be accounted for within a constraint based framework known as Optimality Theory OT The first two chapters provide an overview of first and second language phonology and are also discussed under OT framework in chapter 3 Chapter 4 serves to highlight the syllable structure of Turkish and English and addresses a number of partially overlapping themes synchronic and diachronic analysis of English and Turkish consonant inventory loan phonology and prosodic development The remaining chapters provide a detailed presentation of the novel empirical results along with a discussion of its wider implications in phonological theory and phonological acquisition Indispensable for students and researchers working in the areas of phonological theory and phonological acquisition this volume will also appeal to applied linguists and speech language pathologists

English with a Latin Beat Barbara O. Baptista, Michael Alan Watkins, 2006-01-01 Although it has long been recognized that second language pronunciation is strongly influenced by the native language second language phonology has only become a recognized area of study during the last thirty years While English has been the most frequent target language involved the learners L1s have varied greatly This is the first collection to gather together studies involving English learners whose L1 is Spanish or Brazilian Portuguese two closely related languages with important phonological differences The research covers vowel perception and production syllable simplification strategies word and compound stress and vowel reduction While the papers confirm the important role of the native language they also shed light on the sometimes subtle and unexpected ways in which this variable interacts with universal markedness relationships to determine the formation of phonetic categories and their use in perception and production These eleven carefully conducted empirical studies will provide insights for practitioners and stimulate further research

Phonology and Second Language Acquisition Jette G. Hansen Edwards, Mary L. Zampini, 2008 This volume is a collection of 13 chapters each devoted to a particular issue that is crucial to our understanding of the way learners acquire learn and use an L2 sound system In addition it spans both theory and application in L2 phonology The book is divided into three parts with each section unified by broad thematic content Part I Theoretical Issues and Frameworks in L2 Phonology lays the groundwork for examining L2 phonological acquisition Part II Second Language Speech Perception and Production examines these two aspects of L2 speech in more detail Finally Part III Technology Training and Curriculum bridges the gap between theory and practice Each chapter examines theoretical frameworks major research findings both classic and recent methodological issues and choices for conducting research in a particular area of L2 phonology and major implications of the research findings for more general models of language acquisition and or pedagogy

Acquiring a Non-Native Phonology Jette G. Hansen Edwards, 2006-06-23 This is a study of the phonological development of a family of L2 English learners It is the first full length book that focuses on a tightly knit group of learners acquisition of phonology over a longitudinal timeframe and the first book to study both social and linguistic factors across that time period Jette G Hansen analyses this data gathered from actual language learners in the light of recent theory as well as challenging aspects of current thinking on the subject of second language acquisition Acquiring a

Non Native Phonology therefore makes an important and original contribution to the field and provides an in depth analysis and discussion of the developmental processes in acquiring a non native sound system which has not previously been presented The book is aimed at academics interested in second language acquisition and researchers studying phonology in general

Discourse Intonation in L2 Dorothy M. Chun,2002-01-01 Intonation rhythm and general melody of language are among the first aspects of speech that infants attend to and produce themselves Yet these same features are among the last to be mastered by adult L2 learners Why is this and how can L2 learners be helped This book first presents the latest linguistic theories of intonation in particular how intonation functions in discourse not only to signal sentence types and attitudinal meanings but also to provide turn taking and other conversational cues The second part of the book examines the research in applied linguistics on the acquisition of L2 phonology and intonation The third section offers practical applications of how to incorporate the teaching of intonation into L2 instruction with a focus on using new speech technologies The accompanying CD ROM makes a unique addition in allowing for simultaneous audio playback and visual display of the pitch contours of utterances contained in the book Users can start or stop the playback at any point in the utterance and can observe first hand how such visual and audio representations could be useful for L2 learners

Working Memory in Second Language Acquisition and Processing Zhisheng (Edward) Wen,Mailce Borges Mota,Arthur McNeill,2015-05-01 This unique volume offers a comprehensive discussion of essential theoretical and methodological issues concerning the pivotal role of working memory in second language learning and processing The collection opens with a foreword and introductory theoretical chapters written by leading figures in the field of cognitive psychology Following these are three research sections containing chapters providing original data and innovative insights into the dynamic and complex relationships between working memory and specific areas of second language processing instruction performance and development Each section concludes with a commentary which is written by a noted SLA researcher and which charts the course for future research This book provides a fascinating collection of perspectives on the relationship between working memory and second language learning and will appeal to those interested in the integration of cognitive psychology with SLA research

Entrenchment and the Psychology of Language Learning Hans-Jörg Schmid,2016-12-19 In recent years linguists have increasingly turned to the cognitive sciences to broaden their investigation into the roots and development of language With the advent of cognitive linguistic usage based and complex adaptive models of language linguists today are utilizing approaches and insights from cognitive psychology neuropsychology social psychology and other related fields A key result of this interdisciplinary approach is the concept of entrenchment the ongoing reorganization and adaptation of communicative knowledge Entrenchment posits that our linguistic knowledge is continuously refreshed and reorganized under the influence of social interactions It is part of a larger ongoing process of lifelong cognitive reorganization whose course and quality is conditioned by exposure to and use of language and by the application of cognitive abilities and

processes to language This volume enlists more than two dozen experts in the fields of linguistics psycholinguistics neurology and cognitive psychology in providing a realistic picture of the psychological and linguistic foundations of language Contributors examine the psychological foundations of linguistic entrenchment processes and the role of entrenchment in first language acquisition second language learning and language attrition Critical views of entrenchment and some of its premises and implications are discussed from the perspective of dynamic complexity theory and radical embodied cognitive science

The Acquisition of Prosodic Structure in a Second Language Martha Young-Scholten, 2011-04-20 Over the past few decades the book series *Linguistische Arbeiten* Linguistic Studies comprising over 500 volumes has made a significant contribution to the development of linguistic theory both in Germany and internationally The series will continue to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses To this end we invite submission of high quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions discuss new data and advance the development of linguistic theory
