Russia's Skinheads Hilary Pilkington,Al'bina

Garifzianova, Elena Omel'chenko, 2010-05-11 *Russia's Skinheads Exploring and Rethinking Subcultural Lives* provides a thorough examination of the phenomenon of skinheads explaining its nature and its significance and assessing how far Russian skinhead subculture is the lumpen end of the extreme nationalist ideological spectrum. There are large numbers of skinheads in Russia responsible for a significant number of xenophobic attacks including 97 deaths in 2008 alone making this book relevant to Russian specialists as well as to sociologists of youth subculture. It provides a practical example of how to investigate youth subculture in depth over an extended period in this case through empirical research following a specific group over six years and goes on to argue that Russian skinhead subculture is not a direct import from the West and that youth cultural practices should not be reduced to expressions of consumer choice. It presents an understanding of the Russian skinhead as a product of individuals' whole and evolving lives and thereby compels sociologists to rethink how they conceive the nature of subcultures.

*Encyclopedia of Gangs* Louis Kontos, David C. Brotherton, 2007-11-30 In light of Los Angeles gang state of emergency ethnic and minority gangs are arguably more high profile now than at any other time in our history. News media typically focus on the crime and violence associated with gangs but not much else. This encyclopedia seeks to illuminate the world of gangs including gang formations, routine gang activities, aberrations and current developments. One hundred essay entries related to gangs in the United States and worldwide provide a diffuse overview of the gang phenomenon. Each entry defines and explains the term, provides an historical overview and explains its significance today. As the following entries demonstrate, gangs are part of the fabric of American society. They are not only in our communities but also our schools and other social institutions. Understanding the world of gangs is therefore needed to understand American society. Entries include Bikers, Bloods, Cholas, Crips, gang mythology, gang warfare, graffiti, Hell's Angels, Hong Kong Triads, Latin Kings, law enforcement, occultic gangs, mafia, media, prison gangs, rites, Skinheads, Streetgang, Terrorism, Omnibus Prevention Act, tattoos, trafficking, Wanna bes, West Side Story, Witness Protection programs and youth gangs.

*Fighting the Last War* Jeffrey M. Bale, Tamir Bar-On, 2024-01-24 The authors argue that the potential threat of a resurgence of fascism has been consistently exaggerated from 1945 until present day; that the ongoing lack of conceptual and definitional clarity with respect to terms like fascism, the radical right, the alt right, white supremacism, populism, racism etc. has enabled ill-informed or dishonest commentators to distort their meaning and abusively misapply those labels so as to delegitimize their political opponents; and that the political and economic elites in charge of contemporary Western societies are now deliberately exaggerating and exploiting the threat posed by the domestic radical right in order to facilitate vilifying, harassing, deplatforming, censoring, canceling and repressing disgruntled citizens no matter where they may lie along the political spectrum, who openly criticize and vigorously oppose their agendas. The authors also advocate the use of well-established scholarly methods for carrying out research on the right and provide precise definitions of various terms in order to facilitate the development of more accurate categorizations.

**The SAGE Encyclopedia of Terrorism, Second Edition**

Gus Martin, 2011-06-15 Six years after publication of the first edition of the best selling Encyclopedia of Terrorism much has changed on the national security scene Despite the dark promises of Osama bin Laden following the 9 11 attacks the United States has not experienced any major domestic terror incidents Al Qaeda itself is believed to be a severely crippled organization But while U S wars in Afghanistan and Iraq not to mention the arrival of the Obama administration a new balance of power within Congress and an increasingly fragile economic picture have significantly affected the national security picture the threat of economic chaos and massive loss of life due to terror attacks has not abated Indeed in July 2008 analysts pointed out that even a relatively small terrorist organization could present a dire threat with some experts arguing that a biological chemical or even nuclear attack on a major U S city is all but inevitable In this highly charged rapidly shifting environment we are pleased to present the The SAGE Encyclopedia of Terrorism Second Edition a thoroughly updated and expanded edition of the original highly regarded reference work Nearly 100 000 words of new material will be added along with fully updated original entries and expanded coverage New introductory essays will explore the impact of terrorism on economics public health religion and even pop culture Ethical issues such as the role of torture in interrogations competing notions of security versus liberty and the debates over FISA legislation and Guantanamo Bay will also be covered Two dozen entries on significant recent events such as the London bombings Chechen attacks on Russian interests and the rescue of Ingrid Bettancourt and some 60 additional new entries will restore the work as an up to the minute natural first stop for researchers

*Fashion, Desire and Anxiety* Rebecca Arnold, 2001-03-02 This text argues that fashion and the imagery surrounding it give us a vision of Western culture that is both enticing and alienating flaunting capitalism's euphoric emblems of glamour and success but also representing the underside of modern life In the 1970s photographers like Guy Bourdin and Helmut Newton set models against backdrops of tarnished glamour in the 1990s Alexander McQueen and John

Galliano created decadent femmes fatales whose sexual allure was equally tempting and threatening Rebecca Arnold explores the complex nature of modern fashion attempting to unravel the contradictory emotions of desire and anxiety that it provokes

Bronner, Cindy Dell Clark, 2016-03-21 What are the components of youth cultures today This encyclopedia examines the facets of youth cultures and brings them to the forefront Although issues of youth culture are frequently cited in classrooms and public forums most encyclopedias of childhood and youth are devoted to history human development and society A limitation on the reference bookshelf is the restriction of youth to pre adolescence although issues of youth continue into young adulthood This encyclopedia addresses an academic audience of professors and students in childhood studies American studies and culture studies The authors span disciplines of psychology sociology anthropology history and folklore The Encyclopedia of Youth Cultures in America addresses a need for historical social and cultural information on a wide array of youth groups Such a reference work serves as a corrective to the narrow public view that young people are part of an amalgamated youth group or occupy malicious gangs and satanic cults Widespread reports of bullying school violence dominance of athletics over academics and changing demographics in the United States has drawn renewed attention to the changing cultural landscape of youth in and out of school to explain social and psychological problems      The Paradox of Authenticity in a Globalized World R. academic environment to the professional world they are challenged by racist statements made by prominent national figures anti Semitic doctrines such as Christian Identity which teaches that white Anglo Saxons are the true Israel and also purported scholars who deny the reality of the Holocaust itself Circumstances in life connect them with a young Iranian migr named Jahangir Khatami whose Muslim beliefs conflict strongly with their own Yet when a violent incident brings the three of them together they are forced to reexamine not just their differences but their similarities While they clash over the ideals of Zionism and its ramifications in the modern State of Israel they are united in their horror over the terrorist attacks of September 11 2001 Join a diverse cast of characters some of whom appeared in the authors earlier book Beyond Heaven and Earth in a probing exploration that may help you reconsider just what it means to be Jewish Christian or Muslim in the modern world
