## **Social Currents In Eastern Europe The Sources And Meaning Of The Great Transformation:**

Social Currents in Eastern Europe Sabrina P. Ramet,1995 Examines the meanings and sources of various social currents intellectual dissent feminism religious activism the formation of independent youth cultures and movements and trade unionism in seven communist countries      **Social Currents in Eastern Europe** Sabrina P. Ramet,1991 Examines the meanings and sources of various social currents intellectual dissent feminism religious activism the formation of independent youth cultures and movements and trade unionism in seven communist countries      *The New Great Transformation?* Christopher Bryant,Edmund Mokrzycki,2002-11-01 This timely and assured book provides an essential guide to one of the biggest social political and economic developments of our time      *East Germany* ,2021-10-25      **Private Truths, Public Lies** Timur Kuran,1998-06-16 Drawing on diverse intellectual traditions including those rooted in economics psychology sociology and political science Kuran provides a unified theory of how preference falsification shapes collective decisions orients structural change sustains social stability distorts human knowledge and conceals political possibilities      A History of Eastern Europe 1918 to the Present Ian D. Armour,2021-04-08 Why is Eastern Europe still different from Western Europe more than a quarter century after the collapse of Communism A History of Eastern Europe 1918 to the Present shows how the roots of this difference are based in Eastern Europe s tortured 20th century Eastern Europe emerged in 1918 as the lands between new states whose weakness vis vis Germany and Soviet Russia soon became obvious The region was the main killing field of the Second World War which visited unimaginable horrors on its inhabitants before their liberation by the Soviets in 1945 The imposition of Communist dictatorships on the region ironically only deepened Eastern Europe s backwardness Even in the post Communist period its problems continue to make it a fertile breeding ground for nationalism and political extremism A History of Eastern Europe 1918 to the Present explores the comparative backwardness of Eastern Europe and how this has driven strategies of modernisation it looks at the ways in which the region has served as a giant test tube for political experimentation and in particular at the enduring strength of nationalism which since 1989 has re emerged more virulent than ever This book in the essential textbook for any student of 20th century Eastern Europe      **The Germans And Their Neighbors** Dirk Verheyen,Christian Soe,2019-07-09 For Germany s neighbors perhaps more acutely than for observers elsewhere the 1990 reunification of divided Germany has raised old memories and new concerns in public and scholarly discourse The shape and influence of these issues are the subject of this unique ambitious book Organized into country specific chapters the book offers original expert analyses of Germany s relations with seventeen European neighbors as well as with the United States The contributors explore the essential concerns these nations have faced in their bilateral relations with Germany past present and future In their introduction the editors trace both commonality and diversity in various national conceptions of the German Question and the ways in which these perceptions in turn generate shared as well as divergent national policy agendas vis a vis united Germany      Popular Protest And Political Culture In Modern China

Jeffrey N Wasserstrom, 2018-02-07 This innovative and widely praised volume uses the dramatic occupation of Tiananmen Square as the foundation for rethinking the cultural dimensions of Chinese politics Now in a revised and expanded second edition the book includes enhanced coverage of key issues such as the political dimensions of popular culture addressed in a new chapter on Chinese rock and roll by Andrew Jones and the struggle for control of public discourse in the post 1989 era discussed in a new chapter by Tony Saich Two especially valuable additions to the second edition are art historian Tsao Tsing yuan's eyewitness account of the making of the Goddess of Democracy and an exposition of Chinese understandings of the term revolution contributed by Liu Xiaobo one of China's most controversial dissident intellectuals The volume also includes an analysis by noted social theorist and historical sociologist Craig C Calhoun of the similarities and differences between the new social movements of recent decades and the old social movements of earlier eras

**TEXT CONCLUSION** To facilitate classroom use the volume has been reorganized into groups of interrelated essays The editors introduce each section and offer a list of suggested readings that complement the material in that section

*Building Democracy in the Yugoslav Successor States* Sabrina P. Ramet, Christine Hassenstab, Ola Listhaug, 2017-05-15 A comprehensive analysis of how the Yugoslav successor states have coped with the challenges of building democracy since 1990

*Transitions and Non-Transitions from Communism* Steven Saxonberg, 2013-02-14 Since the fall of the Berlin Wall many scholars have sought to explain the collapse of communism Yet more than two decades on communist regimes continue to rule in a diverse set of countries including China Cuba North Korea and Vietnam In a unique study of fourteen countries Steven Saxonberg explores the reasons for the survival of some communist regimes while others fell He also shows why the process of collapse differed among communist led regimes in Europe Africa and Latin America Based on the analysis of the different processes of collapse that has already taken place and taking into account the special characteristics of the remaining communist regimes *Transitions and Non Transitions from Communism* discusses the future prospects for the survival of the regimes in China Cuba North Korea and Vietnam

*West Germany Under Construction* Robert G. Moeller, 1997 Collects important recent essays in a critical reexamination of the Federal Republic's early history

**The Fall** Steven Saxonberg, 2017-07-05 With a foreword by Seymour Lipset Hoover Institution and George Mason University USA The Fall examines one of the twentieth century's great historical puzzles why did the communist led regimes in Eastern Europe collapse so quickly and why was the process of collapse so different from country to country This major study explains why the impetus for change in Poland and Hungary came from the regimes themselves while in Czechoslovakia and East Germany it was mass movements which led to the downfall of the regimes

*The Arab Uprisings* Eberhard Kienle, Nadine Sika, 2015-06-22 The uprisings which spread across the Middle East and North Africa in late 2010 and 2011 irrevocably altered the way in which the region is now perceived But in spite of the numerous similarities in these protests from Tunisia and Egypt to Yemen and Bahrain their broader political effects display important differences This book analyses these popular uprisings as well as other forms of

protest and the impact they had on each state Why were Mubarak and Bin Ali ousted relatively peacefully in Egypt and Tunisia while Qadafi in Libya and Saleh in Yemen fought violent battles against their opponents Why do political transformations differ in countries that were able to shed their autocratic presidents And why have other regimes including Morocco and Saudi Arabia experienced only limited protests or managed to repress and circumvent them Looking at the aftermath and transitional processes across the region this book is a vital retrospective examination of the uprisings and how they can be understood in the light of state formation and governmental dynamics Illustrated Slovak History Anton Špiesz, Dušan Čaplovič, Ladislaus J. Bolchazy, 2006 Little contemporary scholarship on Slovak history exists in English This title fills an important gap in historiography about events throughout Central Europe over the last fourteen centuries It presents the history of Slovakia in terms of the latest scholarship and in the context of on going historical debate about Slovak history and its presentation in post socialist world Extensive footnotes by scholars 350 color illustrations Index Bibliography Foreword and Epilogue **Cultural Politics in the Third World** Mehran Kamrava, 1999 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company **The Feminist Challenge to the Socialist State in Yugoslavia** Zsófia Lóránd, 2018-09-27 This book tells the story of new Yugoslav feminism in the 1970s and 1980s reassessing the effects of state socialism on women s emancipation through the lens of the feminist critique This volume explores the history of the ideas defining a social movement analysing the major debates and arguments this milieu engaged in from the perspective of the history of political thought intellectual history and cultural history Twenty five years after the end of the Cold War societies in and scholars of East Central Europe still struggle to sort out the effects of state socialism on gender relations in the region What could tell us more about the subject than the ideas set out by the only organised and explicitly feminist opposition in the region who as academics artists writers and activists criticised the regime and demanded change **Sociological Theory** George Ritzer, Jeffrey Stepnisky, 2017-01-05 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award enabling graduate students and early career faculty to attend the annual ASA pre conference teaching and learning workshop Now with SAGE Publishing and co authored by one of the foremost authorities on sociological theory the Tenth Edition of Sociological Theory by George Ritzer and Jeffrey Stepnisky gives readers a comprehensive overview of the major theorists and schools of sociological thought from sociology s origins through the early 21st century Key theories are integrated with biographical sketches of theorists and are placed in their historical and intellectual context This text helps students better understand the original works of classical and contemporary theorists and enables them to compare and contrast the latest substantive concepts *Of Mermaids and Rock Singers* Maria Paula Survilla, 2020-11-25 This book examines the roles functions and interpretations of rock music as part of the initial push towards exploring national and personal identities in a newly independent Belarus It also includes a summary of rock concert activity in Belarus *Youth and Rock in the Soviet Bloc* William Jay Risch, 2014-12-17 Youth and Rock in the Soviet Bloc

explores the rise of youth as consumers of popular culture and the globalization of popular music in Russia and Eastern Europe This collection of essays challenges assumptions that Communist leaders and Western influenced youth cultures were inimically hostile to one another While initially banning Western cultural trends like jazz and rock and roll Communist leaders accommodated elements of rock and pop music to develop their own socialist popular music They promoted organized forms of leisure to turn young people away from excesses of style perceived to be Western Popular song and officially sponsored rock and pop bands formed a socialist beat that young people listened and danced to Young people attracted to the music and subcultures of the capitalist West still shared the values and behaviors of their peers in Communist youth organizations Despite problems providing youth with consumer goods leaders of Soviet bloc states fostered a socialist alternative to the modernity the capitalist West promised Underground rock musicians thus shared assumptions about culture that Communist leaders had instilled Still competing with influences from the capitalist West had its limits State sponsored rock festivals and rock bands encouraged a spirit of rebellion among young people Official perceptions of what constituted culture limited options for accommodating rock and pop music and Western youth cultures Youth countercultures that originated in the capitalist West like hippies and punks challenged the legitimacy of Communist youth organizations and their sponsors Government media and police organs wound up creating oppositional identities among youth gangs Failing to provide enough Western cultural goods to provincial cities helped fuel resentment over the Soviet Union s capital Moscow and encourage support for breakaway nationalist movements that led to the Soviet Union s collapse in 1991 Despite the Cold War in both the Soviet bloc and in the capitalist West political elites responded to perceived threats posed by youth cultures and music in similar manners Young people participated in a global youth culture while expressing their own local views of the world
