**Competitive Political Regime and Internet Control** Liu Yangyue, 2014-06-02 Why are policies of internet control adopted in a democratic state while internet freedom is guaranteed in a more authoritarian context In this work on the comparative politics of internet control it is argued that regime type per se is not the direct determinant of the internet control outcome Instead the book proposes an alternative model that addresses the intensity of online transgressiveness and the capacity of online civil society While online transgressiveness propels governments to seek internet control strategies online civil society represents an inhibiting force the cohesiveness of which determines the extent to which societal resistance against internet censorship might succeed Through detailed studies of Malaysia Thailand and Indonesia
