And when these sharing times seem awkward and manipulated many couples put the book back on the shelf and simply go on as they were before. Steve and Valerie Bell encourage couples to go beyond treating the symptoms of a marriage that lacks spiritual intimacy and go straight to the root of the problem. Risks are a part of a fully lived life. But in the commotion of today's fast paced technology driven world people

have become disconnected from the wise counsel of their inner resources hampering their ability to make meaningful choices. Consequently risks are increasingly being taken in an impulsive haphazard and often reckless way. It aims to answer such questions as: How do I know which risks to take and which to avoid? How do I balance the need to take more risks with the need to preserve my safety? How do I muster up the courage to take risks when it is so much easier not to? How do I confront all those people who keep telling me what a mistake it would be to take the risk? And most importantly: How do I make risk taking less of an anxiety provoking experience? *Right Risk* will help readers take risks with greater discipline, focus, and maturity to confidently face life's challenges and take advantage of life's opportunities. *Right Risk (EasyRead Large Bold Edition)* Bill Treasurer, 2003

Toward More Family-Centered Family Sciences Howard M. Bahr, Kathleen S. Bahr, 2009-03-16 Much academic writing on families reflects the ideal of non involvement and distanced subject matter Toward More Family Centered Family Sciences suggests that the family sciences in their effort to be scientific have perpetuated this distance between researcher and subject to the detriment of both The authors argue that family and kinship ties are transcendent ties boundary crossing in numerous ways They place an emphasis on family love in contrast and in addition to romantic love and criticize current approaches for neglecting the importance of transcendent concepts such as love commitment respect and sacrifice in the development and well being of family structures Drawing from insights both inside and outside of academia the authors seek to reincorporate transcendent concepts into the study of the family as a unit of society They argue for a more collaborative family centered family science and offer recommendations for how family researchers might work to change the scientific monologue about families to a systemic dialogue with families
