Sledgehammer Womens Imprisonment At The Millennium:

Analysing Women's Imprisonment Pat Carlen, Anne Worrall, 2013-01-11 In both the UK and the rest of the world there have been rapid increases in the numbers of women in prison which has led to an acceleration of interest in women's crimes and the social control of women and women's experience of both prison and the criminal justice system is very different to men's. This text is concerned to address the key issues relating to women's imprisonment contributing at the same time to an understanding of prison issues in general and the historical and contemporary politics of gender and penal justice. What are women's prisons for? What are they like? Why are lone mothers, ethnic minority and very poor women disproportionately represented in the women's prison population? Should babies be sent to prison with their mothers? These are amongst the issues with which this book is concerned. *Analysing Women's Imprisonment* is written as an introductory text to the subject aiming to guide students of penology carefully through the main historical and contemporary discourses on women's imprisonment. Each chapter has a clear summary, concepts to know, essay questions and recommendations for further reading and will help students prepare confidently for seminars, course examinations and project work. **Vulnerable**

Victimizations Phil Mulvey, Shelly L. Clevenger, 2023-09-06 This edited volume showcases research on vulnerable victimizations or more specifically on individuals and/or populations that due to their status have less power in society, are socially controlled in unique ways in the criminal legal system or are members of marginalized groups with specialized considerations surrounding their victimization experiences such as LGBTQIA individuals, immigrants, incarcerated persons, children and females. The scholarship focuses on the overall victimization experience and at the same time is also centered on the victimization experiences of historically ignored and/or marginalized groups. Victimization of vulnerable individuals in the United States is increasing at a moment when marginalized groups continue to confront legislative and policy reforms that would undermine their liberty. It is as important now as it has ever been for the field of victimology to consider those who historically may not have the loudest or any voice to spotlight and investigate their experiences. *Vulnerable Victimizations* will be a key resource for academics, researchers and advanced students of Victimology, Criminology and Criminal Justice. The chapters included in this book were originally published in *Victims Offenders*. **Fifty Key Thinkers in Criminology** Keith Hayward, Shadd Maruna, Jayne Mooney, 2009-12-04 *Fifty Key Thinkers in Criminology* brings the history of criminological thought alive through a collection of fascinating life stories. The book covers a range of historical and contemporary thinkers from around the world offering a stimulating combination of biographical fact with historical and cultural context. A rich mix of life and times detail and theoretical reflection is designed to generate further discussion on some of the key contributions that have shaped the field of criminology. Featured profiles include Cesare Beccaria, Nils Christie, Albert Cohen, Carol Smart, W. E. B. DuBois, John Braithwaite. *Fifty Key Thinkers in Criminology* is an accessible and informative guide that includes helpful cross referencing and suggestions for further reading. It is of value to all students of criminology and of interest to those in

related disciplines such as sociology and criminal justice

Punishment and Social Control Stanley Cohen, 2017-07-05 While crime law and punishment are subjects that have everyday meanings not very far from their academic representations social control is one of those terms that appear in the sociological discourse without any corresponding everyday usage This concept has a rather mixed lineage After September 11 has become a slogan that conveys all things to all people but carries some very specific implications on interrogation and civil liberties for the future of punishment and social control The editors hold that the already pliable boundaries between ordinary and political crime will become more unstable national and global considerations will come closer together domestic crime control policies will be more influenced by interests of national security measures to prevent and control international terrorism will cast their reach wider to financial structures and ideological support the movements of immigrants refugees and asylum seekers will be curtailed and criminalized taken for granted human rights and civil liberties will be restricted In the midst of these dramatic social changes hardly anyone will notice the academic field of punishment and social control being drawn closer to political
