

DESCRIPTIVE RESEARCH

DEFINITION

Descriptive research involves collecting data to provide an accurate portrayal or detailed account of a phenomenon without influencing it in any way. It aims to observe, document, and create a thorough profile of the subject under study, often exploring patterns, behaviors, or attributes.

EXAMPLES

- **National Census:** An official survey that records information about demographics, employment, and housing.
- **Market Surveys:** Businesses gather data about their consumers' preferences to understand market trends and guide product development.
