**Music-Making and Scottish National Identity: Scotland's Printed Music, 1880-1951** Karen E. McAulay,2024-10-30 Late Victorian Scotland had a flourishing music publishing trade evidenced by the survival of a plethora of vocal scores and dance tune books and whether informing us what people actually sang and played at home danced to or enjoyed in choirs or reminding us of the impact of emigration from Britain for both emigrants and their families left behind examining this neglected repertoire provides an insight into Scottish musical culture and is a valuable addition to the broader social history of Scotland The decline of the music trade by the mid twentieth century is attributable to various factors some external but others due to the conservative and perhaps somewhat parochial nature of the publishers output What survives bears witness to the importance of domestic and amateur music making in ordinary lives between 1880 and 1950 Much of the music is now little more than a historical artefact Nonetheless Karen E McAulay shows that the nature of the music the song and fiddle tune books contents the paratext around the collections its packaging marketing and dissemination all document the social

history of an era whose everyday music has often been dismissed as not significant or indeed properly old enough to merit consideration The book will be valuable for academics as well as folk musicians and those interested in the social and musical history of Scotland and the British Isles      **A 1950s Housewife** Sheila Hardy,2015-10-05 A nostalgic look at what it was like to be a housewife in the 1950s Being a housewife in the 1950s was quite different than today Women were expected to create a spotless home delicious meals and an inviting bedroom From the perils of courting to the inevitable list of wedding gifts to the household tips that any self respecting new wife should know this book collects heartwarming personal anecdotes from women who embarked on married life during this fascinating post war period providing a trip down memory lane for any wife or child of the 1950s      All Music Guide to Classical Music Chris Woodstra,Gerald Brennan,Allen Schrott,2005-09 Offering comprehensive coverage of classical music this guide surveys more than eleven thousand albums and presents biographies of five hundred composers and eight hundred performers as well as twenty three essays on forms eras and genres of classical music Original      *Six Decades of the Fender Telecaster* Tony Bacon,2005-12 Book Launched by the fledgling Fender company in 1950 the Telecaster has become the longest lived solidbody electric guitar played by everyone from Muddy Waters to Chrissie Hynde All who play know that the key to the Telecaster s importance and versatility is its sheer simplicity Packed with high quality photographs of the great Telecasters collectable catalogs period press ads and memorabilia this tribute tells the story of the Telecaster and the Fender Company through exclusive interviews with Fender figures who were there when this musical star was born      **Let's Do It** Bob Stanley,2022-09-06 The must read music book of the year and the first such history bringing together all musical genres to tell the definitive narrative of the birth of Pop from 1900 to the mid 1950s Pop music didn t begin with the Beatles in 1963 or with Elvis in 1956 or even with the first seven inch singles in 1949 There was a pre history that went back to the first recorded music right back to the turn of the century Who were these earliest record stars and were they in any meaningful way pop stars Who was George Gershwin writing songs for Why did swing the hit sound for a decade or more become almost invisible after World War II The prequel to Bob Stanley s celebrated Yeah Yeah Yeah this new volume is the first book to tell the definitive story of the birth of pop from the invention of the 78 rpm record at the end of the nineteenth century to the beginnings of rock and the modern pop age Covering superstars such as Louis Armstrong Bessie Smith Duke Ellington and Frank Sinatra alongside the unheralded songwriters and arrangers behind some of our most enduring songs Stanley paints an aural portrait of pop music s formative years in stunning clarity uncovering the silver threads and golden needles that bind the form together Bringing the eclectic evolving world of early pop to life from ragtime blues and jazz to Broadway country crooning and beyond Let s Do It is essential reading for all music lovers An encyclopaedic introduction to the fascinating and often forgotten creators of Anglo American hit music in the first half of the twentieth century Neil Tennant The Pet Shop Boys      Music in American Life Jacqueline Edmondson,2013-10-03 A fascinating exploration of the relationship between American culture and music as defined by musicians scholars and
