Songs Of The Wild Birds:

Field Book of Wild Birds and Their Music F. Mathews, 2001-07 In this beautifully written and well illustrated guide to birds songs from 1904 Mathews describes 127 bird species mostly of Eastern United States and their songs This fieldbook contains descriptions of the physical characteristics and habits of each as well as detailed comments on their songs and calls He includes musical scores of at least two songs for each species **Field Book of Wild Birds and Their Music**

Ferdinand Schuyler Mathews, 1906 The Music of Wild Birds Judy Pelikan, F. Schuyler Mathews, 2004-02-05 One hundred years ago F Schuyler Mathews an erudite naturalist and birder theorized that birds sing first for love of music and second for love of the lady To expand on his theory he actually scored the songs of birds in the wild His charming text and bird by bird annotations were compiled into a guide called Field Book of Wild Birds and Their Music This extraordinary work has now been lavishly illustrated and adapted for a new audience Each bird is meticulously rendered by artist Judy Pelikan in full color illustrations that feature not only the birds but also their nests eggs and feathers And every song is represented by its written musical score which Mathews expertly explains in a way that both musicians and non musicians can enjoy As Mathews points out the music of wild birds is everywhere in poems children s nursery songs as well as in the works of the great composers the Black billed Cuckoo s call appears near the close of Beethoven s Pastoral Symphony the Nashville Warbler s song is found in the opening bars of Rossini s Carovale and the Meadowlark s song is remarkably like the first two bars of Alfredo s song in La Traviata He reveals how a bird s character is reflected in its song the Baltimore Oriole is a sharp billed sharp witted character and his remarks are as incisive and crisp as the toots of a steam whistle And he reminds us of the words of our great poets Wordsworth Emerson Sir Walter Scott and their descriptions of the very same birds and their music This classic useful and completely original guide will put a song into the heart of novice and experienced birder alike

Field Book of Wild Birds and Their Music Ferdinand Schuyler Mathews, 1921 **Music of the Birds** Lang Elliott, 1999 Presents the songs and calls of more than seventy North American birds Includes audio compact disc featuring songbird concerts and solos **Field Book of Wild Birds and Their Music** Ferdinand Schuyler Mathews, 1948 **Songs of Wild Birds, Etc. [With Plates.]** Edward Max Nicholson, Ludwig Koch (Ornithologist.), 1936 Field Book of Wild Birds and Their Music F. Schuyler Mathews, 2015-06-15 Excerpt from Field Book of Wild Birds and Their Music A Description of the Character and Music of Birds Intended to Assist in the Identification of Species Common in the United States East of the Rocky Mountains Hast thou a charm to stay the morning star In his steep course So long he seems to pause On thy bald awful head O sovran Blanc The Arve and Arveiron at thy base Rave ceaselessly but thou Risest from forth thy silent sea of pines How silently sing ye meadow streams with gladsome voice Ye pine groves with your soft and soul like sounds Samuel Taylor Coleridge When in the lapse of a number of years an accumulation of knowledge and experience has enlarged or modified one s mental vision it is well if the advance goes on record Now although my estimate of the character and significance of

bird music has undergone little material change during a period of seventeen years it has grown proportionately with those years and I have added in this new edition the results of my latest study It is not necessary to apologize for the insistence upon the value of musical notation expressed in my Introduction to Bird Music there is no avoiding the facts stated therein nor any cause to enlarge on them but there is something to be added in relation to the musical scales of the birds and in appreciation of the musical record and its popular as well as scientific usefulness When one attains the commanding summit of a high mountain the horizon is greatly enlarged If one remains in the valley and mountain walls shut one in on every side the world indeed seems small Coleridge soared upward like the lark when he wrote the lines quoted above About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
