linear a belief that landscapes are inhabited by spirits a rich oral tradition visual arts that emphasize the process of creation a reciprocal relationship with the natural world and the rituals that tie these themes together Brown illustrates each of these themes with in depth explorations of specific native cultures including Lakota Navajo Apache Koyukon and Ojibwe Brown was one of the first scholars to recognize that Native religions rather than being relics of the past are vital traditions that tribal members shape and adapt to meet both timeless and contemporary needs Teaching Spirits reflects this view using examples from the present as well as the past For instance when writing about Plains rituals he describes not only building an impromptu sweat lodge in a Denver hotel room with Black Elk in the 1940s but also the struggles of present day Crow tribal members to balance Sun Dances and vision quests with nine to five jobs In this groundbreaking work Brown suggests that Native American traditions demonstrate how all components of a culture can be interconnected how the presence of the sacred can permeate all lifeways to such a degree that what we call religion is integrated into all of life s activities Throughout the book Brown draws on his extensive personal experience with Black Elk who came to symbolize for many the richness of the imperiled native cultures This volume brings to life the themes that resonate at the heart of Native American religious traditions
