Space in Tense Kyung-Sook Chung, 2012-07-18 This monograph explores the tense aspect mood and evidentiality of Korean which has a rich verbal inflectional system and proposes novel treatments within the framework of compositional semantics One of the major contributions is the demonstration that Korean has two types of deictic tense simple deictic and spatial deictic tense Spatial deictic tense refers to the notion of the speaker's perceptual field or deictic range as well as to temporality functioning to set up a condition for a systematic evidential distinction The research in this volume shows that the basic paradigm of evidentiality of Korean derives from the standard TMA system combined with the notion of space This volume also shows that perfect and past tense utilize different primitives The intended readership of this volume extends beyond Koreanists to scholars interested specifically in tense mood aspect and evidentiality as well as in general theories of grammar and semantics pragmatics **A Study of Tense and Aspect in Korean** Sang-Guk Yi, 1991 **Tense and Aspect in Korean**, 1988 Bibliography leaves 275 281 **The Routledge Handbook of Korean as a Second Language** Andrew Sangpil Byon, Danielle Ooyoung Pyun, 2022-04-19 The Routledge Handbook of Korean as a Second Language aims to define the field and to present the latest research in Korean as a second language KSL It comprises a detailed overview of the field of KSL teaching and learning discusses its development and captures critical cutting edge research within its major subfields As the first handbook of KSL published in English this book will be of particular interest to advanced undergraduates graduate students language teachers curriculum developers and researchers in the fields of KSL and applied linguistics While each chapter will be authored by internationally renowned scholars in its major subfields the handbook aims to maintain accessibility so that it can also be of value to non specialists [The Comparative Syntax of Korean and Japanese](#) Yutaka Sato, Sungdai Cho, 2023-12-21 This book provides a detailed survey of Korean and Japanese syntax from a comparative perspective based within a generative framework Yukata Sato and Sungdai Cho demonstrate that while the two languages exhibit remarkably similar morphosyntactic features they behave differently in specific types of construction with the main differences observed in genitive marking sentence negation Negative Polarity Items the formation of causatives and
