Tenebrae For Modern Times:

Tenebrae For Modern Times Marie A. Asner, 2000-10 Tenebrae For Modern Times combines scripture contemporary language and prose poetry in an innovative setting Within the framework of a standard worship service short reflections by six apostles are echoed by the musings of six contemporary people with similar concerns This juxtaposition reveals that little has changed in almost 2 000 years there are still taxes to pay and family situations to deal with Questions central to our lives are addressed How do I find time for my family How can I find time for church work and How can I bring God into my life The service does not require a sermon and there are suggested hymns and choral anthems for the church musician The format allows for participation by many readers yet the service is very adaptable for use by small congregations No props or costumes are required though the service may be performed in costume if desired This truly distinctive Good Friday resource combines the past present and future into a poignant worship experience Good Friday is an important day in the lives of Christians and Marie Asner s Tenebrae For Modern Times is a powerful way to make that day significant and meaningful in our lives She causes us to think deeply about our own relationship with the Lord with her references to Jesus disciples as well as modern people who struggle Each of us will be touched and changed by her inspired writings Kathy Collard Miller Author of the best selling God s Vitamin C for the Spirit series This deeply moving tenebrae service reflects Marie Asner s knowledge and love of scripture together with her multifaceted gifts in music writing speech training and poetry Its unique style and format beautifully mix contemporary with historical traditional expression both in the spoken word and in the various selections of music suggested for congregational hymns and choral anthems I believe that participating in this service may well be a life changing experience for those whose hearts are tuned to be in touch with the Spirit of the Lord Diana L James Author of the Bounce Back series A musician and freelance writer Marie A Asner holds music degrees from St Cloud State University St Cloud Minnesota She taught elementary music in Minnesota school systems prior to opening a private vocal and piano studio Asner has had inspirational stories published in such books as Bounce Back and Bounce Back Too Horizon Books as well as God s Unexpected Blessings Seasons of a Woman s Heart and Stories of God s Abundance for a More Joyful Life Starburst Publishers Marie also has had numerous articles appear in such magazines as The American Organist Clavier The American Music Teacher The Lutheran Christian Communicator and Crescendo Asner was awarded the Grand Prize in Writing at the 1998 Kansas City Christian Writers Conference and has also been nominated for a Kansas Governor s Art Award and the Mary Roberts Rinehart Award in Poetry A resident of Overland Park Kansas Asner s poem The City was recently selected to officially kick off Kansas City s 150th birthday celebration

Eclectic ,1899 **Space, Imagination and the Cosmos from Antiquity to the Early Modern Period** Frederik A. Bakker, Delphine Bellis, Carla Rita Palmerino, 2019-02-05 This volume provides a much needed historically accurate narrative of the development of theories of space up to the beginning of the eighteenth century It studies conceptions of space that were implicitly or explicitly entailed by ancient medieval and early modern representations of the cosmos The authors reassess Alexandre Koyr s groundbreaking work *From the Closed World to the Infinite Universe* 1957 and they trace the permanence of arguments to be found throughout the Middle Ages and beyond By adopting a long timescale this book sheds new light on the continuity between various cosmological representations and their impact on the ontology and epistemology of space Readers may explore the work of a variety of authors including Aristotle Epicurus Henry of Ghent John Duns Scotus John Wyclif Peter Auriol Nicholas Bonet Francisco Suarez Francesco Patrizi Giordano Bruno Libert Froidmont Marin Mersenne Pierre Gassendi Gottfried Wilhelm Leibniz and Samuel Clarke We see how reflections on space imagination and the cosmos were the product of a plurality of philosophical traditions that found themselves confronted with and enriched by various scientific and theological challenges which induced multiple conceptual adaptations and innovations This volume is a useful resource for historians of philosophy those with an interest in the history of science and particularly those seeking to understand the historical background of the philosophy of space

Wonder and Exile in the New World Alex Nava, 2015-01-14 In *Wonder and Exile in the New World* Alex Nava explores the border regions between wonder and exile particularly in relation to the New World It traces the preoccupation with the concept of wonder in the history of the Americas beginning with the first European encounters goes on to investigate later representations in the Baroque age and ultimately enters the twentieth century with the emergence of so called magical realism In telling the story of wonder in the New World Nava gives special attention to the part it played in the history of violence and exile either as a force that supported and reinforced the Conquest or as a voice of resistance and decolonization Focusing on the work of New World explorers writers and poets and their literary descendants Nava finds that wonder and exile have been two of the most significant metaphors within Latin American cultural literary and religious representations Beginning with the period of the Conquest especially with Cabeza de Vaca and Las Casas continuing through the Baroque with Cervantes and Sor Juana In's de la Cruz and moving into the twentieth century with Alejo Carpentier and Miguel ngel Asturias Nava produces a historical study of Latin American narrative in which religious and theological perspectives figure prominently

The World at First Light Bernd Roeck, 2025-06-03 A new and ambitious history of the Renaissance as a global event which the author argues was much more revolutionary and profoundly influential than we currently appreciate This is nothing less than a new history of the origins development and legacy of the Renaissance in a global and comparative context Presented as a panorama of what the author characterises as a restless and dramatic epoch the book is an exploration of how a distinct concentration of ideas discoveries and tumultuous political circumstance should have coalesced in Europe in such a way and at a particular time as to bring about the modern world as we know it Drawing on a multidisciplinary awareness of history art philology literature philosophy science and medicine and exploiting both traditional accounts and post colonial approaches the author seeks to explain how the Renaissance came

about and how it was for better or worse both the dawn of the modern world and the dawning of modern worldliness After highlighting the distinctive and advantageous geographical position of Europe and establishing the absolutely crucial heritage of dialogue criticism and communication from the classical world the author recounts the various cultural rebirths throughout the first millennium from the Islamic empire to the Carolingians and late Byzantium as well as the ongoing struggles for order which marked much of the uneven development of the medieval period By the very late Middle Ages then Europe was a propitious collection advanced states engaged in acrimonious but productive rivalry wherein populated urban areas offered ideal venues for the exploitation of two phenomena the importation of moveable type and a widespread adoption of the classical discourse of criticism and exchange In situating Europe in the context of political and cultural conditions in central and south Asia as well as the Far East Roeck argues that the explosion in learning and expression which we associate with the Renaissance was a combination of new ideas and material conditions and of innovations as well as serendipitous political realities it was also as much the culmination of a long and slow evolution of ancient tendencies as any sudden rediscovery The consequences in any case have been profound much that we take for granted in politics scientific enquiry and intellectual life is a consequence of the Renaissance
