Ten Letters:

Ten Letters Eli Saslow, 2012-08-07 Every day President Obama read ten of the letters he received from citizens across America Here are ten of those letters along with President Obama's responses and the stories behind them From the Pulitzer Prize winning reporter The letters come from people of all ages walks of life and political points of view Some are heart breaking some angry some hopeful Indeed Obama reads as many letters addressed Dear Jackass as Dear Mr President Eli Saslow a young and rising star at the Washington Post became fascinated by the power of these letters and set out to find the stories behind them Through the lens of ten letters to which Obama responded personally this exceptionally relevant and poignant book explores those individual stories taking an in depth look at the misfortunes needs opinions and yes anger over the current state of the country that inspired ten people to put pen to paper Surprisingly what also emerges from these affecting personal narratives is a story about the astounding endurance and optimism of the American people Ten Letters is an inspiring and important book about ordinary people and the issues they face every day the very issues that are shaping America's future This is not an insider Washington book by any means but a book for the times that tells the real American stories of today

The Writing Public Elizabeth Andrews Bond, 2021-03-15 Inspired by the reading and writing habits of citizens leading up to the French Revolution The Writing Public is a compelling addition to the long running debate about the link between the Enlightenment and the political struggle that followed Elizabeth Andrews Bond scoured France's local newspapers spanning the two decades prior to the Revolution as well as its first three years shining a light on the letters to the editor A form of early social media these letters constituted a lively and ongoing conversation among readers Bond takes us beyond the glamorous salons of the intelligentsia into the everyday worlds of the craftsmen clergy farmers and women who composed these letters As a result we get a fascinating glimpse into who participated in public discourse what they most wanted to discuss and how they shaped a climate of opinion The Writing Public offers a novel examination of how French citizens used the information press to form norms of civic discourse and shape the experience of revolution The result is a nuanced analysis of knowledge production
