The Forest and the Trees Richard A. Widder, Wendy Widder, 2008-03-01 Why do we have to learn this For as long as there have been students teachers have been answering this question but we haven't always answered it very well for our students or for ourselves We sometimes forget that everything we teach whether sacred or secular has value because it is part of God's truth and integrating that truth across the curriculum is what makes an education Christian This book from a father and daughter team of seasoned Christian educators offers a comprehensive biblically based presentation of integration Its goal is to help readers view all aspects of the curriculum within the framework of God's story as told from Genesis to Revelation By organizing subject areas under five broad categories nature people communication beauty and ultimate issues the authors demonstrate that each subject area flows from the biblical story Each chapter concludes with a summary of the truths presented a set of teacher tips and a list of additional resources

which systematically confronts the philosophical problem of evil and the Holocaust in particular. It presents an extensively researched and comprehensive review of the subject. In a clearly presented and readable exposition, Birnbaum then proposes a refreshing and powerful formulation. Combining modern and classic rationalist and mystic themes, Birnbaum's proposed solution to the ancient problem of evil is perhaps the most elegant to appear in modern times. Though proceeding from a Jewish context, Birnbaum's compelling presentation and original synthesis will be of considerable value to adherents of all Western religions. *God and Evil* has been acclaimed by philosophers and theologians of all faiths. V 2 This is a highly intuitive work attempting to advance our speculative conjecture about the cosmos but fully comporting to our knowledge of the spectrum of various realities across the sciences, both physical and social. The work is written within a Jewish context but its motifs are universal. If the construct proposed herein proves to stand the test of time, mainstream Jewish philosophy and theology will comport to its contours and other belief systems will find ways to accommodate its assertions.
