Worry Less, Live More Robert J. Morgan, 2017-11-07 How do you bury worry before it buries you Worry which is essentially a strain of fear is a rational response to real pressures and problems Life is harder than we expect and even the Lord Jesus the Prince of Peace Himself admitted Each day has enough trouble of its own Matthew 6 34 He said In this world you will have trouble John 16 33 On one occasion He even said Now my soul is troubled and what shall I say John 12 27 Our souls are easily troubled The world and its trials seem to only increase In nearly forty years of pastoral counseling Rob Morgan has seen a lot of changes in our culture People are anxious and everyone seems increasingly tense and taunt We re overextended running on empty and often running late We re worried and we re weary One moment we re alarmed about global politics and the next we re frustrated with a clogged commode or a cranky boss Stress can have a way of keeping us on pins and needles from dawn to darkness In this book Pastor Morgan leads the way through the investigation of the Bible s premier passage on the subject of anxiety Philippians 4 4 9 is God s most definitive word about overcoming anxiety and experiencing His overwhelming peace Dissecting the following eight practices this vital passage promotes will help you to wage war on worry The Practice of Rejoicing The Practice of Gentleness The Practice of Nearness The Practice of Prayer The Practice of Thanksgiving The Practice of Thinking The Practice of Discipleship The Practice of Peace When we study and employ these practices effectively we have the power to erase anxious thoughts and compose our minds with peace in any situation

Stress Less, Live More Sarah Frances Mitchell, In the quiet moments before dawn when the world still sleeps and our minds begin to stir many of us find ourselves already cataloguing the day s worries The presentation at work the bills that need paying the family obligations that seem to multiply like weeds in an untended garden This early morning anxiety has become so commonplace that we ve begun to accept it as normal as simply part of being an adult in today s fast paced world But what if this acceptance is part of the problem What if the stress that we ve normalized is actually stealing our capacity for joy creativity and genuine connection with others The truth is that while stress has always been part of the human experience the chronic unrelenting nature of modern stress represents something fundamentally different from what our ancestors faced Our nervous systems evolved to handle acute threats the sudden appearance of a predator a natural disaster or immediate physical danger In these situations stress serves us well flooding our bodies with adrenaline and cortisol to help us fight or flee But our modern stressors rarely resolve themselves in minutes or hours Instead they linger for weeks months or even years keeping our stress response system perpetually

Sleepless Annabel Abbs-Streets,2024-02-13 Why women s brains work differently at night and how we can harness that altered state for greater creativity insight and courage In the winter of 2020 Annabel Abbs Streets experienced a series of losses her stepfather then father and finally her family s puppy Unmoored by grief she couldn t sleep But she discovered something surprising during her wakeful nights the darkness became a place of sanctuary filled with creativity reflection and wonder And once she stopped fighting her insomnia Annabel tapped into something mysterious and beguiling her Night Self In the tradition of books like *Breath* and *Wintering* *Sleepless* combines science historical research and personal experience to explore the complicated relationship women have with darkness Her night journeys range from quiet country fields to brightly lit city streets to the darkest reaches of the Arctic Circle And from women of the past Lee Krasner Virginia Woolf Louise Bourgeois and dozens more who opened their minds on sleepless nights to contemporary women who found a form of healing in darkness From moth hunters to astronomers from artists to photographers Annabel found she wasn t alone Cut loose from the anxiety of insomnia numerous women discovered strength imagination and inner knowledge at night Many also learned to finally sleep *Life after Stress* M. Shaffer,2012-12-06 STRESS STYLES It is late afternoon on the last Friday of the month At the bank the lines of customers waiting to deposit their paychecks or to withdraw money for the weekend have stretched practically to the front doors At one window a customer finishes and the next person a merchant steps up He opens a cloth bag and produces a stack of checks cash and deposit slips almost two inches thick The teller s eyes widen This will be at least ten minutes work maybe fifteen What about those other customers waiting in line How will they react Interestingly enough the reactions of the customers waiting in line behind the merchant vary considerably Gary Johnson for instance is furious He grinds his cigarette under his heel and mutters about inconsiderate jerks who wait until

the last minute to deposit their week s receipts Gary shifts back and forth from foot to foot the swaying of his body telegraphing his frustration He probes his pockets to see whether any of his antacid mints are left Finding none he curses under his breath and lights another cigarette

Exercised Daniel Lieberman,2021-01-05 If exercise is healthy so good for you why do many people dislike or avoid it These engaging stories and explanations will revolutionize the way you think about exercising not to mention sitting sleeping sprinting weight lifting playing fighting walking jogging and even dancing Strikes a perfect balance of scholarship wit and enthusiasm Bill Bryson New York Times best selling author of The Body If we are born to walk and run why do most of us take it easy whenever possible Does running ruin your knees Should we do weights cardio or high intensity training Is sitting really the new smoking Can you lose weight by walking And how do we make sense of the conflicting anxiety inducing information about rest physical activity and exercise with which we are bombarded In this myth busting book Daniel Lieberman professor of human evolutionary biology at Harvard University and a pioneering researcher on the evolution of human physical activity tells the story of how we never evolved to exercise to do voluntary physical activity for the sake of health Using his own research and experiences throughout the world Lieberman recounts without jargon how and why humans evolved to walk run dig and do other necessary and rewarding physical activities while avoiding needless exertion Exercised is entertaining and enlightening but also constructive As our increasingly sedentary lifestyles have contributed to skyrocketing rates of obesity and diseases such as diabetes Lieberman audaciously argues that to become more active we need to do more than medicalize and commodify exercise Drawing on insights from evolutionary biology and anthropology Lieberman suggests how we can make exercise more enjoyable rather than shaming and blaming people for avoiding it He also tackles the question of whether you can exercise too much even as he explains why exercise can reduce our vulnerability to the diseases mostly likely to make us sick and kill us

Sleep and Dreaming Marvin Rosen,2006 Although many aspects of sleep remain a mystery to neuroscientists in recent years great headway has been made toward developing a solid understanding of how and why the brain causes us to sleep and to dream
