## **Songs Of Madness:**

*Songs of Madness* Aerik Von, 2024-03-19 *Songs of Madness* is a collection of lyrics curated from various releases between 1995-2023. This collection has been arranged in coffee table book form as a collector's item for followers/listeners of musician author and director Aerik Von. **Embodied Voices** Leslie C. Dunn, Nancy A. Jones, 1994 As a material link between body and culture, self and other, the voice has been endlessly fascinating to artists and critics. Yet it is the voices of women that have inspired the greatest fascination as well as the deepest ambivalence because the female voice signifies sexual otherness as well as sexual and cultural power. *Embodied Voices* explores cultural manifestations of female vocality in the light of current theories of subjectivity, the body and sexual difference. The fourteen essays collected here examine a wide spectrum of discourses including myth, literature, music, film, psychoanalysis and critical theory. Though diverse in their critical approaches, the essays are united in their attempt to articulate the compelling yet problematic intersections of gender, voice and embodiment as they have shaped the textual representation of women and women's self-expression in performance.

Music, Myth and Story in Medieval and Early Modern Culture Katherine Butler, Samantha Bassler, 2019 The complex relationship between myths and music is here investigated. Myths and stories offer a window onto medieval and early modern musical culture. Far from merely offering material for musical settings, authoritative tales from classical mythology, ancient history and the Bible were treated as foundations for musical knowledge. Such myths were cited in support of arguments about the uses, effects, morality and preferred styles of music in sources as diverse as theoretical treatises, defences or critiques of music, art, sermons, educational literature and books of moral conduct. Newly written literary stories too were believed capable of moral instruction and influence and were a medium through which ideas about music could be both explored and transmitted. How authors interpreted and weaved together these traditional stories or created their own reveals much about changing attitudes across the period. Looking beyond the well-known figure of Orpheus, this collection explores the myriad stories that shaped not only musical thought but also its styles, techniques and practices. The essays show that music itself performed and created knowledge in ways parallel to myth and worked in tandem with old and new tales to construct social, political and philosophical views. This relationship was not static; however, as the Enlightenment dawned, the once authoritative gods became comic characters and myth became a medium for ridicule. Overall, the book provides a foundation for exploring myth and story throughout medieval and early modern culture and facilitating further study into the Enlightenment and beyond. KATHERINE BUTLER is a senior lecturer in music at Northumbria University. SAMANTHA BASSLER is a musicologist of cultural studies, a teaching artist and an adjunct professor in the New York metropolitan area. **The Matter of Song in Early Modern England** Katherine R. Larson, 2019-08-29 Given the variety and richness of the sixteenth and seventeenth century English songscape it might seem unsurprising to suggest that early modern song needs to be considered as sung When a reader encounters a song in a sonnet sequence a romance and even a masque or a play however the tendency is to engage with it as poem rather than as musical performance Opening up the notion of song from a performance based perspective The Matter of Song in Early Modern England considers the implications of reading song not simply as lyric text but as an embodied and gendered musical practice Animating the traces of song preserved in physiological and philosophical commentaries singing handbooks poetic treatises and literary texts ranging from Mary Sidney Herbert's Psalmes to John Milton's Comus the book confronts song's ephemerality its lexical and sonic capriciousness and its airy substance These features can resist critical analysis but were vital to song's affective workings in the early modern period The volume foregrounds the need to attend much more closely to the embodied and musical dimensions of literary production and circulation in sixteenth and seventeenth century England It also makes an important and timely contribution to our understanding of women's engagement with song as writers and as performers A companion recording of fourteen songs featuring Larson soprano and Lucas Harris lute brings the project's innovative methodology and central case studies to life

Dunn, Katherine R. Larson, 2016-04-15 Song offers a vital case study for examining the rich interplay of music gender and representation in the early modern period This collection engages with the question of how gender informed song within particular textual social and spatial contexts in sixteenth and seventeenth century England Bringing together ongoing work in musicology literary studies and film studies it elaborates an interdisciplinary consideration of the embodied and gendered facets of song and of song's capacity to function as a powerful and flexible gendered signifier The essays in this collection draw vivid attention to song as a situated textual and musical practice and to the gendered processes and spaces of song's circulation and reception In so doing they interrogate the literary and cultural significance of song for early modern readers performers and audiences
