The Lobster Store:

Scenes in Front of a Clothing Store Frank Dumont, 1889 **How to Catch a Lobster in Downeast Maine** Christina Lemieux Oragona, 2019-11-18 An insider's look at the daily lives of Maine's lobster fishermen. What is it like to live and work in a lobster fishing village in one of the most remote parts of Maine? The extreme weather conditions of the Maine coast, unreliable fishing seasons, and an ever-present element of danger are just a few of the challenges encountered by lobster fishermen. They must adapt to constant change and balance exploiting the natural resource for personal profit with a duty to conserve lobster stocks for future generations. Despite the challenges, most would not trade the benefits of their job for the independence it offers or unique pastimes like lobster boat racing. These fishermen aren't just the masters of their ships; they are the captains of their souls. From a family of four generations of lobster fishermen, Christina Lemieux Oragona provides a glimpse inside these lobstering communities and celebrates it for those lucky enough to live it: the trials, triumphs, and even a few of her favorite lobster recipes. Her first book is a comprehensive, authentic, and honest insider's look at the life of a Maine lobsterman. The book covers the strategy involved; they don't just plunk those traps anywhere; the complexities of the market; the perils of the profession; the finer points of lobster boat design; and even the unwritten rules that lobstermen use to police their waters, which are strictly, if unofficially enforced. *Colby Magazine*. With an abundance of romanticized and dramatic fishing stories on the shelves, Christina wanted to tell the story in an accurate way and felt a responsibility not just to the fishermen but to her family also. *Machias Valley Observer*. Christina lived in Cutler, worked in the industry, and then interviewed a number of people to make this book possible. My first question for her is when will the next book come out. *Maine Coastal News*. *The Lobstermen of Penobscot Bay* Gerald H. Lufkin, 2008-03-27 Pull up that slack! Jeremy yells, trying to be heard over the howling wind. Snug it up! Snug it up! he continues excitedly as he is trying to control the boat in the wild seas. Here she comes! his son replies as a three-foot lobster trap comes flying over the gunwale. Never mind them now! Jeremy orders. Pull out the slack in that trawl line before it snags the propeller. We've got one more trap on this trawl! Just then a wave crest breaks over the boat, and then sucks the stern back over the trap line. Crack! Snap! the line breaks, sending Charley hurtling into the cabin bulkhead. He struggles to grab a handhold while the deck is awash with sea water. The lobsterman and his son are twelve miles off the mainland in outer Penobscot Bay. They are working furiously against the wind and icy cold ocean spray. Twelve-foot ocean swells lift his 40-foot work boat up like an express elevator onto the wind-driven wave crests, and then the boat drops over the other side like a rock. The engine strains to keep headway and steerage against the swells. Insulated rubber gloves and numb hands make it impossible to take up the slack in the lobster trap line strung out three hundred feet in the freezing water. This story is about these stout-hearted men, their relationships among each other, and the heart-rendering fear suffered by their families. Most of all, it is about their day-to-day danger, excitement, and emotional encounters set in the midst of the most beautiful environment that anyone could want to live in. The Last Lobster Christopher White, 2018-06-05 From the author of Skipjack The Melting World comes a mystery the curious boom in America s beloved lobster industry and its probable crash Maine lobstermen have happened upon a bonanza along their rugged picturesque coast For the past five years the lobster population along the coast of Maine has boomed resulting in a lobster harvest six times the size of the record catch from the 1980s an event unheard of in fisheries In a detective story scientists and fishermen explore various theories for the glut Leading contenders are a sudden lack of predators and a recent wedge of warming waters which may disrupt the reproductive cycle a consequence of climate change Christopher White s The Last Lobster follows three lobster captains Frank Jason and Julie one the few female skippers in Maine as they haul and set thousands of traps Unexpectedly boom may turn to bust as the captains must fight a warming ocean volatile prices and rough weather to keep their livelihood afloat The three captains work longer hours trying to make up in volume what they lack in price As a result there are 3 million lobster traps on the bottom of the Gulf of Maine while Frank Jason and others call for a reduction of traps which may boost prices The Maine lobstering towns are among the first American communities to confront global warming and the survival of the Maine Coast depends upon their efforts It may be an uphill battle to create a sustainable catch as high temperatures are already displacing lobsters northward toward Canadian waters out of reach of American fishermen The last lobster may be just ahead

The Lobster Coast Colin Woodard, 2005-04-26 A thorough and engaging history of Maine s rocky coast and its tough minded people Boston Herald A well researched and well written cultural and ecological history of stubborn perseverance USA Today For more than four hundred years the people of coastal Maine have clung to their rocky wind swept lands resisting outsiders attempts to control them while harvesting the astonishing bounty of the Gulf of Maine Today s independent self sufficient lobstermen belong to the communities imbued with a European sense of ties between land and people but threatened by the forces of homogenization spreading up the eastern seaboard In the tradition of William Warner s Beautiful Swimmers veteran journalist Colin Woodard author of American Character A History of the Epic Struggle Between Individual Liberty and the Common Good traces the history of the rugged fishing communities that dot the coast of Maine and the prized crustacean that has long provided their livelihood Through forgotten wars and rebellions and with a deep tradition of resistance to interference by people from away Maine s lobstermen have defended an earlier vision of America while defying the tragedy of the commons the notion that people always overexploit their shared property Instead these icons of American individualism represent a rare example of true communal values and collaboration through grit courage and hard won wisdom

The Love List Elena Murzello, 2013-09-04 Elena Murzello cannot imagine going to the

grocery store without a list As she strolls through the aisles she relies on her list to make sure she gets her must haves and to help keep her from grabbing items she does not need It was with this theory in mind that at age twenty one she created a list of characteristics for a potential lifelong mate that still guides her love choices to this day In *The Love List* Elena shares her real life experiences as well as information gathered from more than a hundred single divorced and married men and women about the qualities they look for in a life partner Abstracting details from her interviews she created a process that anyone can use to create his or her own lists Along with introspective questions to ponder Elena includes sample lists of characteristics the top three traits both men and women seek in a partner an exploration of different types of relationships and ways to diversify a portfolio of suitors *The Love List* provides practical tips and personal stories to encourage single people to look deep within take risks and learn to rely on their own unique lists while searching for the perfect mate
