Modern Physics and its Philosophy M. Strauss, 2012-12-06 In selecting the papers for this volume I have excluded all physics papers proper I have further omitted all book reviews Instead I have included two papers not published previously they are marked by an asterisk in the table of contents Since many of the papers were occasioned by Symposia or similar gatherings their chronological order is rather accidental Hence I have tried to group the papers thematically into four parts Within each part the order of sequence is from the more general to the more special or from a more popular to a more technical treatment The same principle has been applied to the sequential order of the parts The foundational papers on

quantum mechanics have been arranged in a somewhat different manner Chapters XVI XIX are concerned with the logic of complementarity while in Chapters XX XXII a more radical reconceptualization is carried out Two of the older papers Chapters VI and VIII have been revised to bring them more into line with present terminology Other papers have been corrected by additions and omissions Additions are marked by square brackets while double square brackets signify omissions or parts to be omitted Hence A B means that A should be replaced by B The heading of one paper Chapter XX has been changed to make it more descriptive

Founder of Modern Economics: Paul A. Samuelson Roger E. Backhouse, 2017-04-04

Paul Samuelson was at the heart of a revolution in economics He was the foremost academic economist of the 20th century according to the New York Times and the first American to win the Nobel Prize in Economics His work transformed the field of economics and helped give it the theoretical and mathematical rigor that increased its influence in business and policy making In *Founder of Modern Economics* Roger E Backhouse explores the central importance of Samuelson's personality and social networks to understanding his intellectual development This is the first of two volumes covering Samuelson's extended and productive life and career This volume surveys Samuelson's early years growing up in the Midwest to his experiences at the University of Chicago and Harvard University where leading scholars in economics and other disciplines stimulated and rewarded his curiosity His thinking was influenced by the natural sciences and he understood that a critical scientific approach increased insights into important social and economic questions He realized that these questions could not be answered through rhetorical debate but required rigor His eureka moment came he said when a good fairy whispered to me that math was a skeleton key to solve age old problems in economics Backhouse traces Samuelson's thinking from his early days to the publication of his groundbreaking book *Foundations of Economic Analysis and Economics* An Introductory Analysis which influenced generations of students His work set the stage for economics to become a more cohesive and coherent discipline based on mathematical techniques that provided surprising insights into many important topics from business cycles to wage and unemployment rates and from how competition influences trade to how tax rates affects tax collection *Founder of Modern Economics* is a profound contribution to understanding how modern economics developed and the thinking of a revolutionary thinker

Modern physics and its philosophy M. Strauss, 1972 Law and the Modern Mind Jerome Frank, Brian H. Bix, 2017-07-12

Law and the Modern Mind first appeared in 1930 when in the words of Judge Charles E Clark it fell like a bomb on the legal world In the generations since its influence has grown today it is accepted as a classic of general jurisprudence The work is a bold and persuasive attack on the delusion that the law is a bastion of predictable and logical action Jerome Frank's controversial thesis is that the decisions made by judge and jury are determined to an enormous extent by powerful concealed and highly idiosyncratic psychological prejudices that these decision makers bring to the courtroom
