline of a new approach grounded in universal political theory rather than on theories of Third World political development This seeks to integrate the history of Africa from pre to post colonial with concepts of political theory as they have been applied historically to the analysis of Europe and America The book addresses a wide audience students of

African history and politics of Third World development and of political theory      Political Development and the New Realism in Sub-Saharan Africa David Ernest Apter, Carl Gustav Rosberg, 1994 Since the 1950s David Apter and Carl Rosenberg have been among the leading American scholars in African Studies In this volume they along with other major specialists in the field explore the new configurations of African politics With tentative efforts at a revival of democracy now taking place it seems appropriate to reassess the theoretical debates and empirical themes that have characterized postwar Sub Saharan African politics Focusing on new realism that has emerged among Africanists since the dismantling of colonial rule the essays are presented as a corrective both to the initial euphoria informing African studies and to the later tendency to place blame for all Africa's political and economic difficulties on the receding specter of colonial oppression      Ethnicity in Ghana NA NA, 2016-04-30 Although African ethnicity has become a highly fertile field of enquiry in recent years most of the research is concentrated on southern and central Africa and has passed Ghana by This volume extends many of the distilled insights but also modifies them in the light of the Ghanaian evidence The collection is multidisciplinary in scope and spans the pre colonial colonial and post colonial contexts A central contention of the volume is that while there were significant regional variations ethnicity was not purely a colonial invention The boundaries of our groups have constantly mutated from pre colonial times while European categorization owed much to indigenous ways of seeing The contributors explore the role of European administrators and recruitment officers as well as African cultural brokers in shaping new identities The interaction of gender and ethnic consciousness is explicitly addressed The volume also examines the formulation of the national question in Ghana today in debates over language policy and conflicts over land and chieftaincy

that bring potentially esoteric issues to life Also included are brief case studies role playing exercises and staggered assignments for individual projects that can be used by imaginative instructors to promote hands on involvement An appendix lists other useful sources for case materials and the book contains numerous valuable references to the recent literature on development Gregory D Schmidt Northern Illinois University This book offers interesting features at both the pedagogical and analytical levels The author s interdisciplinary approach as well as her macro and micro perspectives give valuable insight into the highly complex world of the management of development International Review of Administrative Sciences This is a superb text one that will be required reading by all scholars in the field of development It is particularly important for its contribution to recent scholarship and its use of new innovative approaches to development This book is a breath of fresh air in a field full of platitudes and old ideas It will improve both thinking and teaching about development management Jane L Parpart Dalhousie University Nova Scotia Canada Long overdue This text is not only gender sensitive but interdisciplinary theoretically grounded policy relevant and best of all interesting to read Sue Ellen Charlton Colorado State University While theoretically aware and non aligned to any official agency Staudt s approach to development management is essentially practical and pragmatic Her concern for grassroots participation is combined with a full appreciation of the significance of national and international levels of decision making and implementation and of the roles of both governmental and non governmental organizations In a style that is both direct and clear she informs but does not prescribe about the contexts the techniques the institutions and the sectors in which and with which management operates providing in the process a variety of challenging and realistic case studies She also succeeds admirably in integrating gender as a matter of common sense into the mainstream of international development management concerns David Hirschmann The American University Washington D C This text provides a brilliant juxtaposition of interrelated but hitherto isolated fields in the complex and controversial political economy of development The author brings unique timely insights and formats to bear especially from indigenous Third World activists authors and scholars as well as practitioners She bridges the local and global the political and the technical Her book is particularly welcome at the start of the 1990s as a truly radical departure from the diversions and disappointments of orthodox development administration and structural adjustment Hopefully public policy will not be the same once this text is distributed digested and debated Timothy W Shaw Dalhousie University Nova Scotia Canada Staudt presents a multifaceted comprehensive analysis with illustrative examples drawn from a wide range of countries a worthwhile contribution to recent literature reporting on and assessing the record of governmentally sponsored developmental efforts with a focus on issues of management and administration Woven throughout the text are commendable references to persistent deficiencies such as the dearth of participation by women in development activities and the frequency of a feeling of alienation and distance between institutional staff members and the people they should be serving Another praiseworthy feature is inclusion of many teaching aids such as cases role playing sessions and staggered

assignments related to the preparation of individual projects outstanding source for bibliographical information about recent literature on development Public Administration Review A useful book for those involved in development work it moves beyond politics and policy making into organization for action and studies political relationships between people their organizations and the state in development projects Case studies examples and role play exercises are used to build analytic skills Intermediate Technology Bookshop The complexities facing development managers are vast The enormous challenges to understanding the breadth and depth of development transformation are apparent in each level of this process and demand attention Answering the need for a comprehensive introductory resource is Managing Development This fresh perspective on development management analyzes both international and national development agencies and shows the widely differing cultural contexts in which to plan manage and evaluate development programs Stressing political context and process throughout the focus nevertheless in Managing Development is on bureaucratic politics and political relationships between people their organizations and the state in development programs and projects The chapters examine development programs in agriculture and health particularly reproductive health and provide hypothetical situations examples and roleplay exercises A well integrated treatment of development teaching learning and applications this volume shows that much can be learned from the analysis of both successful and unsuccessful development programs Managing Development is the essential resource for courses in development studies political science comparative politics urban studies and policy studies as well as for planners and researchers in development management

*When Parties Fail* Kay Lawson, Peter H. Merkl, 2014-07-14 Throughout history parties have faltered and new groups have emerged but rarely has this process been so accelerated so widespread and so conducive to dramatic political change as in our present era When Parties Fail explores alternative organizations in depth and comparatively Among the organizations discussed are environmentalist groups such as the West German and Swedish Greens the Italian Radicals and local protest groups in Japan Switzerland and the United States Also considered are new groups seeking attention in unresponsive party systems such as the Danish Gilstrup party the British SDP and American PACs community parties and movements in Israel India Britain and the American South and antiauthoritarian movements in Poland Solidarity Taiwan and Ghana The case of France provides an example of major party survival Three broadly comparative chapters consider the reasons for major party persistence in some nations and the causes and impact of their decline in others The contributors to the book are David Apter Myron J Aronoff Liang shing Fan Frank B Feigert Zvi Gitelman Ronald J Herring Jon Kraus Kay Lawson Tom Mackie Peter H Merkl Raffaella Y Nanetti Angelo Panebianco Mogens N Pedersen Geoffrey Pridham Peter Pulzer Richard Rose Donald Schoonmaker Frank Sorauf Robert C A Sorensen Evert Vedung Hanes Walton Jr and Frank L Wilson Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important

books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905     The Politics of Government-Business Relations in Ghana, 1982-2008 D. Opoku, 2015-10-14 Since the early 1980s the World Bank backed by aid donor countries has been involved in a determined effort to stimulate capitalist growth in Africa by prescribing a set of orthodox neoliberal economic policies Using Ghana as a case study this book considers why this is the case     **Administrative Culture in Developing and Transitional Countries** Ishtiaq Jamil, Steinar Askvik, Farhad Hossain, 2016-03-17 The book explores theoretical methodological and empirical underpinnings of administrative culture as well as prospects and challenges associated with it in the context of and across developing and transitional countries Referring to dominant norms and values in public organizations administrative culture is about the attitudes and perceptions of public officials In many countries civil servants are criticised for being corrupt incompetent unreliable and self centred Their attitudes norms and values and the way they act are in constant conflict with rule of law Recently the virtues of the Weberian model of bureaucracy have been reclaimed as an alternative to New Public Management NPM i e as a model which emphasizes impartiality rule following expertise and hierarchy rather than manipulation of incentive structures and market competition In particular it has been argued that a system of meritocratic recruitment and predictable long term careers increases the professional competence of the bureaucrats and fosters a culture of professionalism among them Still it is unclear how and under what conditions such a model can be adopted Among main hindrances seems to be established power structures and the existing political and societal culture which undermine the effective implementation of the Weberian model This book was published as a special issue of the International Journal of Public Administration     *Public Administration in the Third World* V. Subramaniam, 1990-06-26 This multi-author reference handbook gives a detailed objective picture of the evolution structure and processes of public administration in representative Third World countries Written by an international group of specialists with first hand knowledge of the subject it presents empirical studies of developing nations in Asia the Middle East North and Sub Saharan Africa the West Indies and Latin America The resulting data are shaped by the editor into a theoretical framework delineating the complex relationships of state bureaucracy and class in the Third World Subramaniam's introduction provides a critical overview of development literature in the field Each case study begins with an historical introduction and discusses the political executive and the administrative structures and processes Among the specific topics covered are public enterprises administrative departments personnel financial administration and regional and local administrative units The majority of the systems studied are affected by the unregulated power of public enterprises the persistence of colonial legacies and the elitism of the bureaucracy The concluding section relates these common elements to the sociohistorical characteristics of the middle class groups that dominate both politics and public administration Offering new research findings and a useful theoretical

synthesis this study will promote a clearer understanding of the internal political processes of Third World nations and be of compelling interest to specialists and students concerned with Third World political economy comparative government and international political economy     Interpreting Political Responsibility John Dunn,2014-07-14 In this volume one of the leading political theorists of our time addresses what he believes is the major task of political theory showing human beings how they have good reason to act in the historical situation in which they find themselves Dunn argues that humans today depend more abjectly and extensively than ever before on the capacity of some of our number for skillful political action There are many reasons for this dependence closely linked nuclear threat and financial systems massive trade flows that sustain or imperil the well being of all modern populations and the awesome scale of the unintended ecological effects of human production Why has modern political theory failed to relate these factors systematically to one another and to provide people with adequate reasons for action To answer this twin query Dunn brilliantly deploys the resources of the historical development of Western political thinking in counterpoint with some of the main lessons of international political economy The concluding essay reasserts that the classical virtue of prudence has a central place in contemporary politics The conditions of modern politics it maintains require the exercise of prudence not merely by political military and economic leaders but also by the populace at large Overall this selection of Dunn s most influential work of the past decade reflects his remarkable range of interestsincluding Locke s ideological importance the nature of trust in politics rights liberty responsibility at a national level postcolonial African politics and political community The book will be required reading for students from a variety of disciplines Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905     *States at Work* Thomas Bierschenk,Jean-Pierre Olivier de Sardan,2014-01-30 *States at Work* explores the mundane practices of state making in Africa by focussing on the daily functioning of public services and the practices of civil servants     **Parties, Political Finance, and Governance in Africa** Rachel Sigman,2023-03-16 A major challenge for the advancement of democratic governance in Africa is the extraction of money by ruling parties from the state to fund their electoral campaigns and gain political advantage over opponents Drawing upon in depth case studies of Benin and Ghana Rachel Sigman considers how and with what consequences party leaders control and access public funds to finance their political operations Weaving together biographical data on government ministers surveys of civil servants elite interviews and archival research Sigman explains leaders extraction strategies and connects these strategies to how politicians manage state personnel In so doing she challenges the perception of African states as uniformly weak and argues that effective government is possible

even in contexts of widespread state politicization corruption and clientelism Demonstrating the profound impact that extractive financing practices have on democratic institutions Sigman illuminates and develops our understanding of good governance across the African continent
