This book covers the years 1923 to 2023, describes how the Great Eastern Section of the London and North Eastern Railway was transformed from being something of a backwater during the inter-war years to being very much at the forefront of modernisation under British Railways. Within the book will be found how the Great Eastern Section coped with the threat of road competition during the inter-war years, its involvement in the Second World War and how under British Railways it came to be seen the epitome of modernisation, beginning with the arrival of the Britannia Class locomotives in 1951 and culminating the complete elimination of steam power in the East of England at the end of 1963. The book describes the
