Sharpe,2015-01-30 This lively and lucid introduction to the philosophy of music concentrates on the issues that illuminate musical listening and practice It examines the conceptual debates relevant to the understanding and performing of music and grounds the philosophy to practical matters throughout Ideal for a beginning readership with little philosophical background the author provides an overview of the central debates enlivened by a real sense of enthusiasm for the subject and why it matters The book begins by filling in the historical background and offers readers a succinct summary of philosophical thinking on music from the Ancient Greeks to Eduard Hanslick and Edmund Gurney Chapter 2 explores two central questions what is it that makes music or to be precise some pieces of music works of art And what is the work of music per se Is it just what we hear the performance or is it something over and above that something we invent or discover Chapter 3 discusses a problem peculiar to music and one at the heart of philosophical discussion of it can music have a meaning And if so what can it be Chapter 4 considers whether music can have value Are there features about music that make it good features which can be specified in criteria Is a work good if and only if it meets with the approval of

an ideally qualified listener How do we explain differences of opinion Indeed why do we need to make judgements of the relative value of pieces of music at all This engaging and stimulating book will be of interest to students of aesthetics musical practitioners and the general reader looking for a non technical treatment of the subject Slavonic Dances, Op. 46 Antonín Dvořák, 1878 **The Term's Music** Cedric Howard Glover, 1925 **Music in Print Master Composer Index**, 1995

The Australian Musical News, 1926 **Classical Repertoire for Trumpet, Volume 2** Custol Puscoiu, 2012-03-02 Great performers have proven that the trumpet can be successfully used for playing not only classic music but also symphonic or chamber music from the classical romantic or modern period just as well as any other musical instrument No longer is contemporary repertoire considered unfit for the trumpet Every sincere instrumentalist needs a regular study program A daily practice of technical exercises and etudes is necessary for improving and maintaining the desired results Regularly playing works of music should be the aim of every musician amateur as well as professional the best keys have been carefully chosen for trumpet and therefore many songs are not in the keys in which they were originally written Also a number of other adaptations have been introduced to make the music more suitable for performance on the trumpet in B flat Composers include Bach Brahms Chopin Chedeville Von Weber Vivaldi Geminiani Mozart Corelli Bigaglia Purcell Clarke Schubert Handel Lavigne Grieg Haydn Dvor k Saint Sa ns and Faur the piano accompaniment is available as a free download *The Musical Year-book of the United States*, 1888
