Tender Is The Search:

The Poetic Search for Love Eric Papa,2007-03-01 The Poetic Search for Love is a collection of love poems by Eric Papa Inspired by the writers from the Renaissance this book is proof that romance can still be found in our modern age The Poetic Search for Love is a must have for any romantic Recreational Search & Recovery , **The Search for Peace in the Arab-Israeli Conflict** Terje Rød-Larsen,Nur Laiq,Fabrice Aidan,2014 The Search for Peace in the Middle East provides an annotated overview of attempts to make peace in the region including all relevant documents related to the Arab Israeli conflict over the past century since the Sykes Picot Agreement of 1916 and a full set of accompanying maps specially made for this edition *A Scientific Search for Altruism* C. Daniel Batson,2018-10-19 For centuries the egoism altruism debate has echoed through Western thought Egoism says that the motivation for everything we do including our seemingly selfless acts of care for others is to gain one or another self benefit Altruism while not denying the force of self interest says that under certain circumstances we can care for others for their sakes not our own Over the past half century social psychologists have turned to laboratory experiments on humans to provide a scientific resolution of this debate about our nature The experiments have focused on the possibility that empathic concern other oriented emotion elicited by and congruent with the perceived welfare of someone in need produces altruistic motivation to remove that need With carefully constructed experimental designs these scientists have tested the nature of the motivation produced by empathic concern determining whether it is egoistic or altruistic and thereby providing an answer to a fundamental question about what makes us tick Framed as a detective story this book traces the scientific search for altruism through numerous studies and attempts to examine various motivational suspects reaching the improbable conclusion that empathy induced altruism is indeed part of our nature The book then considers the implications of this conclusion both for our understanding of who we are as humans the bad news as well as the good and for how we might create a more humane society Criminal Investigation Ronald Becker,2009 Criminal Investigation Third Edition takes an integrated approach to the investigation process This introductory text explores how contributors to criminal investigation and its resulting prosecution are more effective when they understand and appreciate their role on the team what role other team members play and how it all comes together Readers will learn how investigations are connected to a team that is much larger than those charged with the investigations of a crime The end result is a solid foundation in criminal investigation Water-Related Death Investigation Kevin L. Erskine,Erica J. Armstrong,2021-05-18 Nearly ten years after the first edition of Water Related Death Investigation Practical Methods and Forensic Applications water death cases continue to be improperly investigated The pathologist s report can determine the cause of death as a drowning but the manner of death is the most challenging to prove The report will not determine if a victim jumped into the water to commit suicide fell into the water accidentally or was pushed in as a homicidal act Many drowning cases do not reflect injury to the body so evidence collected at the scene plays a vital role The importance

of an on scene body assessment cannot be overemphasized Often the body evidence begins to change rapidly upon recovery and may not be present during an autopsy Written statements on the scene are an effective tool to use to determine the accuracy of information given to arriving officers These statements need to be written by the witnesses themselves as well as the reporting person The Show Me technique can also help reveal discrepancies in a person s version of what occurred as well as aid in providing the most details to an incident as is humanly possible This second edition includes updated information on the latest technology to assist water death investigators Parabon Snapshot can help determine the faceless identity of skeletal remains and help locate potential suspects using the science of DNA Drones can aid in locating missing persons as well as human remains even months after death Updated information is provided regarding fingerprints from submerged objects and Carbon 14 can help determine the origin of a found corpse Key Features Thoroughly reviews the physiological aspects of drowning Reveals the investigative characteristics inherent to various scenes of water related deaths Highlights certain red flag indicators that may point to foul play or scene staging Outlines autopsy protocols trial preparation and expert witness testimony Provides numerous case studies and numerous illustrations to further clarify key points presented in the text Coauthored by a Master Water Death Investigator and an experienced forensic pathologist Water Related Death Investigation Practical Methods and Forensic Applications Second Edition merges the essentials of evidence collection and field investigation with autopsy best practices and laboratory testing It will continue to serve as a valuable resource for the various professionals involved in these cases

Haruki Murakami and the Search for Self-Therapy Jonathan Dil, 2022-02-24 Haruki Murakami a global literary phenomenon has said that he started writing fiction as a means of self therapy What he has not discussed as much is what he needed self therapy for This book argues that by understanding more about why Murakami writes and by linking this with the question of how he writes readers can better understand what he writes Murakami's fiction in other words can be read as a search for self therapy In five chapters which explore Murakami's fourteen novels to date this book argues that there are four prominent therapeutic threads woven through Murakami's fiction that can be traced back to his personal traumas most notably Murakami's falling out with his late father and the death of a former girlfriend and which have also transcended them in significant ways as they have been transformed into literary fiction The first thread looks at the way melancholia must be worked through for mourning to occur and healing to happen the second thread looks at how symbolic acts of sacrifice can help to heal intergenerational trauma the third thread looks at the way people with avoidant attachment styles can begin to open themselves up to love again the fourth thread looks at how individuation can manifest as a response to nihilism Meticulously researched and written with sensitivity the result is a sophisticated exploration of Murakami's published novels as an evolving therapeutic project that will be of great value to all scholars of Japanese literature and culture
