 GRENE,1957 Tragic Props and Cognitive Function Colleen Chaston,2010 By applying aspects of cognitive psychology to a
 study of three key tragic props this book examines the importance of visual imagery in ancient Greek tragedy The shield the
 urn and the mask are props which serve as controls for investigating the connection between visual imagery and the
 spectators intellectual experience of tragic drama As vehicles for conceptual change the props point to a function of imagery
 in problem solving Connections between the visual and the cognitive in tragedy particularly through image shape and its
 potential for various meanings add a new perspective to scholarship on the role of the visual in ancient performance These
 connections also add weight to the importance of imagery in contemporary problem solving and creative thought
