The Longest War Carol Tavris, Carole Wade, 1984 Physical and psychological differences between the sexes

Instructor's Guide to Accompany The Longest War Carole Offir, 1977 **Sex Differences** Yves Christen, 2011-12-31

Few people realize how much science can tell us about the differences between men and women Yves Christen provided the first comprehensive overview of research in this area when this classic book was first published in the 1990s He goes beyond simplistic biology is destiny arguments and constructs a convincing case for linking social and biological approaches in order to understand complex differences in behavior Biologists agree that the sexes differ in brain and body structure Christen links these differences in cerebral anatomy to differences in behavior and intellect Taking his readers on a journey through psychology endocrinology demography and many other fields Christen shows that the biological and the social are not antagonistic To the contrary social factors tend to exaggerate the biological rather than neutralize it This controversial work *Sex Differences* takes on traditional feminism for its refusal to confront the evidence on biologically determined sex differences Christen argues for a feminism that sees traits common to women in a positive light in the tradition of such early feminists as Clemence Royer and Margaret Sanger as well as more contemporary feminist sociobiologists like Sarah Hrdy We deny sex differences only at the price of scientific truth and our own self respect *Sex Differences in Social Behavior* Alice H. Eagly, 2013-05-13 In presenting an innovative theory of sex differences in the social context this volume applies social role theory and meta analytic techniques to research in aggression social influence helping nonverbal and group behavior Eagly's findings show that gender stereotypic behavior results from different male and female role expectations and that the disparity between these gender stereotypes and actual sex differences is not as great as is often believed *Men in Transition* Kenneth Solomon, 2013-11-11 Every year the few hundred members of the Committees Task Forces and Councils of the American Psychiatric Association meet in Washington D C to conduct their business They deliberate on a wide variety of issues encompassed in the activities of each group The psychiatrists constituting this mixed and somewhat elite group include some of the better known and promising people in the profession which makes the plenary session and cocktail party good occasions to meet old friends and to make new ones Several years ago one of us N B L attended this gathering as a member of a soon to be defunct group the Committee Liaison with the American College of Physicians and met Ann Chappell a member of the Task Force on Women We were soon joined by Richard Grant Ann impressed us with the work her group was doing on issues surrounding the Women's Movement as it relates to patients and the changing roles of the early 1970s She was struck by the fact that although some women had been very active in this endeavor nobody in American psychiatry was addressing issues which are arising in men as a result of the changing roles of women in society Dick and Norm were moved by what she said and decided that they would make an effort to gather together people interested in the issue of the changing roles of males in society at the oncoming meeting of the American Psychiatric Association *Gender* Linda
