The Ethical Demand

Knud Ejler Løgstrup, 1997-02-15 Knud Ejler Løgstrup's *The Ethical Demand* is the most original influential Danish contribution to moral philosophy in this century. This is the first time that the complete text has been available in English translation. Originally published in 1956, it has again become the subject of widespread interest in Europe, now read in the context of the whole of Løgstrup's work. *The Ethical Demand* marks a break not only with utilitarianism and with Kantianism but also with Kierkegaard's Christian existentialism and with all forms of subjectivism. Yet Løgstrup's project is not destructive. Rather, it is a presentation of an alternative understanding of interpersonal life. The ethical demand presupposes that all interaction between human beings involves a basic trust. Its content cannot be derived from any rule. For Løgstrup, there is not Christian morality and secular morality. There is only human morality.

X That Ex Kristin E. Carmichael, LISW, 2013-01-03 Hell no! It's over. I am done. Saying it to him felt so damned good. God knows he deserved it. Still, he deserves it. So why is it that only a few weeks later I doubt if I can stand by what I said? *X That Ex* is the long-awaited answer for women who have left a bad relationship and don't want to go back. It is incredibly common for women to leave partners who are emotionally unavailable, disrespectful, immature, selfish, or even abusive, but then struggle to stay away. Women might be tripped up by their exes' schemes to get them back, their own self-sabotaging ways, or even by our society which seems to glorify a "just give him one more chance" philosophy. To their family and friends' dismay, huge numbers of women go back to toxic relationships, wasting years and the possibility of happier lives on men who can't give them what they deserve. If the post-breakup world for most people were logical, fair, regulated, and well-defined, there would be no need for *X That Ex*. As most of us know, however, the time after a breakup is emotionally messy, sometimes chaotic, and filled with conflicting feelings, motivations, hopes, temptations, and realities that must be dealt with. *X That Ex* focuses on this confusing time, demystifying why it is so difficult to stay away from a problematic ex and distinguishing itself by making personalized predictions for readers about what to expect from their exes and themselves in the tumultuous time right after a relationship ends. This book is a unique roadmap that guides readers through the sometimes perilous time when a woman's ex might try time-tested tactics to tempt her back when self-sabotage may make a woman her own worst enemy and when even our culture gets in on the action by making reunification seem reasonable.

Understanding Loss Judith Murray, 2015-09-16 Loss and consequent grief permeates nearly every life-changing event, from death to health concerns to dislocation to relationship breakdown to betrayal to natural disaster to faith issues. Yet while we know about particular events of loss independently, we know very little about a psychology of loss that draws many adversities together. This universal experience of loss as a concept in its own right sheds light on so much of the work we do in the care of others. This book develops a new overarching framework to understand loss and grief, taking into account both pathological and wellbeing approaches to the subject. Drawing on international and cross-disciplinary research, Judith Murray highlights nine common themes of loss, helping us to understand how it is experienced. These themes are then used to develop a practice framework for structuring assessment.

and intervention systematically Throughout the book this generic approach is highlighted through discussing its use in different loss events such as bereavement trauma chronic illness and with children or older people Having been used in areas as diverse as child protection palliative care and refugee care the framework can be tailored to a range of needs and levels of care Caring for people experiencing loss is an integral part of the work of helping professions whether it is explicitly part of their work such as in counselling or implicit as in social work nursing teaching medicine and community work This text is an important guide for anyone working in these areas

Hadewijch and Her Sisters John Giles Milhaven, 1993-08-24 Hadewijch a thirteenth century woman describes her relationship with God as a mutual loving in which God and she affect each other personally and profoundly This book presents in detail the account by Hadewijch of this supreme and most satisfying experience Presented here are phenomenologically specific traits of the bodily knowing that Hadewijch and other women of her time and place prized in their devotion to Christ and his saints The opposition to the traditional Western ideal and norm is evident In prizing embodied mutuality Hadewijch has learned from Bernard of Clairvaux but sees much more
