Behnken, Gregory D. Smithers, Simon Wendt,2017-09-07 Contributions by Tunde Adeleke Brian D Behnken Minkah Makalani Benita Roth Gregory D Smithers Simon Wendt and Danielle L Wiggins Black intellectualism has been misunderstood by the American public and by scholars for generations Historically maligned by their peers and by the lay public as inauthentic or illegitimate black intellectuals have found their work misused ignored or discarded Black intellectuals have also been reductively placed into one or two main categories they are usually deemed liberal or less frequently as conservative The contributors to this volume explore several prominent intellectuals from left leaning leaders such as W E B Du Bois to conservative intellectuals like Thomas Sowell from well known black feminists such as Patricia Hill Collins to Marxists like Claudia Jones to underscore the variety of black intellectual thought in the United States Contributors also situate the development of the lines of black intellectual thought within the broader history from which these trends emerged The result gathers essays that offer entry into a host of rich intellectual traditions *Society and Thought in Modern America: Society and thought in early America, a social and intellectual history of the American people through 1865* Harvey Wish,1962 *Liberating Women's History* Berenice A. Society and Thought in America: Society and thought in modern America : a social and intellectual history of the American people from 1865 Harvey Wish,1950 *At Ease in Zion* Rufus B. Spain,2003-07-21 Analyzes the Southern Baptist denomination s influence on southern culture during the 19th century First published in 1967 Rufus Spain s thorough investigation into Southern Baptist attitudes set the stage for research on religion in the American South In *At Ease in Zion* Spain questions the titular ease with society that Southern Baptists seemed to maintain following the Civil War His analysis of denominational newspapers as well as reports from the Southern Baptist Convention and state conventions paint a compelling picture of the subjects complacency with their social existence even as they criticized personal and recreational ethics While the South faced significant social economic and political changes after the Civil War religion remained the primary moral influence As the Southern Baptist denomination made up a significant majority of the population at that time its leaders and attitudes had a clear and undeniable impact on social norms Rufus Spain was one of the first writers to actively demonstrate the relationship between Southern religion and Southern society and his work displays meticulous

attention to the ways in which we are affected by complacency He asserts that Southern Baptists viewed the American South as a version of God's ideal society any issues they wished to address were caused by individuals such as those who did not conform to societal norms or external attitudes such as those in differing religions or regions At Ease in Zion is a critical part of the scholarly discussion on religion in society Spain's research offers a bold analysis of the American South and its citizens during one of the most tumultuous times in its history while providing a basis for arguments on social Christianity and its ever shifting role in the world *The Dispute of the New World* Antonello Gerbi, 2010-06-20 Translated by Jeremy Moyle When Hegel described the Americas as an inferior continent he was repeating a contention that inspired one of the most passionate debates of modern times Originally formulated by the eminent natural scientist Georges Louis Leclerc Comte de Buffon and expanded by the Prussian encyclopedist Cornelius de Pauw this provocative thesis drew heated responses from politicians philosophers publicists and patriots on both sides of the Atlantic The ensuing polemic reached its apex in the latter decades of the eighteenth century and is far from extinct today Translated into English in 1973 *The Dispute of the New World* is the definitive study of this debate Antonello Gerbi scrutinizes each contribution to the debate unravels the complex arguments and reveals their inner motivations As the story of the polemic unfolds moving through many disciplines that include biology economics anthropology theology geophysics and poetry it becomes clear that the subject at issue is nothing less than the totality of the Old World versus the New and how each viewed the other at a vital turning point in history
