Temple Bombing

Eliza McGraw

Temple Bombing:

The Temple Bombing Melissa Fay Greene, 1997 In October 1958 a synagogue in Atlanta was blown apart a pivotal moment in this violent era Set in the American South this book examines the fight for racial equality which involved not only whites striking against blacks and blacks against whites but Christians striking against Jews **American Panic** Mark Stein, 2014-05-20 In American Panic New York Times bestselling author Mark Stein traces the history and consequences of American political panics through the years Virtually every American on one level or another falls victim to the hype intensity and propaganda that accompanies political panic regardless of their own personal affiliations By highlighting the similarities between American political panics from the Salem witch hunt to present day vehemence over issues such as Latino immigration gay marriage and the construction of mosques Stein closely examines just what it is that causes us as a nation to overreact in the face of widespread and potentially profound change This book also devotes chapters to African Americans Native Americans Catholics Mormons Jews Chinese and Japanese peoples Communists Capitalists women and a highly turbulent but largely forgotten panic over Freemasons Striking similarities in these diverse episodes are revealed in primary documents Stein has unearthed in which statements from the past could easily be mistaken for statements today As these similarities come to light Stein reveals why some people become panicked over particular issues when others do not

Fight Against Fear Clive Webb, 2011-03-15 In the uneasily shared history of Jews and blacks in America the struggle for civil rights in the South may be the least understood episode Fight against Fear is the first book to focus on Jews and African Americans in that remarkable place and time Mindful of both communities precarious and contradictory standings in the South Clive Webb tells a complex story of resistance and complicity conviction and apathy Webb begins by ranging over the experiences of southern Jews up to the eve of the civil rights movement from antebellum slaveowners to refugees who fled Hitler's Europe only to arrive in the Jim Crow South He then shows how the historical burden of ambivalence between Jews and blacks weighed on such issues as school desegregation the white massive resistance movement and business boycotts and sit ins As many Jews grappled as never before with the ways they had become and yet never could become southerners their empathy with African Americans translated into scattered individual actions rather than any large scale organized alliance between the two groups The reasons for this are clear Webb says once we get past the notion that the choices of the much larger less conservative and urban centered Jewish populations of the North define those of all American Jews To understand Jews in the South we must look at their particular circumstances their small numbers and wide distribution denominational rifts and well founded anxiety over defying racial and class customs set by the region's white Protestant majority For better or worse we continue to define the history of Jews and blacks in America by its flash points By setting aside emotions and shallow perceptions Fight against Fear takes a substantial step toward giving these two communities the more open and evenhanded consideration their shared experiences demand **Massacres of Tamils, 1956-2008**, 2009

Global Terrorism Leonard Weinberg, 2009-01-15 Introduces the issue of terrorism why it happens and what people and governments should do to end it and lists major terrorists incident from the last forty years

Two Covenants Eliza McGraw, 2005-07-01 Jews have long occupied visible roles in the South Jewish families have owned establishments ranging from dry goods stores to Thomas Jefferson s Monticello and some of the region s most important writers and scholars have been Jewish Yet surveys of southern culture rarely assess the contributions of Jews while histories of Jews in America virtually exclude those living in the South Eliza R L McGraw s multifaceted study fills both gaps and in doing so expands how we define the South In Two Covenants McGraw mines eclectic representations of Southern Jewishness as varied as the Carolina Israelite newspaper the Mardi Gras Krewe du Jieus southern Baptist conversion instruction pamphlets and the film Driving Miss Daisy She also considers literary representations of southern Jews in the works of both Jewish and non Jewish writers including Thomas Wolfe Robert Penn Warren Walker Percy Lillian Hellman David Cohn Louis Rubin Jr Eli Evans James Weldon Johnson Jean Toomer and Charles Chesnutt While concerned with established concepts such as ethnicity and region McGraw raises many questions that illustrate the complexity of southern Jewishness Can one individual straddle two identities How do race class and gender influence southern Jewishness What are the differences between southern Jews and other southerners or between southern Jews and other Jews Does anti Semitism manifest itself differently or with unique effects in the South In suggesting answers to these and other questions McGraw ranges widely over the southern cultural landscape and reveals that although southern Jewishness remains a marginal identity due to the small size of its constituency it nevertheless inhabits and helps to form the South at large The very presence and vitality of southern Jewishness demonstrate that southern identity like national identity is a fluid cultural experience

Reel Racism Vincent F. Rocchio, 2018-05-04 This study looks beyond reflection theories of the media to examine cinema s active participation in the operations of racism a complex process rooted in the dynamics of representation Written for undergraduates and graduate students of film studies and philosophy this work focuses on methods and frameworks that analyze films for their production of meaning and how those meanings participate in a broader

process of justifying naturalizing or legitimizing difference privilege and violence based on race In addition to analyzing how the process of racism is articulated in specific films it examines how specific meanings can resist their function of ideological containment and instead offer a perspective of a more collective egalitarian social system one that transcends the discourse of race

Dissent or Conform? Alan Wilkinson, 2010-03-25 *Dissent or Conform* examines how churches reacted to and were affected by the two world wars Its underlying theme however is how the Church can be a creatively dissenting community focusing on how easily the church can turn into a conforming community that only encourages the occurrence of uncreative dissenters the ones who criticize the power without offering solutions and leading to a real change Wilkinson opposes this trait of the church especially given the impact that it has on society as a messenger of the gospel To this end the author depicts religious groups during three periods of time English Nonconformity among the free churches before WWI pacifists and pacifiers between the two wars and Christianity during WWII focusing on how church history interacts with the developments in history and society This book is of particular interest to social and church historians of the 20th century and to all interested in the history and ethics of war and pacifism It will also appeal to those attracted by the interaction between church and society
