Prosperity's Predicament Isabel Brown Crook, Christina Kelley Gilmartin, 2013-09-26 This classic in the annals of village studies will be widely read and debated for what it reveals about China's rural dynamics as well as the nature of state power markets the military social relations and religion Built on extraordinarily intimate and detailed research in a Sichuan village that Isabel Crook began in 1940 the book provides an unprecedented history of Chinese rural life during the war with Japan It is an essential resource for all scholars of contemporary China

Scanlon, 2013-09-05 First Published in 2005 In this World Year Book new ground is broken by concentrating on an aspect and type of education which has been until recent years largely ignored by academic educationists The needs of technological and industrializing societies impose the necessity for matching educational output with professional manpower requirements written in the Introduction to the 1967 volume on Educational Planning This looks at the education and training provided by enterprises having regard to the economic and educational histories of the countries concerned but endeavouring to bear in mind the philosophical and theoretical questions raised The authors in this 1968 World Year Book of Education show that there are unifying themes in analyses of educational growth in both the developing and industrially advanced nations

East Wind Tom Buchanan, 2012-04-19 East Wind offers the first complete archive based account of the relationship between China and the British Left from the rise of modern Chinese nationalism to the death of Mao Tse tung Beginning with the Hands Off China movement of the mid 1920s Tom Buchanan charts the mobilisation of British opinion in defence of China against Japanese aggression 1931 1945 and the role of the British left in relations with the People's Republic of China after 1949 He shows how this relationship was placed under stress by the growing unpredictability of Communist China above all by the Sino Soviet dispute and the Cultural Revolution which meant that by the 1960s China was actively supported only by a dwindling group of enthusiasts The impact of the suppression of the student protests in Tiananmen Square June 1989 is addressed as an epilogue East Wind argues that the significance of the left's relationship with China has been unjustly overlooked There were many occasions such as the mid 1920s the late 1930s and the early 1950s when China demanded the full attention of the British left It also argues that there is nothing new in the current fascination with China's emergence as

an economic power Throughout these decades the British left was aware of the immense unrealised potential of the Chinese economy and of how China's economic growth could transform the world In addition to analysing the role of the political parties and pressure groups of the left Buchanan sheds new light on the activities of many well known figures in support of China including intellectuals such as Bertrand Russell R H Tawney and Joseph Needham Many other interesting stories emerge concerning less well known figures which show the complexity of personal links between Britain and China during the twentieth century [Empires at War](#) Francis Pike,2011-02-28 As the major geopolitical power bloc Asia with 4 billion people two thirds of the world's population a huge land mass and the fastest growing economies has shifted the global political balance Empires at War gives a dramatic narrative account of how Modern Asia came into being Ranging over the whole of Asia from Japan to Pakistan the modern history of this important region is placed in the context of the struggle between America and the Soviet Union Francis Pike shows that America's domination of post war Asia was a continuation of a 100 year competition for power in the region He also argues cogently that contrary to the largely Western centric viewpoint Asian nations were not simply the passive and biddable entities of the superpowers but had a political development which was both separate and unique with a dynamic that was largely independent of the superpower conflict And in conclusion the book traces the unwinding of American influence and the end of its Empire a crucial development in international history which is already having repercussions throughout the world **Peasants and Revolution in Rural China** Chang Liu,2007-05-14 This book explores rural political change in China from 1850 to 1949 to help us understand China's transformation from a weak decaying agrarian empire to a unified strong nation state during this period Based on local gazetteers contemporary field studies government archives personal memoirs and other primary sources it systematically compares two key macro regions of rural China the North China plain and the Yangzi delta to demonstrate the ways in which the forces of political change shaped by different local conditions operated to transform the country It shows that on the North China plain the village community composed mainly of owner cultivators was the focal point for political mobilization whilst in the Yangzi delta absentee landlordism was exploited by the state for local control and tax extraction However these both set the stage in different ways for the communist mobilization in the first half of the twentieth century Peasants and Revolution in Rural China is an important addition to the literature on the history of the Chinese Revolution and will be of interest to anyone seeking to understand the course of Chinese social and political development *Records & Briefs New York State Appellate Division ,*
