Documents on Israeli-Soviet Relations, 1954-1967 Yaacov Ro'i, Yehoshua Freundlich, Boris Morozov, 2025-05-19 This book spanning the years 1965 1967 the years leading up to and culminating in the June 1967 Six Day War is the fourth in a four volume collection of documents from the Russian Federation and the Israeli State Archive portraying relations between the Soviet Union and the State of Israel Most of the documents are communications composed by successive Soviet ambassadors in Israel and Israeli ambassadors in Moscow and their respective staff They illustrate the way Soviet ideology placed Israel irreparably in the enemy western camp in the Cold War Moscow's attempt to manipulate Israel into a seemingly neutral position in the international arena was therefore a ploy the failure of which was a foregone conclusion Israel's efforts to normalise relations between the two states were by turns genuine and unserious and similarly doomed to fail both because of ongoing Soviet arms supplies to Egypt and Syria which Israel perceived as a major threat to its security and because the Israeli government and public felt a commitment to the well being of the Soviet Jewish minority that they saw as deprived of basic rights The book will be of interest to scholars and students of Soviet foreign policy Israel's formative years the Arab Israeli conflict and Soviet Jewry and it will be a must for university libraries Canadian Gazette and Export Trader ,1911

Ecological Modernisation and Environmental Compliance Shahpar Selim, 2013-02-01 Economic development that is environmentally socially and ethically sound is at the forefront of contemporary debates all over the world This is especially relevant to international trade where goods manufactured in least developed countries LDCs are being exported to developed

countries DCs via international supply chains This book looks at Bangladesh s ready made garments RMG industry the seventh largest in the world facing demands for environmental and social management according to standards set by consumers in environmentally progressive societies Apart from these concerns not having found cultural or institutional resonance in Bangladesh the pressures for cost reduction on time delivery and cheap labour in a highly competitive international market make the problem that much more complex In this book Selim uses the analytical framework provided by the ecological modernisation theory to examine the economic communicative and social political aspects of ethical trade and argues that the economy ecology relationship can indeed be a positive sum game if nation states and economic actors change their policymaking styles and greening behaviour to take advantage of scientific evidence and green technological opportunities **Board of Trade Journal** ,1958
