Sociological Beginnings The First Conference Of The German Society For Sociology:

Sociological Beginnings Christopher Adair-Totef, 2006-01-01 This is a translated edition of five of the nine papers and the responses presented at the first conference of the Deutsche Gesellschaft für Soziologie DGS that was held in 1910. These are seminal contributions by some of the founders of classical German sociology and social theory including Max Weber, Georg Simmel, Ferdinand Tönnies, Ernst Troeltsch, and Werner Sombart. A substantial introduction discusses the lives and works of the five thinkers, placing them in the context of Germany in the early twentieth century and discussing their personal and societal connections. The papers, none of which has ever appeared in English, are a remarkable testament to the developing thought of key scholars. The year 1910 was a defining year for German sociology. There were still no sociology schools, departments, or even professorships, but a significant number of important thinkers had published crucial sociological works. Through such publications, Ferdinand Tönnies, Georg Simmel, Max Weber, Werner Sombart, and Ernst Troeltsch had founded considerable reputations, and by 1909 the first three had banded together with other scholars to form the DGS. The papers show German sociology at a decisive moment when these thinkers were at their prime and were engaged in building a new society devoted to investigation of social reality based upon sound scholarly principles and free from biased social dogmatics. The topics continue to have relevance, and the exchanges provide a lively dimension, one that is not found simply by reading the books of these five founders of sociological thinking.

German Cosmopolitan Social Thought and the Idea of the West Austin Harrington, 2016-05-19 There has been considerable interest in recent years in German social thinkers of the Weimar era. Generally, this has focused on reactionary and nationalist figures such as Schmitt and Heidegger. In this book, Austin Harrington offers a broader account of the German intellectual legacy of the period. He explores the ideas of a circle of left liberal cosmopolitan thinkers: Troeltsch, Scheler, Tönnies, Max Weber, Alfred Weber, Mannheim, Jaspers, Curtius, and Simmel, who responded to Germany's crisis by rejecting the popular appeal of nationalism. Instead, they promoted pan-European reconciliation based on notions of a shared European heritage between East and West. Harrington examines their concepts of nationhood, religion, and civilization in the context of their time and in their bearing on subsequent debates about European identity and the place of the modern West in global social change. The result is a groundbreaking contribution to current questions in social, cultural, and historical theory.

The Anthem Companion to Ferdinand Tönnies Christopher Adair-Totef, 2016-06-19 The Companion is a collection of articles covering noted German sociologist Ferdinand Tönnies' full range of thinking. Topics include Tönnies and the development of sociology, Tönnies on community, on globalization, on gender and the family, and on crime and law. They also include Tönnies' views on politics, on public opinion, as well as on Tönnies as a Hobbes scholar and his relation to Georg Simmel. Each of the essays is written in a clear manner and will be understandable to the non-specialist. Each essay is comprehensive and will be useful to the specialist. The Companion is a welcome and significant contribution to our understanding of this noted sociologist and political thinker.

The Decline of Established Christianity in the Western World Paul Silas Peterson, 2017-09-22. While church attendance in the West is often cited as being in decline, it is argued that this applies primarily to the older established forms of Christianity. Other expressions of the faith are in fact stable or even growing. This volume provides multidisciplinary interpretations of and responses to one of the most complicated and controversial issues regarding the global transformation of Christianity today: the decline of established Christianity in the Western world. It also addresses the future of Christianity in the West after the decline. Drawing upon historical research, sociology, religious studies, philosophy, and theology, an international panel of contributors provides new theoretical frameworks for understanding this decline and offers creative suggestions for responding to it. Established Christianity is conceptualized as historically, culturally, socially, and politically embedded religion with or without official established status. This is a dynamic volume that gives fresh perspective on one of the great social changes taking place in the West today. As such, it will be of great interest to scholars of religious sociology, history, and anthropology, as well as theologians.

Intellectual Work and the Spirit of Capitalism Thomas Kemple, 2014-05-29.
