much of the 20th century the modernist city was articulated in terms of narratives of progress and development Today the neoliberal city confronts us with all the cultural noise of disorder and excess meaning As this book demonstrates for more than 40 years London based writer film maker and psychogeographer Iain Sinclair has proved to be one of the most incisive commentators on the contemporary city tracing the emerging contours of a metropolis where the meeting of global and local is never without incident Iain Sinclair Noise Neoliberalism and the Matter of London explores Sinclair s investigations into the nature of conflicting urban realities through an examination of the ways in which the noise of neoliberal excess intersects with the noise of literary experiment In this way the book casts new light on theorisations of the city in the contemporary era

his writings and earlier books of poetry Vanishing Streets J. M. Tyree, 2016-10-05 *Vanishing Streets* reveals an American writer's twenty-year love affair with London. Beguiling and idiosyncratic, obsessive and wry, it offers an illustrated travelogue of the peripheries retracing some of London's most curious locations. As J. M. Tyree wanders deliriously in the world's most visited city, he rediscovers and reinvents places that have changed drastically since he was a student at Cambridge in the 1990s. Tyree stumbles into the ghosts of Alfred Hitchcock, Graham Greene, and the pioneers of the British Free Cinema Movement. He offers a new way of seeing familiar landmarks through the lens of film history and reveals strange nooks and tiny oddities in out-of-the-way places from a lost film by John Ford supposedly shot in Wapping to the beehives hidden in Tower Hamlets Cemetery, an area haunted by a translation error in W. G. Sebald's *Austerlitz*. This book blends deeply personal writing with a foreigner's observations on a world capital experiencing an unsettling moment of transition. *Vanishing Streets* builds into an astonishing and innovative multi-layered project combining autobiography, movie madness, and postcard-like annotations on the magical properties of a great city. Tyree argues passionately for London as a cinematic dream city of perpetual fascinations and eccentricities bridging the past and the present as well as the real and the imaginary.

Landscape and Subjectivity in the Work of Patrick Keiller, W.G. Sebald, and Iain Sinclair David Anderson, 2020-08-27 This book situates the film maker Patrick Keiller alongside the writers W. G. Sebald and Iain Sinclair as the three leading voices in English psychogeography, offering new insights to key works including *London*, *The Rings of Saturn*, and *Lights Out for the Territory*. Excavating social and political contexts while also providing plentiful close analysis, it examines the cultivation of a distinctive affective mode or sensibility especially attuned to the cultural anxieties of the twentieth century's closing decades. *Landscape and Subjectivity* explores motifs including essayism, the reconciliation of creativity with market forces, and the foregrounding of an often agonised or melancholic. It asks whether the work can collectively be seen to constitute a critical theory of contemporary space and suggests that Keiller, Sebald, and Sinclair's contributions represent a highly significant moment in English culture's engagement with landscape, environment, and itself. The book's analyses are fuelled by archival and topographical research and are responsive to various interdisciplinary contexts, including the tradition of the English Journey, the set of ideas associated with the spatial turn, critical theory, the so-called heritage debate, and more recent theorisation of the Anthropocene.

Thinking History 4-14 Dr Grant Bage, Grant Bage, 2014-01-21 In this book, the author looks at the past, present, and the future of history teaching in primary schools in an attempt to provide a practical framework for teachers. Section one reviews relevant literature with an aim to clarify the dilemmas and advance present thinking and practice in history teaching in primary schools. After-Images of the City Joan Ramon Resina, Dieter Ingenschay, 2018-08-06 Criticism on the textual and iconographic construction of the city is extensive yet the problem of historical change in representations of the urban has received little attention Believing traditional accounts are limited by their reflection of a specific historical moment Joan Ramon Resina and Dieter Ingenschay focus by contrast on transition In essays written for this volume scholars of literary and visual studies the history of architecture cultural theory and urban geography explore the ways perceptual or conceptual paradigms of the city supersede or replace others while at the same time retaining the after image of what went before The writers touch on a wide variety of issues related to contemporary urban cultures as they journey through cities including New York Barcelona Madrid Paris Tijuana Berlin and London Drawing on the work of Roland Barthes Walter Benjamin Camilo Jos Cela Honor de Balzac and Alfred Stieglitz their approach is broadly cultural rather than technical After Images of the City takes into account the intrinsic instability of the image and reveals that representations of the modern metropolis cannot be fixed in time and history
