Mnemopoetics Valérie Bada, 2008 From its very beginning African American drama has borne witness to the creative power of the slaves to maintain their human dignity as well as to fashion a complex culture of survival If the memory

of slavery has always been at the heart of the African American theatrical tradition it is the way in which it is processed and inscribed that has developed and is still changing Through the close reading and socio historical analysis of eight plays from 1939 to 1996 the author seeks to unravel the fluctuating patterns in the shaping of the theatrical memory of slavery long after its abolition To do so she defines the concept and practice of mnemopoetics as the making of memory through imagination as well as the critical approaches that decipher and interpret cultural productions of memory As a constellation of processes akin to the fluidity of memory mnemopoetics blends creative representation and critical exploration to suggest that the cultural creation of memory necessarily entails a self reflexive involvement with its own interpretation If slavery embodies the deep foundational memory of America African American drama represents the open communal space where it becomes possible to convert the irretrievable nature of a vicarious past into the redeeming function of a collective memory

nonwhite superheroes nonetheless remained grounded in outdated assumptions Multiculturalism encouraged further diversity with 1980s superteams the minority run company Milestone s new characters in the 1990s and the arrival of Ms Marvel a Pakistani American heroine and a new Latinx Spider Man in the 2000s Concluding with contemporary efforts to make both a profit and a positive impact on society All New All Different enriches our understanding of the complex issues of racial representation in American popular culture
