Teoría Literaria Feminista:

Literatura y feminismo Blas Sánchez Dueñas, 2009 El feminismo como ciencia ha articulado un conjunto de teorías que han obligado a releer los tradicionales discursos al fin de dar lugar a las renovadas lecturas que los estudios feministas están originados en todos los ámbitos de conocimiento la literatura ha visto emerger similares análisis de los textos literarios cuyo punto de partida viene determinado por las novedosas proyecciones y puntos de vista que las teorías feministas formulan sobre la base de las ciencias históricas tradicionales Fundamentos de teoría literaria contemporánea Juan M. Godoy Marquet, 2022-12-21 For students of literature a background in literary theory will provide tools for analysis that yield a rich understanding of literary texts as well as a variety of approaches to writing about them This is the first introductory Spanish language textbook to present the complex and challenging thought of Barthes Derrida Foucault Lacan Kristeva and other leading authors as well as feminists of the first and second waves Russian formalists Marxists post colonial writers cultural and queer studies theorists and many other central thinkers in literary theory Each chapter explores a separate theory and discusses its fundamental concepts and how they apply to literary texts at a basic level Chapters are identically organized better helping students to compare and link theories There are four sections at the end of each chapter including a collection of review questions that provide instructors with direction for class discussion a series of ideas for applying each theory to literary works a glossary and a bibliography **Teorías literarias del siglo XX** José Domínguez Caparrós, 2011-06-24 Por teoría contemporánea de la literatura debe entenderse lo más destacable que en el pasado siglo se ha pensado sobre literatura El autor considera que pueden establecerse cuatro apartados en la teoría literaria del siglo XX El primer grupo comprende las escuelas que se caracterizan por su estudio immanente de la literatura y cubren el vacío dejado por la poética clásica y clasicista después de la crisis del siglo XIX El segundo comprende corrientes que preconizan acercamientos immanentes pero su punto de partida en la comprensión de la literatura es el análisis de la lengua literaria En el tercer grupo se integran las corrientes que van más allá del texto normalmente por la relativización de su valor como objeto autónomo de estudio con la introducción de una consideración más atenta del lector o de los demás factores de la comunicación literaria El último grupo incluir a las corrientes de crítica que se caracterizan por la aplicación de una teoría exterior psicología sociología o feminismo al estudio de la literatura *Teoría literaria feminista* Toril Moi, 1988 Culeson las implicaciones políticas de una práctica crítica feminista De qué manera los problemas del texto literario se relacionan con las prioridades y perspectivas de la política feminista en su conjunto Este libro se ocupa de estas cuestiones fundamentales y examina las ventajas y limitaciones de las dos cadenas principales en la crítica feminista la angloamericana y la francesa prestando especial atención a las obras de Cixous Irigaray y Kristeva En los años transcurridos desde la publicación de este libro ha alcanzado justamente la condición de un clásico Escrito para lectores con poco conocimiento del tema sin embargo hace su propia intervención en los debates clave argumentando provocativamente para una crítica política y teórica comprometida

Las TIC en la enseñanza de la Teoría de la Literatura María Isabel Navas Ocaña, 2020-11-23 En los últimos quince años la Universidad española ha hecho un importante esfuerzo de incorporación de las TIC a la enseñanza. Consideradas como uno de los ejes que vertebran la llamada sociedad del conocimiento se han constituido a su vez en un pilar fundamental del Espacio Europeo de Educación Superior. El área de Teoría de la Literatura y Literatura Comparada no ha sido ajena al impacto que las nuevas tecnologías han tenido en el proceso de enseñanza y aprendizaje. De hecho en la Universidad de Almería la mayoría de las asignaturas adscritas a esta área de conocimiento en los nuevos grados de Filología Hispánica y Estudios Ingleses implantados desde 2010 se han impartido en algún momento en modalidad semipresencial. Pues bien precisamente los cursos virtuales de las asignaturas específicas de esos títulos las Teorías literarias en España o las Teorías literarias en Gran Bretaña y Estados Unidos son los que voy a ofrecer aquí como muestra de la utilización de las TIC en la enseñanza de la Teoría de la Literatura.

Teoría e crítica literaria feminista Thomas Bonnici, 2007 [Teoría Feminista Francesa: Un Apunte sobre la Escuela Filosófica](#) Pons Malleus, 2025-09-26 Este libro surge de un compromiso sostenido con el complejo y a menudo provocador panorama de la teoría feminista francesa un movimiento que es menos una escuela de pensamiento cohesionada y más una constelación de indagaciones filosóficas sobre el lenguaje la subjetividad la corporeidad y el poder. Situado en la intersección del postestructuralismo el psicoanálisis y la crítica política el pensamiento feminista francés ha desafiado durante mucho tiempo los fundamentos de la filosofía occidental cuestionando la presunta neutralidad de sus categorías y exponiendo las dimensiones de género arraigadas en su lógica. Las pensadoras cuya obra explora este libro en particular Simone de Beauvoir Luce Irigaray Hélène Cixous y Julia Kristeva no constituyen un bloque teórico unificado. Cada una aborda el feminismo con métodos y vocabularios distintos a menudo con marcadas divergencias en sus objetivos y supuestos. Sin embargo lo que las une es una resistencia común a las concepciones reduccionistas de la feminidad y una desconfianza compartida hacia las tradiciones filosóficas que silencian o excluyen la diferencia femenina. En lugar de ofrecer una definición singular de lo que significa ser mujer la teoría feminista francesa prioriza la multiplicidad la fluidez y la irreductibilidad de la experiencia vivida. En esencia este movimiento critica las estructuras falocéntricas de significado que han dominado el discurso occidental. Irigaray por ejemplo argumenta lebremente que las mujeres han sido construidas como el Otro del hombre definidas únicamente en relación negativa con la norma masculina. Cixous propuso la *écriture féminine* una escritura radicalmente corporizada que rompe con las narrativas lineales y patriarcales y expresa lo que el lenguaje tradicional ha reprimido. Las teorías psicoanalíticas de Kristeva complicaron las nociones de identidad al revelar la inestabilidad del sujeto hablante mientras que el existencialismo de Beauvoir sentó las bases al afirmar que la mujer no nace sino que se deviene un llamado a reconocer la producción histórica y cultural de los roles de género. Este libro no busca simplificar ni resolver las tensiones existentes en la teoría feminista francesa. En cambio las acoge como espacios

generadores de reflexión filosófica Es un recorrido por textos tan potentes como teóricos tan elusivos como esclarecedores Las pensadoras aquí presentadas se resisten con frecuencia a la sistematización y sus escritos a menudo difuminan las fronteras entre la filosofía la literatura y el psicoanálisis Esta hibridez no es un defecto sino una fortaleza abre la teoría feminista a nuevas formas de expresión e invita a los lectores a repensar no solo lo que saben sino también cómo llegan a saber La influencia de la teoría feminista francesa trasciende las fronteras de Francia y las disciplinas académicas de la filosofía y la literatura Ha moldeado el debate en el ámbito del arte los estudios culturales la teoría de género y los estudios críticos sobre la raza ofreciendo herramientas para criticar las sutiles operaciones del poder tanto en el ámbito público como en el privado Este libro pretende rastrear estas varias intelectuales destacando cómo las reflexiones de las pensadoras feministas francesas siguen siendo urgentes y vitales en un mundo que aún lidia con la desigualdad de género la violencia sistémica y el desafío de imaginar futuros más justos Ya sea que te acerques a este libro como estudiante de filosofía investigador/a de teoría feminista o pensador/a curioso/a atraído/a por ideas radicales espero que estas páginas inspiren tanto el pensamiento crítico como la exploración creativa La teoría feminista francesa no ofrece respuestas fáciles exige una lectura profunda una reflexión cuidadosa y una apertura a la transformación Con ese espíritu te invito a adentrarte en el laberinto

Politically Writing Women in Hispanic Literature Martha Lorena Rubí, Martha Lorena Rubí, 2011 This groundbreaking study explores feminist theory and literary criticism embedded in seventeen works by Hispanic American authors and Latina writers in the United States The books bring out women's philosophic and historic concepts of becoming a woman politically in the public sphere of society Philosophers like Luce Irigaray and Deleuze and Guattari have realized that women's representation in philosophic discourses are missing The universal mankind or the omnipresent self can no longer ignore that women have different experiences than man in both the private and public realm Each aesthetic work whether novel poem or short story brings a woman centered concern written by a woman author The first fourteen lie in diversity historic national cultural and ethnic experiences that Hispanic women undergo daily or during times of social upheaval mainly dictatorships How they write imparts experience and action in her trials of becoming multiple selves or subjectivities which theorists and female critics alike identify is missing from two thousand years of Western Philosophy The stories are unique as the introduction underlines the basis of the concept of becoming which women may embrace in writing themselves politically in literature The last four works by U.S. Latinas is further problematized through the process of immigration Hispanic women on their way to becoming Americans have many factors to consider race gender ethnicity education and social class which applies to all the main woman characters in each selective work The criterion is set in the Introduction and applied to work which inspired it Written from a multicultural standpoint draws from an interdisciplinary perspective whether psychology economics feminist theories philosophy and history The study intends to look at ways of thinking the woman question and how she defines herself in the process
