The Love Death Of Orpheus:

Vibrant Death Nina Lykke, 2021-12-16 *Vibrant Death* links philosophy and poetry based corpo affectively grounded knowledge seeking It offers a radically new materialist theory of death critically moving the philosophical argument beyond Christian and secular mechanistic understandings The book s ethico political figuration of vibrant death is shaped through a pluriversal conversation between Deleuzean philosophy neo vitalist materialism and the spiritual materialism of decolonial queerfeminist poet and scholar Gloria Anzaldua The book s posthuman deexceptionalizing of human death unfurls together with a collection of poetry and autobiographical stories They are analysed through the lens of a posthuman queerfeminist revision of the method of autophenomenography phenomenological analysis of autobiographical material Nina Lykke explores the speaking position of a mourning queerfeminine I who contemplates the relationship with her dead beloved lesbian life partner She reflects on her enactment of processes of co becoming with the phenomenal and material traces of the deceased body and the new assemblages with which it has merged through death s material metamorphoses becoming ashes through cremation and becoming mixed with algae sand when the ashes were scattered across a seabed made of fiftyfive million year old fossilized algae It is argued that the mourning I s intimate bodily empathizing theorized as symphysizing with her deceased queermasculine beloved life partner facilitates the processes of vitalist material and spiritual material co becoming and the rethinking of death from a new and different perspective than that of the sovereign philosophical subject

The Love & Death of Orpheus Ronald Hambleton, 1979

Mirrors of Passing Sophie Seebach, Rane Willerslev, 2018-08-01 Without exception all people are faced with the inevitability of death a stark fact that has immeasurably shaped societies and individual consciousness for the whole of human history *Mirrors of Passing* offers a powerful window into this oldest of human preoccupations by investigating the interrelationships of death materiality and temporality across far flung times and places Stretching as far back as Ancient Egypt and Greece and moving through present day locales as diverse as Western Europe Central Asia and the Arctic each of the richly illustrated essays collected here draw on a range of disciplinary insights to explore some of the most fundamental universal questions that confront us

Now Through a Glass Darkly Edward Peter Nolan, 1990 Nolan explores the way Roman and medieval authors used the mirror as both instrument and metaphor

Vergil's Georgics Katharina Volk, 2008-08-21 This volume together with its companion on the *Eclogues* and the previously published volume on the *Aeneid* completes the coverage of Vergil s poetry in *Oxford Readings in Classical Studies* It collects ten classic papers on the *Georgics* written between 1970 and 1999 by leading scholars from several different countries The contributions are representative of recent developments in Vergilian scholarship with some discussing general issues raised by the work and others treating important individual poems and passages The editor s Introduction places the essays in their context A conspectus of contemporary *Georgics* criticism the book will be helpful to students who are encountering the poems for the first time all Latin has been translated and will also

serve as a reference work for more seasoned scholars

The Pursuit of Myth in the Poetry of Frank O'Hara, Ted Berrigan and John Forbes Duncan Hose, 2022-04-04 The Pursuit of Myth in the Poetry of Frank O'Hara Ted Berrigan and John Forbes traces a tradition of revolutionary self mythologising in the lives and works of Frank O'Hara Ted Berrigan and John Forbes as a significant trefoil in twentieth century English language poetry All three had untimely deaths excited a collective homage and developed cult followings that reverberate today This book tracks the transmission of the poem as charm the poet as charmer and the reinstitution of troubadour erotics as a kind of social poetics Starting with Orpheus the book refreshes the myth of the poet as mythmaker examining how myths of self and nation are regenerated for the twenty first century and how persons as myths are made in community through coterie of artists and beyond Duncan Bruce Hose's critical vocabulary with its nucleus of mythos searches the edges of phenomenal enquiry closing in on the work of glamour aura charm possession phantasm the daemonic and the logic of haunting in the continuing being of these three poets as charismatic animals

Virgil: Georgics Philip R. Hardie, 1999 This set collects eighty four of the most important articles published on Virgil in the last hundred years many of which remain the starting points for modern scholarship and criticism

Cinema's Illusions, Opera's Allure David Schroeder, 2016-10-06 The invention of cinema was ingenious so much so that virtually no one quite knew what to do with it In its earliest stages especially with the advent of the feature film it needed models and opera proved to be especially useful in that regard The allure of opera to cinema early in the twentieth century held up through the silent era into sound films through the golden age of movies and beyond This book explores the numerous ways some predictable some unexpected and some bizarre in which this has happened The influence of Richard Wagner on filmmakers has been especially striking and some have even devised visual images that seem to emerge from a kind of non verbal Wagnerian essence a formative musical urge that can underlie a cinematic idea defying explanation and remaining purely sensory Directors like Griffith DeMille Eisenstein Chaplin Bunuel or Hitchcock have intuited this possibility Schroeder provides a fascinating well researched and always entertaining account of the influence of one medium on another and shows that opera can often be found lurking in the background or booming in the foreground of an impressive range of films

Myth, Emblem, and Music in Shakespeare's Cymbeline Peggy Muñoz Simonds, 1992 Winner of the University of Delaware Press Award for the best manuscript in Shakespearean Studies this study clarifies and revitalizes Shakespeare's Cymbeline for the modern reader through a rediscovery of the poet's artistic use of Renaissance myths symbols and emblematic topoi that give meaning to the play Although mainly concerned with the rich classical and Christian iconography of Cymbeline the book also ranges widely over Shakespeare's dramatic and nondramatic works and beyond to the work of his contemporaries in Renaissance poetry drama art theology philosophy emblems and myths to show parallels between the mysteries of this tragicomedy and other examples of Renaissance thought and expression It uncovers actual representations in the visual arts of parallels to the play's descriptive and theatrical moments These iconographic parallels are lavishly

illustrated in the book through photographs of Renaissance plaster work embroidery metalwork oil paintings and sculpture but primarily through woodcuts and engravings from English and Continental emblem books of the period The visual imagery is carefully related to an intellectual explanation of Cymbeline s complex Neoplatonic and Reformation themes The author begins with a extended definition of the genre of Renaissance tragicomedy a form developed for Christian artistic purposes in Italy by Tasso and Guarini Aside from the obviously similar characteristics of a happy ending and the presence of an oracle Cymbeline shares nine other artistic aspects with the pioneer Italian tragicomedies Aminta and Il pastor fido including the celebration of an Orphic ritual of death and resurrection After a discussion of the Neoplatonic and Ovidian mythology embedded in the play the book considers in detail the iconography of Imogen s elaborately decorated bedroom as a reconciliation of opposites the iconography of primitivism and Wild Men versus courtier as a satire of the British court and the iconography of birds animals vegetation and minerals as evocative of the major themes of doubt repentance reformation reunion and regeneration in Cymbeline The final objective of the dramatic conflict is mutual forgiveness and a happy marriage all of which is achieved through temperance or the attainment of musical concord within the individual the state and the world Although Shakespeare shows the five senses to be an inadequate means for his characters to recognize true virtue in a deceitful world the sense of hearing is the most important in the play since it allows participation in the four redemptive functions of sound which ultimately leads to psychological harmony with the music of the spheres Simonds also demonstrates that because Cymbeline is essentially an Orphic tragicomedy designed to liberate the audience from melancholy the play strives to bring delight through its theatrical reenactment of the initially painful Platonic journey from Eros to Anteros from blindness to a vision of divinity from discord to musical harmony from spiritual confusion to joyful enlightenment
