**Islands in the Net** Bruce Sterling, 2014-12-30 In a near future new age of corporate control hacker mercenaries and electronic terrorism a public relations executive on the rise finds herself caught in the violent epicenter of a data war Two decades into the twenty first century the world's nations are becoming irrelevant Corporations are the true global powers with information the most valuable currency while the smaller island nations have become sanctuaries for data pirates and terrorists A globe trotting PR executive for the large corporate economic democracy Rizome Industries Group Laura Webster is present when a foreign representative is assassinated on Rizome soil during a conference for offshore data havens Dispatched immediately on an international mission of diplomacy Laura hopes she can make a difference in a volatile unsteady world but instead finds herself trapped on the front lines of rapidly escalating third world hostilities and caught up in an inescapable net of conspiracy terrorism post millennial voodoo and electronic warfare During the 1980s science fiction luminary Bruce Sterling envisioned the future and hit it almost dead on The author who along with William Gibson Neal Stephenson and Rudy Rucker helped create and define the cyberpunk subgenre imagines a world of tomorrow in *Islands in the Net* that bears a striking and disturbing resemblance to our present day information age reality Nominated for the Hugo and Locus Awards and winner of the John W Campbell Memorial Award Sterling's extraordinary novel is a gripping eye opening and remarkably prescient science fiction classic      **Nuttall's standard dictionary of the English language** P. Austin Nuttall, 1890      *British Nautical Melodramas, 1820-1850* Arnold Schmidt, 2022-07-30 During the 1820s and 30s nautical melodramas reigned supreme on London stages entertaining the mariners and maritime workers who comprised a large part of the audience for small theatres These plays mixed sentimental moments and comic interludes of domestic melodrama with patriotic images that communicated and reinforced imperial themes However generally the study of British theatre history moves from medieval and renaissance plays directly to the realism and naturalism of late Victorian and modern drama Readers typically encounter a gap between Restoration and eighteenth century plays like those of Oliver

Goldsmith and Richard Brinsley Sheridan and late nineteenth plays by Henrik Ibsen and Oscar Wilde Nineteenth century drama with the possible exception of plays by Byron Shelley and Wordsworth remains all but invisible Until recently melodramatic plays written and performed during this gap received little scholarly attention but their value as reflections of Britain's promulgation of imperial ideology and its role in constructing and maintaining class gender and racial identities have given discussions of melodrama force and momentum The plays included in these three volumes have never appeared in a critical anthology and most have not been republished since their original nineteenth century editions Each play is transcribed from original documents and includes an author biography a headnote about the play itself full annotations with brief definitions of unfamiliar vocabulary and explanatory notes Comprehensive editorial apparatus details the nineteenth century imperial naval political and social history relevant to the plays nautical themes as well as discussing nineteenth century theatre history melodrama generally and the nautical melodrama in particular Contemporary theatre practices acting audiences staging lighting special effects are also examined An extensive bibliography of primary and secondary texts a complete index and contemporary images of the actors theatres stage sets playbills costumes and locales have been compiled to aid study further
