Ten Years That Shook The World:

Russia's Revolution from Above, 1985-2000 Gordon Hahn, 2018-04-27 The fall of the Soviet communist regime in 1991 offers a challenging contrast to other instances of democratic transition and change in the last decades of the twentieth century The 1991 revolution was neither a peaceful revolution from below as occurred in Czechoslovakia nor a negotiated transition to democracy like those in Poland Hungary or Latin America It was not primarily the result of social modernization the rise of a new middle class or of national liberation movements in the non Russian union republics Instead as Gordon Hahn argues the Russian transformation was a bureaucrat led state based revolution managed by a group of Communist Party functionaries who won control over the Russian Republic RSFSR in the mid 1990s Hahn describes how opportunistic Party and state officials led by Boris Yeltsin defected from the Gorbachev camp and proceeded in 1990 91 to dismantle the institutions that bound state and party These revolutionaries from above seized control of political economic natural and human resources and then separated the party apparatus from state institutions on Russian Republic territory With the failed August 1991 hard line coup Yeltsin banned the Communist Party and decreed that all Union state organs including the KGB and military were under RSFSR control In Hahn s account this mode of revolutionary change from above explains the troubled development of democracy in Russia and the former Soviet republics Hahn shows how limited mobilization of the masses stunted the development of civil societies and the formation of political parties and trade unions with real grass roots The result is a weak society unable to nudge the state to concentrate on institutional reforms society needs for the development of a free polity and economy Russia s Revolution from Above goes far in correcting the historical record and reconceptualizing the Soviet transformation It should be read by historians economists political scientists and Russia area scholars

Ten Years That Shook the City Chris Carlsson, Lisa Ruth Elliott, 2011-06 The alliances programs and goals of a historic decade that continues to shape SF and the world

The Last Great American Picture Show Alexander Horwath, Thomas Elsaesser, Noel King, 2004 This publication is a major evaluation of the 1970s American cinema including cult film directors such as Bogdanovich Altman and Peckinpah

Reinhold Niebuhr Reinhold Niebuhr, Reinhold Niebuhr the most significant North American theologian since the eighteenth century has decisively influenced the shape of Christian thought and action in the United States for much of the twentieth century Niebuhr addressed social and political issues from the perspective of Christian Realism This was his blend of liberalism shrewd social analysis and elements within the Augustinian tradition His legacy continues to be influenced through his writings and the work of many of his distinguished students Larry Rasmussen s introductory essay and notes on the selected texts set Niebuhr in his historical context chart the development of his thought and indicate the significance of his theology in the development of Christian theology as a whole

Social Ethics in the Making Gary Dorrien, 2009-03-25 In the early 1880s proponents of what came to be called the social gospel founded what is now known as social ethics This ambitious and magisterial book describes the tradition

of social ethics one that began with the distinctly modern idea that Christianity has a social ethical mission to transform the structures of society in the direction of social justice Charts the story of social ethics the idea that Christianity has a social ethical mission to transform society from its roots in the nineteenth century through to the present day Discusses and analyzes how different traditions of social ethics evolved in the realms of the academy church and general public Looks at the wide variety of individuals who have been prominent exponents of social ethics from academics and self styled public intellectuals through to pastors and activists Set to become the definitive reference guide to the history and development of social ethics Recipient of a CHOICE Outstanding Academic Title for 2009 award

Democratization and Revolution in the USSR, 1985-91 Jerry F. Hough, 1997-05-01 Democratization and Revolution in the USSR 1985-91 presents a strikingly new view of the Gorbachev era and the reasons for the collapse of the Soviet Union Written by one of America's most distinguished specialists on the former Soviet Union this is the first comprehensive overview of the Gorbachev period and describes it as a real revolution not mere reform According to Hough despite Mikhail Gorbachev's talk of a regulated market he never understood that a market must be created on a solid institutional and legal base He was determined to use democratization to free himself from party control but he saw democracy as a way of achieving near universal consensus not a mechanism for forcing through difficult choices The many memoirs that have become available in the last few years including those of Gorbachev himself show that Premier Nikolai Ryzhkov and the bureaucrats in his government actually were the serious economic reformers in the leadership Gorbachev opposed the key transitional steps at every stage and was far closer to the assumptions of shock therapy than he or his opponents ever recognized Hough explains that Gorbachev was not alone in thinking that the destruction of old institutions was enough to unleash a market Westerners also talked of leaping a chasm in a single jump as if democratic and market institutions existed pre created on the other side But precisely because Gorbachev and later Boris Yeltsin was encouraged in all his worst mistakes by Western advice his failure has crucial implications for Western thinking about the process of democratization and marketization This unprecedented book explores those implications in depth Selected by Choice as an Outstanding Book for 1998

Hollywood Thomas Schatz, 2004 Hollywood as a concept applies variously to a particular film style a factory based mode of film production a cartel of powerful media institutions and a national and increasingly global way of seeing It is a complex social cultural and industrial phenomenon and is arguably the single most important site of cultural production over the past century This collection brings together journal articles published essays book chapters and excerpts which explore Hollywood as a social economic industrial aesthetic and political force and as a complex historical entity

Courage to Change June Bingham, 1993 Carefully researched and written with extraordinary vitality this biography of Reinhold Niebuhr reveals the man in all of his humanity warmth and charm as well as his intellectual prowess as a theological giant The author who knew Niebuhr well chronicles his career and contributions to ethics theology and political thought This classic is of enduring value to students of

ethics philosophy and theology and political thought and to anyone anxious to grasp the essence of this foremost philosophical theologian of the 20th century Originally published by Charles Scribner's Sons in 1961 *Gorbachev* William Taubman, 2017-09-05 Finalist for the National Book Critics Circle Award in Biography Longlisted for the Andrew Carnegie Medal for Excellence in Nonfiction The definitive biography of the transformational Russian leader by the Pulitzer Prize winning author of *Khrushchev* Essential reading for the twenty first century Radhika Jones The New York Times Book Review When Mikhail Gorbachev became the leader of the Soviet Union in 1985 the USSR was one of the world's two superpowers By 1989 his liberal policies of perestroika and glasnost had permanently transformed Soviet Communism and had made enemies of radicals on the right and left By 1990 he more than anyone else had ended the Cold War and in 1991 after barely escaping from a coup attempt he unintentionally presided over the collapse of the Soviet Union he had tried to save In the first comprehensive biography of the final Soviet leader William Taubman shows how a peasant boy became the Soviet system's gravedigger how he clambered to the top of a system designed to keep people like him down how he found common ground with America's arch conservative president Ronald Reagan and how he permitted the USSR and its East European empire to break apart without using force to preserve them Throughout Taubman portrays the many sides of Gorbachev's unique character that by Gorbachev's own admission make him difficult to understand Was he in fact a truly great leader or was he brought low in the end by his own shortcomings as well as by the unyielding forces he faced Drawing on interviews with Gorbachev himself transcripts and documents from the Russian archives and interviews with Kremlin aides and adversaries as well as foreign leaders Taubman's intensely personal portrait extends to Gorbachev's remarkable marriage to a woman he deeply loved and to the family that they raised together Nuanced and poignant yet unsparing and honest this sweeping account has all the amplitude of a great Russian novel *How the Soviet Union Disappeared* Wisła Suraska, 1998 Argues that the collapse of the Soviet Union was the result of an attempt by Gorbachev to concentrate political power and that the breakdown of the economy was a consequence not a cause of his reforms
