Temple Of Memories:

Postmemories of Terror S. Kaiser, 2005-12-10 *Postmemories of Terror* focuses on how young Argentineans remember the traumatic events of the military dictatorship 1976-83. This fascinating work is based on oral histories with sixty-three young people who were too young to be directly victimized or politically active during this period. All were born during or after the terror and possessed an entirely mediated knowledge of it. Susana Kaiser explores how the post-dictatorship generation was reconstructing this past from three main sources: inter-generational dialogue, education, and the communication media. These conversations discuss selected and recurrent themes like societal fears and silences, remembering and forgetting, historical explanations, and accountability. Together they contribute to our understanding of how communities deal with the legacy of terror.

The Temple of Memories

Jun Jing, 1998-10-01 This study focuses on the politics of memory in

the village of Dachuan in northwest China in which 85 percent of the villagers are surnamed Kong and believe themselves to be descendants of Confucius. It recounts both how this proud community was subjected to intense suffering during the Maoist era, culminating in its forcible resettlement in December 1960 to make way for the construction of a major hydroelectric dam, and how the village eventually sought recovery through the commemoration of that suffering and the revival of a redefined religion. Before 1949 the Kongs had dominated their area because of their political influence, wealth, and above all their identification with Confucius, whose precepts underlay so much of the Chinese ethical and political tradition. After the Communists came to power in 1949, these people, as a literal embodiment of the Confucian heritage, became prime targets for Maoist political campaigns attacking the traditional order, from land reform to the Criticize Confucius movement. Many villagers were arrested; three were beheaded, and others died in labor camps. When the villagers were forced to hastily abandon their homes and the village temple, they had time to disinter only the bones of their closest family members; the tombs of earlier generations were destroyed by construction workers for the dam.

The Tribes of Burning Man: How an Experimental City in the Desert Is Shaping the New American Counterculture Steven T. Jones, 2011 Burning Man is the premier countercultural event of modern times, growing over 25 years from a strange San Francisco beach party into an experimental city of 50,000 colorful souls in Nevada's Black Rock Desert which burns brightly for a week before dissolving into dusty memories and changed lives. Longtime newspaper journalist Steven T. Jones embedded himself in this blossoming culture starting in 2004, a dispiriting year for American politics but the beginning of Burning Man's renaissance when it exploded outward in unexpected ways. The result is the most in-depth book ever written on this intriguing social phenomenon. *The Tribes of Burning Man: How An Experimental City in the Desert is Shaping the New American Counterculture* which is being released in January 2011 by CCC Publishing. From covering the Borg2 artists' rebellion to learning how to make large-scale fire sculptures with the Flaming Lotus Girls, from helping Opulent Temple showcase the world's best DJs to cleaning up

after Hurricane Katrina with Burners Without Borders from regularly interviewing event founder Larry Harvey to covering Barack Obama's nominating convention speech Jones gives readers an inside meticulously reported look at a time when Burning Man hit its zenith just as the country hit its nadir Hundreds of thousands of people from all over the world have made the dusty pilgrimage to Black Rock City to take part in this experiment in participatory art commerce free culture and bacchanalian celebration and many say their lives were fundamentally changed by this truly unique experience **The**

Michigan Architect and Engineer, 1929 **On Sacred Grounds** Thomas A. Wilson, 2020-03-23 The sacred landscape of imperial China was dotted with Buddhist monasteries Daoist temples shrines to local deities and the altars of the mandarin Prominent among the official shrines were the temples in every capital throughout the empire devoted to the veneration of Confucius Twice a year members of the educated elite and officials in each area gathered to offer sacrifices to Confucius his disciples and the major scholars of the Confucian tradition The worship of Confucius is one of the least understood aspects of Confucianism even though the temple and the cult were highly visible signs of Confucianism's existence in imperial China To many modern observers of traditional China the temple cult is difficult to reconcile with the image of Confucianism as an ethical humanistic rational philosophy The nine essays in this book are an attempt to recover the meaning and significance of the religious side of Confucianism Among other subjects the authors analyze the social cultural and political meaning attached to the cult its history the legends images and rituals associated with the worship of Confucius the power of the descendants of Confucius the main temple in the birthplace of Confucius and the contemporary fate of temples to Confucius **D.A.C.
