The Livelihood Of Kin Making Ends Meet The Kentucky Way:

The Livelihood of Kin Rhoda H. Halperin, 1990-12-01 Rural Appalachians in Kentucky call it The Kentucky Way making a living by doing many kinds of paid and unpaid work and sharing their resources within extended family networks In fact these strategies are practiced by rural people in many parts of the world but they have not been studied extensively in the United States In *The Livelihood of Kin* Rhoda Halperin undertakes a detailed exploration of this complex family oriented economy showing how it promotes economic well being and a sense of identity for the people who follow it Using actual life and work histories Halperin shows how people make a living in between the cash economy of the city and the agricultural subsistence economy of the country In regionally based three generation kin networks family members work individually and jointly at many tasks small scale agricultural production food processing and storage odd jobs selling used and new goods in marketplaces and wage labor much of which is temporary People can make ends meet even in the face of job layoffs and declining crop subsidies With these strategies people win a considerable degree of autonomy and control over their lives Halperin also examines how such multiple livelihood strategies define individual identity by emphasizing a person's role in the family network over an occupation She reveals through psychiatric case histories what damage can result when individuals leave the family network for wage employment in the cities as increasing urbanization has forced many people to do While certainly of interest to scholars of Appalachian studies this lively and readable study will also be important for economic anthropologists and urban and rural sociologists

and Dissent in the Hills of Carolina Mary K. Anglin, 2002 *Women Power and Dissent in the Hills of Carolina* is a unique and impassioned exploration of gender labor and resistance in western North Carolina Based on eight months of field research in a mica manufacturing plant and the surrounding rural community as well as oral histories of women who worked in mica houses in the early twentieth century this landmark study canvasses the history of the mica industry and the ways it came to be organized around women s labor Mary K Anglin s investigation of working women s lives in the plant she calls Moth Hill Mica Company reveals the ways women have contributed to household and regional economies for more than a century Without union support or recognition as skilled laborers these women developed alternate strategies for challenging the poor working conditions paltry wages and corporate rhetoric of Moth Hill Utilizing the power of memory and strong family and community ties as well as their own interpretations of gender and culture the women have found ways to boss themselves

Shelter from the Machine Jason G. Strange, 2020-03-23 You re either buried with your crystals or your shotgun That laconic comment captures the hippies versus hicks conflict that divides and in some ways defines modern day homesteaders It also reveals that back to the landers though they may seek lives off the grid remain connected to the most pressing questions confronting the United States today Jason Strange shows where homesteaders fit and don t fit within contemporary America Blending history with personal stories Strange visits pig roasts and bohemian work parties to find people engaged in a lifestyle that offers challenge and fulfillment for those in search of virtues like self employment frugality contact with nature and escape from the mainstream He also lays bare the vast differences in education and opportunity that leave some homesteaders dispossessed while charting the tensions that arise when people seek refuge from the ills of modern society only to find themselves indelibly marked by the system they dreamed of escaping *Fighting Back in Appalachia* Stephen Fisher, 2009 Citizen resistance and struggle in Appalachia since 1960 *Ginseng Diggers* Luke Manget, 2022-03-08 The harvesting of wild American ginseng *panax quinquefolium* the gnarled aromatic herb known for its therapeutic and healing properties is deeply established in North America and has played an especially vital role in the southern and central Appalachian Mountains Traded through a trans Pacific network that connected the region to East Asian markets ginseng was but one of several medicinal Appalachian plants that entered international webs of exchange As the production of patent medicines and botanical pharmaceutical products escalated in the mid to late nineteenth century southern Appalachia emerged as the United States most prolific supplier of many species of medicinal plants The region achieved this distinction because of its biodiversity and the persistence of certain common rights that guaranteed widespread access to the forested mountainsides regardless of who owned the land Following the Civil War root digging and herb gathering became one of the most important ways landless families and small farmers earned income from the forest commons This boom influenced class relations gender roles forest use and outside perceptions of Appalachia and began a widespread renegotiation of common rights that eventually curtailed access to ginseng and other plants Based on extensive research into the business records of

mountain entrepreneurs country stores and pharmaceutical companies Ginseng Diggers A History of Root and Herb Gathering in Appalachia is the first book to unearth the unique relationship between the Appalachian region and the global trade in medicinal plants Historian Luke Manget expands our understanding of the gathering commons by exploring how and why Appalachia became the nation's premier purveyor of botanical drugs in the late nineteenth century and how the trade influenced the way residents of the region interacted with each other and the forests around them **Ethnologia**

Europaea Vol. 33:1 Bjarne Stoklund, 2003-06 Since its start in 1967 Ethnologia Europaea has acquired a central position in the international cooperation between ethnologists in the different European countries It is however a journal of topical interest not only for ethnologists but also for anthropologists social historians and others studying the social and cultural forms of everyday life in recent and historical European societies This journal appears twice a year sometimes as a thematic issue Agrarian Landscapes in Transition Charles L. Redman, David R. Foster, 2008-07-18 Agrarian transformations represent the most pervasive alteration of the Earth's terrestrial environment over the past 10 000 years Using North American examples the book traces compares and contrasts the introduction spread and abandonment of agriculture at six U S long term ecological research LTER sites Indeed lessons from these examples apply more broadly to inform socio ecological studies land use options conservation strategies restoration initiatives and urban planning **Seldom Ask, Never Tell**

Anita Puckett, 2000 Puckett takes a new look at the relationship between language society and economics by examining how people talk about work in a rural Appalachian community Through careful analysis of conversations in casual yet commercial contexts she finds that the construction and maintenance of this discourse is essential to the community's socioeconomic relationships The volume will appeal to linguists anthropologists and scholars in communications and Appalachian studies

Creole Economics Katherine E. Browne, 2010-01-01 What do the trickster Rabbit slave descendants off the books economies and French citizens have to do with each other Plenty says Katherine Browne in her anthropological investigation of the informal economy in the Caribbean island of Martinique She begins with a question Why after more than three hundred years as colonial subjects of France did the residents of Martinique opt in 1946 to integrate fully with France the very nation that had enslaved their ancestors The author suggests that the choice to decline sovereignty reflects the same clear headed opportunism that defines successful crafty and illicit entrepreneurs who work off the books in Martinique today Browne draws on a decade of ethnographic fieldwork and interview data from all socioeconomic sectors to question the common understanding of informal economies as culture free survival strategies of the poor Anchoring her own insights to longer historical and literary views the author shows how adaptations of cunning have been reinforced since the days of plantation slavery These adaptations occur not in spite of French economic and political control but rather because of it Powered by the essential tensions of maintaining French and Creole identities the practice of creole economics provides both assertion of and refuge from the difficulties of being dark skinned and French This powerful ethnographic study shows how

local economic meanings and plural identities help explain work off the books Like creole language and music creole economics expresses an irreducibly complex blend of historical contemporary and cultural influences
