The Life of Thomas D'Arcy McGee Volume I Irish Poet Irish Rebel 1825-1850 Charles MacNab Q. C.,2021-10-27 This is an extensive fresh account of the early life of Thomas D Arcy McGee Astonishing new details are provided of his escape across Ireland in 1848 including his stay on Lough Derg in the course of being rescued by Clogher and Derry priests in a carefully managed operation Indications are that his secret mission to the north at the start of the Irish Rebellion had astonishing possibilities but it was so sensitive he could never discuss it later The delightful discovery of his christening gown leads to further examination of his birth and early childhood at Carlingford There is an extensive account of his career as a journalist in America and his early involvement with Young Ireland s cultural and political mission which becomes his own Thomas Davis was an early acquaintance Gavan Duffy was a close friend John Mitchel was an early mentor While McGee led the moderates in the Confederation he was also preparing for war as he organized the Clubs to satisfy the militants just before the revolt There was no truer Irishman The official Government side of the story including Peel s extensive relief efforts made during the Great Irish Famine and Lord Clarendon s continuing vigilance is thoroughly researched and written so as to provide a balanced perspective to the general dissent and the determined and sustained efforts towards Irish independence including McGee s own glorious initiatives Out of Love for My Kin Amy Livingstone,2011-02-23 In Out of Love for My Kin Amy Livingstone examines the personal dimensions of the lives of aristocrats in the Loire region of France during the

eleventh and twelfth centuries She argues for a new conceptualization of aristocratic family life based on an ethos of inclusion Inclusivity is evident in the care that medieval aristocrats showed toward their families by putting in place strategies practices and behaviors aimed at providing for a wide range of relatives Indeed this care and in some cases outright affection for family members is recorded in the documents themselves as many a nobleman and woman made pious benefactions out of love for my kin In a book made rich by evidence from charters which provide details about life events including birth death marriage and legal disputes over property Livingstone reveals an aristocratic family dynamic that is quite different from the fictional or prescriptive views offered by literary depictions or ecclesiastical sources or from later historiography For example she finds that there was no single monolithic mode of inheritance that privileged the few and that these families employed a variety of inheritance practices Similarly aristocratic women long imagined to have been excluded from power exerted a strong influence on family life as Livingstone makes clear in her gender conscious analysis of dowries the age of men and women at marriage lordship responsibilities of women and contestations over property The web of relations that bound aristocratic families in this period of French history she finds was a model of family based on affection inclusion and support not domination and exclusion
