Powell and Pressburger's War Greg M. Colón Semenza, Garrett A. Sullivan Jr., 2023-09-07 A focused study on Michael Powell and Emeric Pressburger's cinematic contributions to the war effort arguing for the centrality of propaganda to their work as film artists Michael Powell and Emeric Pressburger are widely hailed as two of the greatest filmmakers in British cinema history The release of their first movie *The Spy in Black* barely preceded the beginning of World War Two and a number of their early masterworks

including *The Life and Death of Colonel Blimp*, *A Canterbury Tale* and *A Matter of Life and Death* were produced in the service of the war effort. Through exploring the relationship between art and propaganda, this book shows that Powell and Pressburger saw no contradiction between their aesthetic ambitions and their cinematic war work. Propaganda imperatives were highly conducive to their objectives as both commercial cinema practitioners and artists. Drawing on production materials from the archives of the British Film Institute, this book charts three phases in Powell and Pressburger's wartime career: from first-time collaborators who strive to reconcile popular cinematic forms with developing notions of what constitutes effective propaganda; to accomplished and sometimes controversial propagandists whose movies center upon Britain's relations with its enemies and allies; to filmmakers whose responsiveness to the propaganda requirements of the late war is matched by a focus shared by the Ministry of Information on what the post-war future would bring.

Historical Dictionary of the British and Irish Civil Wars 1637-1660 Martyn Bennett, 2016-02-10 When a large number of the people in Scotland rejected King Charles I's religious policy, they set in motion a train of events that resonated throughout England, Wales, and Ireland, and challenged the rule of the king. Between 1637 and 1660, the British Isles were embroiled in a series of wars, rebellions, and revolutions that affected not only all the political and social institutions within them but all of the people living there. Radical changes in the political relationships within the four nations sparked a series of wars that brought far-reaching political revolution. By spring 1649, the king had been executed, the monarchy abolished in England and Wales, and a republic established. The 1650s saw Scotland and Ireland incorporated into the republic as the wars finally ended. The republic had a brief life but by 1660 it was ended and the monarchy restored. The united nation established in 1653 was again broken into its component parts, and the old institutions seemingly returned to preeminence. This second edition of *Historical Dictionary of the British and Irish Civil Wars 1637-1660* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, and military technology, as well as descriptions of the battles of the war. This book is an excellent access point for students, researchers, and anyone wanting to know more about this period in history.

Landscapes of War Juan Goytisolo, 2000-10 Provides an examination of the tensions that exist between the West and Islamic societies of Europe, North Africa, and the Middle East. These essays, originating in Goytisolo's travels in the late 1990s, provide historical analysis and first-person reportage of life in four war zones: Sarajevo, Algeria, the West Bank, and Gaza, and Chechnya. Goytisolo shows how relations between Islam and the West continue to be shaped in a climate of ideological, political, and cultural confrontation. From publisher description.
