Tempest Waters:

For All Waters Lowell Duckert, 2017-03-31 Recent years have witnessed a surge in early modern ecostudies many devoted to Shakespearean drama Yet in this burgeoning discipline travel writing appears moored in historicization inorganic subjects are far less prevalent than organic ones and freshwater sites are hardly visited *For All Waters* explores these uncharted wetscapes Lowell Duckert shows that when playwrights and travel writers such as Sir Walter Raleigh physically interacted with rivers glaciers monsoons and swamps they composed hydrographies or bodily and textual assemblages of human and nonhuman things that dissolved notions of human autonomy and its singular narrativity With a playful punning touch woven deftly into its theoretical rigor *For All Waters* disputes fantasies of ecological solitude that would keep our selves high and dry and that would try to sustain a political ecology excluding water and the poor The lives of both humans and waterscapes can be improved simultaneously through direct engagement with wetness *For All Waters* concludes by investigating waterscapes in peril today West Virginia's chemical rivers and Iceland's vanishing glaciers and outlining what we can learn from early moderns' eco-ontological lessons By taking their soggy and storied matters to heart and arriving at a greater realization of our shared wetness we can conceive new directions to take within the hydropolitical crises afflicting us today

The Empire's of J. G. Ballard David Ian Paddy, 2015-08-25 J G Ballard once declared that the most truly alien planet is Earth and in his science fiction he abandoned the traditional imagery of rocket ships traveling to distant galaxies to address the otherworldliness of this world *The Empires of J G Ballard* is the first extensive study of Ballard's critical vision of nation and empire of the political geography of this planet Paddy examines how Ballard's self-perceived status as an outsider and exile the Sheppertonian from Shanghai generated an outlook that celebrated worldliness and condemned parochialism This book brings to light how Ballard wrestled with notions of national identity and speculated upon the social and psychological implications of the post-war transformation of older models of empire into new imperialisms of consumerism and globalization Presenting analyses of Ballard's full body of work with its tales of reverse colonization psychological imperialism the savagery of civilization estranged Englishmen abroad and at home and multinational communities built on crime *The Empires of J G Ballard* offers a fresh perspective on the fiction of J G Ballard *The Empires of J G Ballard An Imagined Geography* offers a sustained and highly convincing analysis of the imperial and post-imperial histories and networks that shape and energise Ballard's fictional and non-fictional writings To what extent can Ballard be considered an international writer What happens to our understanding of his post-war science fictions when they are opened up to the language and logics of post-colonialism And what creative and critical roles do the spectres of empire play in Ballard's visions of modernity Paddy follows these and other fascinating lines of enquiry in a study that is not only essential reading for Ballard students and scholars but for anyone interested in the intersections of modern and contemporary literature history and politics Jeanette Baxter Anglia Ruskin University Shanghai made my father Arriving in England after WW2 he was a
