Tercer tipo Alejandro Vignati, 1978 **The UFO Evidence** Richard H. Hall, 2001-01-03 Patterned after the first volume published in 1964 The UFO Evidence Volume II is much anticipated by the research community The book reports 30 years of UFO sightings since 1964 with related data and descriptive features organized by category Among the topics discussed are the now strongly established patterns of UFO sightings the growing evidence worldwide that UFOs represent someone's technology the history of government sponsored UFO investigations and political and human responses to UFO sightings The master chronology is an incredibly complete listing which also refers the reader to pertinent sections in the book for fuller descriptions Señales en el cielo Fabio Zerpa, 2017-07-01 Fabio Zerpa cuenta sus inicios y condensa sesenta años de

investigación recorriendo el mundo y entrevistando a personas que aseguran haber visto objetos voladores Profecías teorías vidas paralelas y mundos subterráneos 17 de noviembre de 1959 Fabio Zerpa un joven actor que ocupaba un sitio incipiente pero importante en el teatro y la televisión estaba grabando escenas en una base aérea Durante el descanso el piloto que hacía de su doble de riesgo lo invitó a dar un paseo en avioneta Ascendieron a ochocientos metros de altura Volaban se alimentando de las curiosidades del paisaje bromeando cuando de pronto el piloto se puso serio y le indicó a Fabio que mirara a su izquierda y detrás Yo giré la cabeza para ver más allá de la cola del avión y vi algo así como un bolido plateado de unos cincuenta metros de largo volando siguiéndonos recuerda Zerpa Increíblemente se detuvo un instante frente a la cabina de nuestro avión Y de pronto realizó un movimiento de sesenta grados y se perdió en el cielo a gran velocidad hacia el norte Todo en silencio Estaba muy impresionado Busqué en ese cielo claro como una nueva señal pero nada Así como había aparecido había dejado su ausencia tan enorme como mi asombro La visión de ese objeto marcará a su destino para siempre Como al mejor de los artistas o de los sabios a Fabio Zerpa lo fascinó un misterio y le dedicó su vida Durante sesenta años investigó se entrevistó con personas de todo el mundo y fue detrás de pistas y datos que documentó con fervor y precisión Este libro es una historia de vida la de un hombre que convirtió sus días en una película de ciencia ficción pero también la búsqueda incansable y monumental de respondernos Qué hay más allá Conoce Fabio Zerpa en los años setenta Ya era un gran investigador Su trabajo ha sido titánico Solo los que investigamos por las carreteras lo sabemos La historia algo difícil de hacer justicia Juan José Benítez

Extraterrestres Wade Roush, 2024-06-03 Estamos solos en el universo Si no dónde están todos Una interesante exploración de uno de los problemas sin resolver más importantes de la ciencia Todo lo que sabemos sobre cómo se forman los planetas y cómo surge la vida sugiere que la civilización humana en la Tierra no debería ser única Debemos ver abundante evidencia de actividad extraterrestre pero no la vemos Dónde está todo el mundo En este volumen de la serie Conocimientos esenciales de MIT Press el escritor de ciencia y tecnología Wade Roush examina uno de los grandes problemas sin resolver de la ciencia hay vida inteligente o no en otros planetas Esta paradoja seguro que está por ahí pero dónde formulada por primera vez por el famoso físico Enrico Fermi ha alimentado décadas de debate especulación y últimamente algo de ciencia real Roush presenta

el problema en su contexto histórico y moderno y resume el pensamiento más reciente entre los astrónomos y astrobiólogos. También describe la larga historia de la especulación sobre extraterrestres: hemos estado debatiendo la idea durante miles de años. El surgimiento de SETI (búsqueda de inteligencia extraterrestre) como disciplina científica en la década de 1960 y el uso de técnicas ópticas y de radio por parte de los científicos para buscar señales: los desarrollos en astrobiología y el estudio de cómo podría surgir la vida en entornos no similares a la Tierra y la investigación de exoplanetas: el descubrimiento de planetas fuera de nuestro sistema solar. Finalmente analiza las posibles soluciones a la paradoja de Fermi y sugiere una forma de reenfocar el trabajo de SETI que podría aumentar las posibilidades de resolver dicha paradoja y así encontrar extraterrestres.

El Edificio de la UFOlogía: Experiencias espirituales y de contacto ET. 2ª Edición Diego Kurilo, De todas las historias posibles y probables las de los viajes en naves espaciales y más si son conducidos por seres de otras civilizaciones son de las más fascinantes: existen un número infinito de emociones en la paleta de colores de la psicología humana para acercarse a todas estas historias que la persona cree o necesita creer en un marco mental propio. Este tipo de experiencias de contacto con sin programación: abducciones o inclusive entrar en una nave de tipo ET de manera consciente crean en la conciencia del experimentador una multiplicidad de símbolos que la persona contactada: estar toda la vida tratando de descifrar como en un enigma.

Ovnis, del espacio exterior al espacio interior Moisés Garrido Vázquez, 2016-11-14. Hace tiempo que el fenómeno ovni dejó de ser una mera colección de casos más o menos espectaculares recogidos por investigadores particulares y militares en todo el mundo. Se trata de un fenómeno mucho más complejo, enrevesado y escurridizo. Durante años la mayoría de los ufólogos se ha encandilado demasiado con las luces cegadoras de los ovnis y no ha prestado apenas atención a otros factores tras los cuales podría estar la verdadera dimensión del problema ovni. En la presente obra el autor se adentra en aquellas parcelas más heterodoxas del fenómeno ovni como por ejemplo la paraufología dando un valor primordial al factor humano y a los elementos parafísicos: arquetipos y absurdos que van implícitos en los encuentros cercanos, el contactismo y las abducciones. En *Ovnis, del espacio exterior al espacio interior* Moisés Garrido Vázquez, uno de los investigadores ovni más reputados de nuestro país habla sin tapujos y sin dejarse nada sobre los aspectos más desconocidos e impactantes de este intrigante fenómeno. Lo que empezó como una curiosidad inofensiva, un esfuerzo personal por responder a la pregunta de si estamos o no solos en el Universo se ha convertido en un trabajo con profundas implicaciones filosóficas. Moisés Garrido radiografía el fenómeno ovni llevándolo más allá de los tópicos que lo rodean e implicándonos a todos en su búsqueda de respuestas. JAVIER SIERRA autor de *La ruta prohibida* y otros enigmas de la Historia.
